

## Maths Talk and Learn: Supporting White Rose Maths Match, Sort and Compare

### Match

Objects match when they are exactly the same as each other.

Talk about these autumn objects. What do you notice? Can you find pairs of objects that are the same? How do you know that they match? Can you point to two objects that are different?

Today is sorting time! We should have a matching pair of leaves in each box. Talk about what you can see. Do you think Tilly has all of her autumn? How do you know?

### Challenge Yourself

- Play a matching game using more pairs of socks. Can you find a matching pair? How do you know that they are the same?
- Can you find the matching socks together? Are there any wrong? How do you know?

### Sort

Objects can be sorted into sets in lots of different ways, such as by colour, shape or size.

Little Hedgehog is collecting autumn leaves to make a nest. Talk about how Little Hedgehog has sorted the leaves into sets.

Now, Little Hedgehog has sorted the leaves in a different way. Look carefully at the leaves. Can you talk about how Little Hedgehog has sorted the leaves this time? What is the same about the leaves in each set?

### Challenge Yourself

- With a grown-up or an adult role and reflect some autumn leaves.
- Can you find different ways of sorting your leaves into sets? If you group up one leaf, can you say what you've sorted your leaves?
- Using your eyes and ears, group up to more one of the leaves in a different way. Can you spot which leaf is the odd one out?

### Compare Amounts

Sets of objects can be compared. When making comparisons, a set of objects can have...

Fluffy, Bubbles and Bucky have been collecting autumn. Look at the five frames and talk about what you notice.

Which squirrel found the most acorns? Who found the fewest acorns?

Fluffy came to show off his acorns. How many has he got?

Can you find two acorns who collected the same number of acorns?

### Challenge Yourself

- Ask your child to compare the number of open acorns. Which child shows more open? Which child shows fewer open acorns? Can you sort the ones that have more open acorns from the ones that have the same number of open acorns?
