

# Masterworks of Mexican Art: Modern

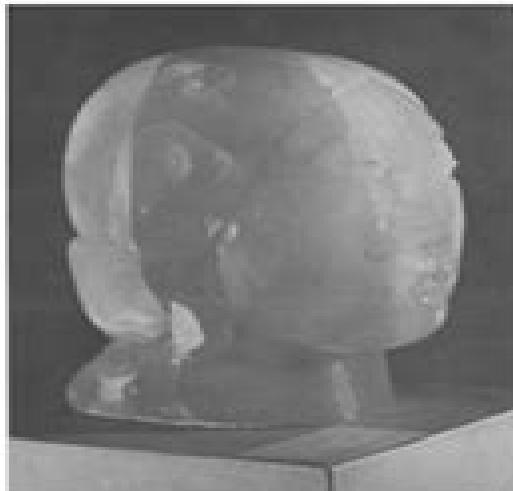

CLARK WOLFE

The essence of modern Mexican art, as well as its handicaps, is a preoccupation with history—art history, ancient history, Mexican history, and world history. The result is a blinding national pride that is as limiting to the contemporary Mexican artist as any didactic academy or political formation. For ever since José Guadalupe Posada destroyed the neoclassicism of the 19th century, ever since Rivera, Siqueros and Orozco scrawled the cry of revolution on the walls of the "patria," succeeding artists have found themselves in the awkward position of being obliged to continue a creative tradition under the oppressive specter of the past.

And, indeed, this ghost is formidable. The monumentality of the ancient cultures—thirty centuries of it—as well as the violent fury of a revolution that destroyed ten million lives set the stage for an art that, at its very best, would have had a certain savagery. Yet, if the contemporary artist should feel this burden, let him recall that aside from muralism there has not been one innovation, invention or original contribution inherent in the art of the Republic. As a matter of fact many of the most important names deteriorate into second rate adaptations of cubism, decoration or absurdly unimportant experiments.

As the termination of the revolution, the liberal policies of Education Minister José Vasconcelos created an atmosphere of "manifestos" and Redecula prompted "renaissance" that paid every second-rate painter in town a daily wage based on the square footage of mural completed each day. Needless to say Europe saw an exodus of Mexicans, among them Rivera and Siqueros. Like most institutions of this kind, the Syndicate of Painters and Sculptors degenerated into a club for political intrigues, and ironically José Clemente Orozco found himself without a seat.

The modern section of "Masterworks of Mexican Art" had two disadvantages that plagued another comprehensive exhibit, given at the Museum of Modern Art in 1940. Because of the sheer scope, the modern movement is allotted too small a space to provide any more than a sampling. The other, and more important disadvantage, rests in the fact that the best Mexican art is mural rather than easel painting. Subtlet the emotional charge of the revolution and the quietness of Mexicans, main subject matter for the murals, and there is surprisingly little

left.

The contemporary artist, then, finds himself revolutionless, somewhat causeless, without wall space for murals, yet obliged to produce important works. This may well account for his decades of floundering in a stagnant sea of formation, imitation, and something ingenuously called "vanguard academicism"—a phony invention that may have temporarily rescued the national pride, but has done little for the national art.

The format of the exhibit creates an invisible yet definite dividing line between the neoclassical and modern sections. Yet the line is not a thin wedge that separates opposites, rather it is José Guadalupe Posada himself. Posada, along with José Clemente Orozco decades later, established the main tenets for the painting we call Mexican. The elements that bind them are paradoxical continuations of the traditional and the new, a love of caricature, quick Berger curves, and an uncomprehending compassion for the peasant.

Although Orozco is unquestionably the most powerful figure of them all, it would be difficult to tell it from his easel painting. Occasionaly taping into shocking lunacy, poorly drafted and arbitrarily rendered canvases such as "Maguire Plant" painted in 1940, it is readily seen that the painter required the monumentality of the mural environment. "The Hand," rendered in 1940 a year before his death in 1949 experiments with a drip technique not unlike Jackson Pollock's. Although the catalog hints he may have influenced Pollock, it is more likely the opposite is true. Pollock's experiments antedate Orozco's by five years.

On Diego Rivera's return to Mexico in 1921 he threw himself into the revolution as though it were still going on. As a result he became one of the most profound influences in the mural movement. From 1921 to 1923 he had lived in Paris where his friends were Picasso, Bracque and Juan Gris. Many of his canvases in the exhibit bear such a strong resemblance to Gris and Picasso, that it is barely possible to discern whether they may be imitations, copies, or studies. A 1915 painting entitled "Zapata Landscape"

Diego Rivera, "Portrait of Juan Ruiz," 1940, oil on canvas, 40 x 30 in. (102 x 76 cm). The National Museum, (Galería Central de Arte), Mexico.

is an interesting document to the new interest in collage. Before materials had been actually glued upon the canvas, they had been painted in a sort of pre-collage trompe-l'œil, which is exactly what Rivera had done with this painting. But upon his return, he incorporated all that he had learned of Cubism, Fauvism and Orphism into the Mexican environment with such relentless tenacity that they became an entirely unique expression. Very often, it was the catalyst of Mexico that made the work important, with a unique freshness that, coupled with his inherent love of his homeland, resulted in a sympathetic, gentle beauty in such works as "Seated Girl" and "Flower Seller." In these and in the bitter caricatures of his murals, Rivera is at his best, yet without this impulse he was capable of falling into inconsequential banality, silly fantasies as exemplified by "Night of the Radishes."

Of the important revolutionary muralists only David Siqueros remains, and his impersonation for the cause of "social dissolution" undoubtedly signed the death warrant for the mural movement.

Only one mural has been completed in recent years by Arnold Belkin, a friend of Siqueros' who along with other members of the Nueva Presencia were not included in the exhibit. This group, lacking the violence of a revolution, has contented itself to rebel against "academicism, oppression, formalism and 'taste' in art." They could even be called second-generation revolutionaries, with a manifesto, skill, and profound intentions—but, unfortunately, no revolution. In essence Mexico is waiting for their new art. Movements come and go, manifestos are printed and forgotten, but a nation's art must rest upon its courageous individuals—their creativity, their daring, and their willingness to break from the past. What will come in the future remains to be seen, and in the meantime the astute Mexican critic is reduced to writing books about the grandeur of an art that hasn't happened yet. Like all things Mexican, it exaggerates the essence. \*
