Henry SMITH (Writer on Political Economy.),1866 *Outlines of Political Economy* Sydney John Chapman,2015-06-17
Excerpt from Outlines of Political Economy This book is designed for any who are beginning the study of Political Economy
On a first perusal all parts in small print might be omitted and also chapters XII XIII and XXIX Moreover I should recommend
only a hasty scanning of Book I in the first instance and at the same time the entire omission of Book V except by those who
are specially interested in problems of money and banking Chapters XXX and XXXI may be read at once or not according to
the reader s taste they raise questions which are not exclusively economic The diagrams are intended only for those who find
their understanding aided by diagrams In every case these symbolic demonstrations are merely supplementary to the
argument in words which has been made complete without them My indebtedness to Dr Marshall s teaching will be apparent
throughout I have also to thank Mr C F Bickerdike for revising the proofs Professor Bastable Professor Cannan and Professor
Gonner for making suggestions as regards the list of books with which these outlines conclude and my wife for helping me
with the proofs and in other ways About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic

Outline Study of Political Economy George McKendree Steele,1885 **Outline of Lectures Upon Political Economy** Henry Carter Adams,2015-06-24 Excerpt from Outline of Lectures Upon Political Economy Prepared for the Use of Students at the University of Michigan and Cornell University 1 Political Economy treats of industrial society Its purpose as an analytic science is to explain the industrial actions of men Its purpose as a constructive science is to discover a scientific and a rational basis for the formation and government of industrial society This statement is given in place of a definition and leads to three suggestions 1 Political economy being a science demands scientific treatment yet it bears no strict analogy to a physical science 2 The study of economics starts with the conception of organized society but limits its investigations to one set of social functions I a business activity 3 The object held in view by all students of economy is the well being of men so far as this is dependent on material prosperity Read Cossa ch I and Marshall ch I 2 The industrial actions of men are satisfactorily explained when shown to be in harmony with some ultimate truth which governs human conduct Such truths bring to view three classes of facts 1 Facts of human nature The economist is thus obliged to understand the fundamental character of man and to accept the laws of human nature as data for his reasoning To discover these laws he must rely on direct observation both of the workings of his own mind and the conduct of his neighbors upon history and upon statistics About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works **OUTLINES OF A SYSTEM OF POLITICAL ECONOMY** Thomas Joplin,1970
