Notes on Genesis and Exodus Thomas Merton, Patrick F. O'Connell, 2023-02-23 Thomas Merton presented numerous sets of conferences during his decade 1955 1965 as novice master at the Cistercian Abbey of Gethsemani The two courses included in this volume a thorough examination of the book of Genesis that began in mid 1956 and concluded on the Feast of Pentecost in 1957 and a series of classes on the book of Exodus from 1957 and 1958 are here presented for the first time in a critical edition accompanied by extensive annotation and a comprehensive introduction These courses comprise the only major surviving teaching notes on particular books of Scripture dating from the years when Merton was in charge of the novitiate They provide direct access to his views on the intellectual and spiritual contexts in

which they should be understood As biblical scholar Pauline Viviano writes in her preface this edition of Thomas Merton's class notes brings us into the workings of a great spiritual leader's mind as he reflects upon Scripture all who are on a spiritual journey can gain from his insights and the lessons he draws *Monastic Practices* Charles Cummings, 2015 For three decades *Monastic Practices* has been a valued resource for English speaking aspirants to monastic life In this revised edition updated and expanded Charles Cummings OCSO explores the common practices of the monastic life in order to rediscover them as viable means of leading persons to a deeper encounter with God How do monks and nuns occupy themselves throughout the day Have they modernized their lifestyle or is it still cluttered with medieval customs Could any of the monastic practices be of use to those outside the monastery A certain wisdom is necessary to know how to use such practices and how to give oneself to them until they lead one to God After long monastic experience Cummings shows us how the ordinary things we do constitute our path to God In the art of living life he argues we are always beginners searching for God through our concrete circumstances and actions **Come and See** Brendan Freeman, 2010-04-01 *Come and See* is a look inside the mind of a monk The Vision of monastic life proposed here is not new it is a Vision going back to the Desert Fathers of the fourth century And yet it is new because it is rooted in a place in the soul that never grows old Come and see where I live Jesus said to the disciples who were following him He could just as well have said come and see where you live where your real life is being lived Monastic spirituality is not some esoteric or Gnostic way of perceiving reality or understanding life It is a treasure hidden in the field of your own heart it is a universal spirituality that is the common inheritance of every human being it is a search for God From the atheist to the saint there is in the heart of all creatures a desire for ultimate meaning a desire for God In this sense everyone has the heart of a monk As you read this book you will meet some of the great themes of monastic life silence solitude community life prayer You will also be helped to find your most authentic self the self Thomas Merton spoke of when he said at the center of our being is a point of nothingness a point of pure truth Nothingness emptiness absence are important aspects of our spiritual journey There is a subtheme running through ancient monasticism that conceives of the monastery as a hospital a place for healing the soul the spirit the heart The place of the heart is highlighted in these conferences and homilies as an ancient theme so relevant to the modern person
