Barker ,1916 **Hand Catalogue of the Edinburgh University Library**,1906 *In Defence of Psychiatric Diagnoses* Sam Fellowes,2025-03-07 This open access book makes a distinctive contribution by providing a novel defence of psychiatric diagnoses It defends psychiatric diagnoses by portraying them as idealised models understood in a neo Kantian sense It reject accounts which see psychiatric diagnoses as biomedical entities or as natural kinds Drawing upon this neo Kantian approach to scientific models the book provides a novel metaphysical account of what psychiatric diagnoses are and novel epistemological guidelines for constructing psychiatric diagnoses Psychiatric diagnoses are portrayed as models which abstract away from particular aspects of particular people to create generalised models that are applicable to multiple people In Defence of Psychiatric Diagnoses is essential reading for all scholars and researchers of the philosophy of science especially those focussing on the philosophy of psychiatry The Clinical Diagnosis of Internal Diseases: Muscles, bones, and joints, nervous system, metabolism Lewellys Franklin Barker,1916 **Monographic Medicine: The clinical diagnosis of internal diseases** ,1916 *Mental Abnormality and Deficiency* Sidney Leavitt Pressey,Luella Cole,1926 The authors have had two major purposes in writing this brief volume They have in the first place attempted to formulate material for a college course which should give in vigorous very direct practical fashion acquaintance with the major problems of mental health and mental disease and deficiency The writers have attempted not only to outline the primarily medical and psychiatric features of these problems of mental health but also to show their even more fundamental relations to education and to give some realization of the frequency with which matters involving mental abnormality appear in the affairs of everyday business and professional life The writers have in the second place attempted a treatment which should be of definite practical value to those interested in various special fields of work in which problems of personality and adjustment are frequently met they have had in mind particularly social service personnel management work with delinquents and those most important functionings of the school and college which involve the student s emotional and characterological development and his educational vocational and recreational guidance PsycINFO Database Record c 2005 APA all rights reserved
