Our Toxic World A Wake Up Call Paperback:

Behind Closed Doors Joanne Stanton, Christine O'Donnell, 2017-09-26 Behind Closed Doors tells the story of two mothers who began investigating serious health issues in their own son and daughter and ended up writing an expose about the declining health of an entire generation of American children. In their relentless attempts to improve the health of their own children, they uncovered harmful trends in our food, pharmaceuticals, and environment, all stemming from weak laws and conflicts of interest. What they discovered shocked and ultimately empowered them to get actively involved in questioning and reforming these harmful out-of-balance practices and to inspire other moms to do the same. Behind Closed Doors not only offers scientifically verified evidence of how declining industry practices are harming our kids but showcases solutions like environmental medicine and other integrative health practices. Shares personal success stories and provides tools and solutions parents can immediately implement. Equipping and inspiring us all to stand together for change. **Dr. Mercola's Total Health Program** Joseph Mercola, Brian Vaszily, Kendra Pearsall, Nancy Lee Bentley, 2005 Would you want to be at your ideal weight. Truly look and feel younger and avoid premature aging. Eliminate or vastly reduce some disease or illness. Increase your daily energy and not feel down or tired all the time. Something else or all of the above. Next, envision what it will feel like to achieve that improvement. Maybe that sounds a bit hokey, but please try it. Close your eyes for a moment and imagine what it will really feel like to look in the mirror and see a fit and younger-looking you. Imagine feeling healthier, full of energy, free of illness, and more upbeat throughout the day, no matter what your current condition. Publisher website August 2006 **Daily Dose of Toxins** Marilyn Chernoff, 2005 Ever wondered why some people are ill in ways doctors seem unable to diagnose? Dr. Marilyn Chernoff's research makes it clear: toxic contamination may be what is affecting us. **Whole Soy Story** Kaayla T. Daniel, 2005-03-10 A groundbreaking expose that tells the truth about soy that scientists know but that the soy industry has tried to suppress. Soy is not a health food; it does not prevent disease and has not even been proven safe. Epidemiological, clinical, and laboratory studies link soy to malnutrition, digestive problems, thyroid dysfunction, cognitive decline, reproductive disorders, even heart disease and cancer. *Never Feel Old Again* Raymond Francis, 2013-10 Francis' debut *Never Be Sick Again* helped thousands of people put their incurable diseases into remission, shed excess weight, and improve their cholesterol profiles and immunity. Now he brings his revolutionary approach to readers who want to enjoy robust health and wellness and reverse accelerated aging. **Understanding Multiple Chemical Sensitivity** Els Valkenburg, 2010-01-13 This personal view of multiple chemical sensitivity and environmental illness is supported by research. In a question-and-answer format, the effects of exposure to perfume, smoke, air fresheners, cleaning products, exhaust, and other air contaminants are examined and linked to symptoms such as headaches, allergies, asthma, and fatigue. The book contains additional testimony and reports from 37 sufferers, as well as listings of resources and related scientific articles.
