Outlook On Our Inner Western Way:

Outlook on Our Inner Western Way William G. Gray, 1980 William Gray is one of the most prolific and controversial occultists writing today. Blending keen insight, modern psychological models, and an overall sense of practicality, his books have torn away at the moldy veils of so-called occult secrets, laying out a nononsense foundation by which modern Western humanity may once again regain its precious magical soul. In this book, Mr. Gray shows simply and lucidly how to live the Western Inner Tradition. Tracing the cosmology of Western magic, he substantiates its vitality and urgency for our future. Not since *Magick in Theory and Practice* and the works of Dion Fortune has there been such a mammoth attempt at presenting magic as the relevant living tradition. It is **An Outlook on Our Inner Western Way** William G. Gray, 2008

The Three Stages of Initiatic Spirituality Angel Millar, 2020-02-11 A detailed guide to the three successive initiatic archetypes: Craftsman, Warrior, and Magician. Investigates the symbolism, rituals, and metaphysical aspects of each initiatic archetype from the alchemy and shamanism of the craftsman to the subtle energy work of the warrior to the sex magic practices and Higher Self work of the magician. Shares meditations, practices, and transformational techniques for each archetype. Investigates the similarities between contemporary Western occultism from Crowley to Chaos Magic and the positive thinking mind metaphysics movement. Exploring the craftsman, warrior, and magician archetypes, three vocations that echo the traditional tripartite division of society, Angel Millar reveals how these archetypes represent the three successive stages of spiritual growth in an individual's life. He shows how they provide structure for the initiatory process to develop one's mental, physical, and spiritual potential. As craftsman, the individual experiences mnemonic initiation, the cultivation of memory, as well as language. As warrior, somatic initiation, development of the physical body, and cultivation of the spirit body. And as magician, gnostic initiation, cultivation of the self, and manifestation of the Higher Self. Investigating the metaphysical aspects of each archetype, the author explores their symbolism, spiritual practices, and rituals. Examining the craftsman archetype, he looks at metallurgy, alchemy, and the Craft of Freemasonry, as well as the ancient role of blacksmith as shaman. He explores the idea of God as a Creator or Craftsman, especially in relation to ancient Greek philosophy, Islamic neoplatonism, and the Kabbalah. Examining the warrior archetype, he reveals how the way of the warrior was affected by religion and mysticism, such as how the Persian martial art of Zorkhaneh was profoundly shaped by Sufism, and why the Buddhist Shaolin temple became synonymous with Kung Fu. The author places special emphasis on the cultivation of subtle energy as practiced in martial arts, especially in relation to Taoist inner alchemy. Examining the magician archetype, he reveals how each individual has two selves: a lower self and a Higher Self, and explores the union of opposites studied by the magician, such as in the tantric arts and sacred sex magic. Sharing meditations, practices, and processes associated with each archetype, as well as techniques for transforming one's consciousness, he also investigates similarities between contemporary Western occultism from Crowley to Chaos Magic and the positive thinking mind metaphysics movement.
