Classen,1927    **Outlines of the History of the English Language** E. Classen,2015-06-16 Excerpt from Outlines of the History of the English Language This little volume does not pretend to furnish any new materials for the history of the English language It is rather a modest attempt to present the well known linguistic facts as illustrations of a consistent theory of the development of language and in that way to invest them with a more human interest The author feels and feels strongly that the study of language has been too long divorced from the study of ordinary human life and thought and that the traditional method of isolating linguistic material from the world of individual and social thought and emotion in which language lives can only be misleading The theory of development which is here put forward and which the facts of historical English grammar serve to illustrate is not orthodox Indeed in regarding sound change as the very last effect of a number of complex causes it runs directly counter to accepted views In other places too as in the explanation of the development of logical gender in Middle English and of the s plurals the theory comes into conflict with current opinion The author is greatly indebted to Mr O T Williams of King s College London and to Mr H G Wright of the University College of North Wales Bangor for their kindness in reading and revising the proofs About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works    **Outlines of the History of the English Language** E.
