Our Search For The Mystical Mistletoe:

Our Search for the Mystical Mistletoe William Overlease, Edith Overlease, 2005-06-01 1993 Edith and I were told that mistletoe no longer occurred in Indiana This intrigued us to the point that we decided to try and see if we could find it For three years we investigated southern Indiana near the Ohio River Though not common we did find small colonies and often only individual plants all along the river from Illinois on the west to near the Ohio border on the east We enjoyed the adventure of the search so much that we wondered about its distribution in the nearby states First Kentucky then Illinois and finally Ohio By now we were hooked on mistletoe and continued our search throughout eastern United States during our travels We were primarily interested in its abundance its distribution and in particular its host tree species Every effort was made to make our counts accurate and our tree identifications taxonomically correct We had been told by some interested field botanists that it wasn't host specific but occurred on almost any tree species We found that it was quite host specific and that the hosts varied from region to region One of the most interesting questions that resulted from our field work was why the mistletoe only occurred on a tree species in certain parts of its range For example the wide ranging sycamore and red maple A mistletoe seed source was commonly noted near both species in many parts of their range but no mistletoe In local regions mistletoe was common to abundant The following maps summarize what we have observed Our Search for

the Mystical Mistletoe William R. Overlease, Edith Overlease, 2007 **I Will Take You to Broceliande** Elizabeth Muhlhaus, 2019-03-27 It is a mystery story and a detective story about mankind's primordial quest for peace on earth which first requires that we understand how peace gets destroyed And like the thrillers on TV that reveal clues slowly you will see a crescendo of mysteries that I knew were clues if I could just figure them out Those tough experiences were simply what I had to go through to develop the sensitivity to subliminal signals in nature that I never would have been able to pick up if my life had only been happy and easy Yet the story is peppered with exhilarating moments of transcendence love and naivete Wonderful experiences dotted this life like pecans in cinnamon rolls Arctic Miscellanies, 1852 Articles from the ship's newspaper Aurora Borealis published monthly on the Assistance Captain H T Austin during the Franklin search of 1850 51 Marginal notes by James Donnot surgeon Arctic Miscellanies James John Louis Donnet, John Ross, 2014-08-28 A collection of articles published in 1852 written by naval officers and men while searching for the lost Franklin expedition The Eclectic Magazine of Foreign Literature, Science, and Art, 1892 **The Mysterious Secret of Frankly Woods** Kathleen W.
