Money Makers:

Inventors and Money-Makers Frank William Taussig, 1915 **Moneymakers** Klaus W. Bender, 2006-04-14 This book is about the most precious piece of paper we know about bank notes. Modern life would be unthinkable without them. Yet the general public is kept very much in the dark about how they are made or who makes them. It is rarely known, for example, that despite America's technical prowess all dollar bills are printed exclusively on German high security printing presses using secret Swiss special inks or that the phony 100 dollar bills, the so-called supernotes, may well be printed in a top secret printing works located just north of the White House and run by the CIA, although the US government is blaming the rogue government of North Korea for counterfeiting these bills. This book is finally lifting the veil on an industry used to absolute secrecy. It recounts the stories of a British banknote printer who, fearing the loss of his customer, informed the Egyptian secret service that the securities printing machinery the Egyptians were about to buy was of Jewish origin; of a private printer who convinced the Polish central bank that it should destroy a complete series of new perfect banknotes which had been printed by a competitor; or of an Argentinean high security printer who came to print genuine fake bank notes for Zaire and Bahrain as a result of two sting operations which smell of the Belgian and French secret service. **Moneymakers** by offering a detailed view of the banknote industry and its modus operandi removes the industry's carefully imposed shroud of secrecy. This book has been researched over a five year period in Europe, the USA and Latin America. The book is based exclusively on personal interviews and confidential material normally not accessible to outsiders. There were attempts to stop this research project. Klaus W. Bender has peered behind the scenes of the secret and exclusive world of the moneymakers. *Financial Times Deutschland* 2004. The errors and pitfalls at the birth of the euro make Bender's research so unnerving. *Süddeutsche Zeitung* 2004. Bender does not mince his words when he describes abuses and there are lots of them. *Neue Zürcher Zeitung* 2004.

Money Makers David Snider, Chris Howard, 2010-02-16 An indispensable on the ground guide to the financial landscape of the twenty first century from venture capital to hedge funds to management consulting. **Money Makers** illuminates the often secretive industries of the private sector that drive the modern economy. David Snider and Chris Howard draw on their interviews with top executives such as Jamie Dimon, CEO of JPMorgan Chase; David Rubenstein, cofounder of the Carlyle Group; and Shona Brown, former SVP of Business Operations at Google, to reveal the histories, mechanics, operations and challenges of investment banking, venture capital, private equity, hedge funds, management consulting and the management of Fortune 500 companies. A fabulous book for understanding entrepreneurship, venture capital and the symbiotic relationship they share. **Money Makers** takes readers inside these fields with highly relevant, engaging examples and a clear articulation of industry dynamics. Reed Hastings, chairman and cofounder of Netflix. An excellent read on the inner workings of business and finance. I was particularly impressed by the lucid discussions of the consulting industry and the role of executives at Fortune 500 companies. Stephen Kaufman, Senior Lecturer at the Harvard Business School, former Chairman and CEO of Arrow.
