## Out Of The Past:

**Out of the Past** Ben Tyrer, 2016-08-17 This book presents a new reading of film noir through psychoanalytic theory In a field now dominated by Deleuzian and phenomenological approaches to film philosophy this book argues that far from having passed the time for Lacan in Film Studies is only just beginning The chapters engage with Lacanian psychoanalysis to perform a meta critical analysis of the writing on noir in the last seven decades and to present an original theory of criticism and historiography for the cinema The book is also an act of mourning for a lost past of the cinema for a longstanding critical tradition and for film noir It asks how we can talk about film noir when in fact film noir doesn't exist The answer starts with Lacan and a refusal to relinquish psychoanalysis Lacanian theories of retroactivity and ontology can be read together with film history genre and narrative to show the ways in which theory and history past and present cinema and psychoanalysis are fundamentally knotted together Tyrer also explores Lacan through particular noir films such as *Double Indemnity* and *The Maltese Falcon* and demonstrates the possibilities for a Lacanian Film Studies as one that engages fully with Lacan's entire body of work that has hitherto not been realised

**Out of the Shadows** Neill Lochery, 2017-02-23 Out of the Shadows is a full account of post authoritarian democratic Portugal 1974 to Present following the Carnation Revolution which began on April 25th 1974 and based on documentary sources personal accounts and unpublished documents from the National Archive in Kew Lisbon and Portugal's best days are behind them is a common theme put forward by writers who focus their attention on the golden era of Portuguese discoveries the Empire and the role of Lisbon as a major Atlantic power Neill Lochery's book demonstrates that Portugal is not suffering from such inevitable decline In 1974 a dramatic overnight coup led to the fall of the Estado Novo dictatorship in Portugal in Lisbon the events became known as the Carnation Revolution As the colonies collapsed the United States helped airlift 13 000 refugees from Angola back to Portugal as US Secretary of State Henry Kissinger maneuvered to advance the moderate side of the government in Lisbon over the radicals and thus guarantee US interests As

Neill Lochery argues one of the major misunderstandings of the post revolution era in Portugal has been the concentration on domestic over international factors in helping to shape its story Having emerged from its twentieth century financial crisis and bail out and thus out of the shadows he argues that Portugal is a country of huge relevance to the present day and of great future significance to the European continent Indeed the strengthening of bonds between Portugal and its European neighbours can be seen to be more important than ever given the heightened tensions in European politics the refugee crisis and the prospect of a changing European Union
