Outstripping Gravity:

Outstripping Gravity Michael Tolkien, 2000 **Rainbow** Michael Tolkien, 2013-03 To increase her sense of wonder Grace is chosen by Nature's spirit guides and guardians to travel on a funny sometimes fearful journey Her unlikely allies are small often overlooked plants flowers and insects She seems to be about to discover what lies in and beyond the rainbow but her decision to help a lost bitter boy Downcast Don to rediscover wonder diverts her through colourful and disturbing forests down a well to find an underground forge and into a meeting with an ancient desert giantess Her chief guide Heartsease assures her this is all part of a search for rainbow wisdom to see how all things and people matter Allowed then to climb the Shining Stairway Grace is nearer the rainbow but in more danger of being sidetracked by strange even dangerous forces The promised places are beautiful and intriguing but she learns to look back below the surface of her adventures and to make important choices Suddenly back in the everyday world she is still herself but more so because she can see and understand more acutely **Wish** Michael Tolkien, 2013-03 Farmers in their alpine valley are haunted by Fingler a cunning old enchanter who ruins their lives by using an ancient wishing chain of powerful stones to spoil crops and steal children cows and goats Young Berwald and his sister Clara set out without their parents knowing to climb into the next valley seize the chain free their neighbourhood of fear and wish for whatever they want But they soon learn that the wild world beyond their home is full of strange forces some good some dark and twisted and almost every wish they make adds new complications and disagreements Who can rescue them from this fearful and dangerous adventure Before Adam their angry and worried father can reach them he must learn to follow seemingly useless leads and to listen carefully to the tale that lies behind the villain's bitterness A timeless fantasy tale given new life and enchantment in this vivid retelling in verse Exposures Michael Tolkien, 2003 **Acumen Magazine**, 2001 **Tesla** Tad Wise, 1994 A fictionalized biography of Nikola Tesla the inventor of alternating current a major development in electricity The son of immigrants he first works for Edison then strikes out on his own With Westinghouse's backing he produces a string of inventions including fluorescent lighting He dies a poor man **Austria and Austrians** Wolfgang Görtzschacher, Holger Klein, 2003 **Fire**, 2000 **Moral Authority in Seamus Heaney and Geoffrey Hill** Bridget Vincent, 2022 Studies the work of Seamus Heaney and Geoffrey Hill to present new perspectives on the way literature communicates moral knowledge **Taking Cover** Michael Tolkien, 2005 Taking Cover interlaces poems of the 32 page pamphlet Learning Not to Touch with revised and new work appropriate to its main themes childhood experience bereavement spirituality beyond religion and ambiguities in relationships with the human and natural world BOOK JACKET *Spinal Catastrophism* Thomas Moynihan, 2019-12-03 The historical continuity of spinal catastrophism traced across multiform encounters between philosophy psychology biology and geology Drawing on cryptic intimations in the work of J G Ballard Georges Bataille William Burroughs Andr Leroi Gourhan Elaine Morgan and Friedrich Nietzsche in the late twentieth century Daniel Barker formulated the axioms of spinal catastrophism If human morphology

upright posture and the possibility of language are the ramified accidents of natural history then psychic ailments are ultimately afflictions of the spine which itself is a scale model of biogenetic trauma a portable map of the catastrophic events that shaped that atrocity exhibition of evolutionary traumata the sick orthograde talking mammal Tracing its provenance through the biological notions of phylogeny and organic memory that fueled early psychoanalysis back into idealism nature philosophy and romanticism and across multiform encounters between philosophy psychology biology and geology Thomas Moynihan reveals the historical continuity of spinal catastrophism From psychoanalysis and myth to geology and neuroanatomy from bioanalysis to chronopathy from spinal colonies of proto minds to the retroparasitism of the CNS from railway spine to Elizabeth Taylor s lost gill slits this extravagantly comprehensive philosophical adventure uses the spinal cord as a guiding thread to rediscover forgotten pathways in modern thought Moynihan demonstrates that far from being an fanciful notion rendered obsolete by advances in biology spinal catastrophism dramatizes fundamental philosophical problematics of time identity continuity and the transcendental that remain central to any attempt to reconcile human experience with natural history
