Mastering The Machine Poverty Aid And Technology:

Mastering the Machine Ian Smillie,1991 Mastering the Machine attempts to answer the question Is small still beautiful drawing on case studies and previously unpublished material from Africa Asia Latin America and the Caribbean It draws on the lessons of history and three development decades to suggest how a more holistic approach to technology and its transfer can lead to genuine poverty reduction Mastering the Machine is about a hybrid era one caught somewhere between bronze and computers between sail and jet engines one in which quality has become confused with quantity and means with ends For the South the Third World It is a time of immense technological opportunity and optimism It is also a period of unimaginable poverty and hopelessness It is a time of ferment change and technological growth And it is unlike any other period in history for today in addition to artisans and artists farmers machinists and dreamers the direction of technology is influenced and fashioned by bureaucrats economists faraway corporate planners aid agencies and charities Never before in history have so many nontechnical people exerted so much influence on the advancement retardation and movement of technology This book is about the interaction between these people and between poverty aid and technology in the Third World

Mastering the Machine Revisited Ian Smillie,2000 Mastering the Machine Revisited is about the connection between poverty aid and technology It is about the search driven today by greater extreme poverty than has ever been known and by a realization that the technologies applied to the problem have severe limitations

Grassroots Development ,1991 *The Earthscan Reader on World Transport Policy and Practice* John Whitelegg,Gary Haq,2017-09-05 Transport is now a critical problem throughout the world and it is set to get worse Whether it is traffic congestion crashes 10 million killed and injured each year noise air pollution landscape destruction or greenhouse gas emissions of which transport is the fastest growing source the damage and the costs from our current forms of transport are dangerously high and getting worse Policies and practical measures that can reduce and eliminate these problems are urgently needed This Reader contains 16 important contributions on how to improve transport globally They are based on sound science sound people centred analysis and a strong awareness of equity and human rights And they have been selected for their originality the importance of the issues they focus on the quality of their insight and their practical relevance A further 7 commissioned chapters provide informative overviews of the transport problems specific to each region of the world while the editors Introduction and Conclusion frames the discussion and lays out the scale of the challenges we face As a whole the Reader demonstrates what steps can be taken to improve both transport provision and use in both the developed and the developing world while reducing environmental and health impacts It will serve as an invaluable sourcebook for anyone researching or attempting to address the issues associated with world transport policy and practice whether students planners business people or policy makers

Agriculture and Human Values ,1984 Non-Governmental Organisations in Japanese Foreign Aid Strategy - Partners Or Challengers? Akiko Nanami,2008 Over the last decade popularity of NGOs in Japan has grown rapidly and drastically after their heroic rescue mission in a site of the Great Awaji Hanshin Earthquake in 1995 attracted wide media coverage Acknowledging their popularity in the society the Japanese government has named them as partners under Japanese official foreign aid strategy called Kao no Mieru Enjyo Visible Japanese Aid by establishing cooperative system for them in 1989 However the initial intentions of the government was to utilise their good reputation to secure credibility for Japanese aid which has long been internationally criticised Understanding the intention or not Japanese NGOs have used various methods of both official and unofficial to be influential over the Japanese official decision making in foreign aid This book has examined how they have become externally influential in exclusive political culture therefore it is ideal for those who seek to work in NGOs or professional who are already in the field and longing for some logical back up for their own practice The analysis should provide a new framework in an international area of NGO study from non Western perspective
