Outlaw Wisdom:

Ethics in a Time of Barbarism Carl P. Ellerman, 2025-08-19 During a time of widespread intraspecific aggression and barbaric captivity throughout the planet this study of the ethics of survival asks the burning question At the extremes of experience when captives are struggling to survive is there a line at which the moral judgment of survival behavior ceases Stated differently Are there times in the lives of humans when the valiant attempt to maintain moral scruples clashes with the way the world is moments when moral pretension moral aspiration and the expectation of moral agency are absurd Putting the burning question under strain Carl P Ellerman offers testimony from the confessional publications of survivors who were subjected to life threatening barbaric experiences He also critically scrutinizes the competing ethical perspectives of Hume Kant Nietzsche and the U S Department of Defense Military Code of Conduct to show how the ethics of survival has been handled philosophically and militarily Empirical evidence from Evolutionary Biology Primatology and the Neurosciences is interwoven to advance a biological realism in the ethics of survival Readers are also invited to undertake an honest self examination using active imagination to answer unsparing questions as if each reader were wearing the shoes of a captive who abjures the fictions of an ideal self
