## Monet Talks:

**Money Talks** Nina Bandelj, Frederick F. Wherry, Viviana A. Zelizer, 2020-06-09 The world of money is being transformed as households and organizations face changing economies and new currencies and payment systems like Bitcoin and Apple Pay gain ground. What is money and how do we make sense of it? Money Talks is the first book to offer a wide range of alternative and unexpected explanations of how social relations, emotions, moral concerns, and institutions shape how we create, mark, and use money. This collection brings together a stellar group of international experts from multiple disciplines—sociology, economics, history, law, anthropology, political science, and philosophy—to propose fresh explanations for money's origins, uses, effects, and future. Money Talks explores five key questions: How do social relationships, emotions, and morals shape how people account for and use their money? How do corporations infuse social meaning into their financing and investment practices? What are the historical, political, and social foundations of currencies? When does money become contested, and are there things money shouldn't buy? What is the impact of the new twenty-first century currencies on our social relations? At a time of growing concern over financial inequality, Money Talks overturns conventional views about money by revealing its profound social potential.

**Money Talks** Gail Vaz-Oxlade, 2017-12-12 Take on your toughest money problem the people you love. Gail Vaz-Oxlade gets hundreds of letters every month from people who can't figure out how to get their sister off their couch, their mother to stop hitting them up for money, or their mates to recognize that saving is part of having a solid financial foundation. The letters have a common theme: Gail, how do I get through to them? Money Talks is Gail's answer to that tough and common problem that sits at the heart of money and relationships: how to tell your mate, your father, your best friend, or your grandmother it's time for a change. Whether it's sisters fighting over the future of the family home, life partners arguing over whose shopping is really messing with the budget, or parents wondering when their adult child will ever leave the nest, the money gets blamed for what is actually an inability to figure out the real problem and deal with it objectively. That's where Gail steps in. With over seventy-five different scenarios drawn from years of working with real Canadians, Gail helps readers see their own situations through stories that reflect what they're experiencing. Then she gives readers the language to negotiate effectively, showing them that for each problem there are steps they can take to find a solution. Gail has long believed that so many money issues have more to do with our behaviour than with the money itself. People can be delusional, selfish, inconsistent, fearful, lazy, bullying, and entitled, and those traits are reflected in how they deal with money. Relationships seldom disintegrate just because people are bad with money. But how each person responds to the other and to the real issues can make or break a relationship. Have a bully in your life? Wish your brother would grow the hell up and stop counting on you to save his butt? Want to tell your BFF that dreaming is only the first step in making a better life? Gail will show you.

how Gail bets that there many people you will recognize as you read Money Talks and one of them just might be yourself
