Color in the Age of Impressionism Laura Anne Kalba, 2017-04-21 This study analyzes the impact of color making technologies on the visual culture of nineteenth century France from the early commercialization of synthetic dyes to the Lumière brothers' perfection of the autochrome color photography process. Focusing on Impressionist art, Laura Anne Kalba examines the importance of dyes produced in the second half of the nineteenth century to the vision of artists such as Edgar Degas, Pierre Auguste Renoir, and Claude Monet. The proliferation of vibrant new colors in France during this time challenged popular understandings of realism, abstraction, and fantasy in the realms of fine art and popular culture. More than simply adding a touch of spectacle to everyday life, Kalba shows these bright, varied colors came to define the development of a consumer culture increasingly based on the sensual appeal of color. Impressionism, emerging at a time when inexpensively produced color functioned as one of the principal means by and through which people understood modes of visual perception and signification, mirrored and mediated this change, shaping the ways in which people made sense of both modern life and modern art. Demonstrating the central importance of color history and technologies to the study of visuality, Color in the Age of Impressionism adds a dynamic new layer to our understanding of visual and material culture.

Handbook of Artificial Intelligence for Music Eduardo Reck Miranda, 2021-07-02 This book presents comprehensive coverage of the latest advances in research into enabling machines to listen to and compose new music. It includes chapters introducing what we know about human musical intelligence and on how this knowledge can be simulated with AI. The development of interactive musical robots and emerging new approaches to AI-based musical creativity are also introduced, including brain-computer music interfaces, bio-processors, and quantum computing. Artificial Intelligence (AI) technology permeates the music industry, from management systems for recording studios to recommendation systems for online commercialization of music through the Internet. Yet, whereas AI for online music distribution is well advanced, this book focuses on a largely unexplored application: AI for creating the actual musical content.

Controversial Encounters in the Age of Algorithms Sine N. Just, 2024-11-27 How can we have meaningful public conversations in the algorithmic age? This book explores how digital technologies shape our opinions and interactions, often in ways that limit our exposure to diverse perspectives and fuel polarization. Drawing on the ancient art of arguing all sides of a case, the book offers a way to revive public debate as a source of trust and legitimacy in democratic societies. This is a timely and urgent book for anyone who cares about the future of democracy in the digital era.

Origins of Impressionism Gary Tinterow, Henri Loyrette, 1994 This handsome publication, which accompanies a major exhibition at The Metropolitan Museum of Art, is a lively and engaging account of the artistic scene in Paris in the 1860s, the years that witnessed the beginnings of Impressionism. For the first time, the interactions and relationships among the group of painters who became known as the Impressionists are examined without the overworn art

historical polarities commonly evoked academic versus avant garde classicist versus romantic realist versus impressionist A host of strong personalities contributed to this history and their style evolved into a new way of looking at the world These artists wanted above all to give an impression of truth and to have an impact on or even to shock the public And they wanted to measure up to or surpass their elders This complex and rich environment is presented here the grand old men and the young turks encounter each other the Salon pontificates and the new generation moves fitfully ahead benignly but always with determination Origins of Impressionism gives a day by day year by year study of the genesis of an epoch making style Bibliographies and provenances are provided for each of the almost two hundred works in the exhibition and there is an illustrated chronology With more than two hundred superb colorplates this informative survey is an essential work for both the general reader and the scholar BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved *International Information* ,1930-07 *Flegrea* ,1899 *The Studio* ,1903 **Ellsworth Kelly, Paul Cézanne** Ann Hindry,Marie-Pierre Salé,Musée d'Orsay,2008 **Arts Digest** ,1926 *Pakitu* ,1925 *L'Illustration* ,1927 **L'Art vivant** ,1929 *M.
