## Material For Thought 15:

**Introduction to Logic and Theory of Knowledge** Edmund Husserl,2008-08-26 Claire Ortiz Hill The publication of all but a small unfound part of the complete text of the lecture course on logic and theory of knowledge that Edmund Husserl gave at Göttingen during the winter semester of 1906/07 became a reality in 1984 with the publication of *Einleitung in die Logik und Erkenntnistheorie Vorlesungen 1906/07* edited by Ulrich Melle. Published in that volume were also 27 appendices containing material selected to complement the content of the main text in significant ways. They provide valuable insight into the evolution of Husserl's thought between the *Logical Investigations* and *Ideas I* and therefore into the origins of phenomenology. That text and all those appendices but one are translated and published in the present volume. Omitted are only the Personal Notes dated September 25 1906, November 4 1907 and March 6 1908 which were translated by Dallas Willard and published in his translation of Husserl's *Early Writings in the Philosophy of Logic and Mathematics*.

**Introduction to Logic and Theory of Knowledge Lectures 1906/07** provides valuable insight into the development of the ideas fundamental to phenomenology. Besides shedding considerable light on the genesis of phenomenology, it sheds needed light on many other dimensions of Husserl's thought that have puzzled and challenged scholars.

### **Life Understood** Frederick L.

Rawson,2007-03-01 Though he made his fortune pioneering practical uses for electricity, Frederick Lawson was also an active and vocal adherent of New Thought philosophies, early New Age thinking that promoted the belief in mind over matter and in the concept that godly powers could be found within us all. This classic book, first published in 1912 and the textbook of the organization Lawson founded, the Society for Spreading the Knowledge of True Prayer, explores the new realms of human experience. New Thought thinking was uncovering, including Unaccounted for human capacity and animal wonders, Hell as an individual state of human consciousness, New truths hateful to the slaggard Proof of our knowledge of Heaven, Constant conscious communion with God, The value of prophecy, Instantaneous healing, The collective force of foolish beliefs, And much, much more. British engineer, businessman and author, FREDERICK LAWRENCE RAWSON 1859-1923, also wrote *How to Bring About Permanent Peace* 1916, *Secret of Divine Protection* 1918, and *Nature of True Prayer* 1920.
