FRANCISCO, CINTAS FÍSICO, JESÚS, 2014-06-01 La Ciencia e Ingeniería de los Materiales tiene por objeto investigar la relación entre la estructura interna de los materiales y las propiedades que estos exhiben así como la relación entre dicha estructura interna y el procesamiento del material Se persigue con todo ello obtener un conjunto predeterminado de propiedades modelando la estructura interna del material mediante el procesamiento A pesar de los espectaculares progresos que en este

sentido han tenido lugar en las últimas décadas el permanente desafío tecnológico requiere de materiales cada vez más sofisticados y especializados que representan nuevos retos y oportunidades. El objetivo principal de este libro es describir y analizar los materiales desde un enfoque renovado que parte de una descripción de los mismos en la escala atómica para luego pasar al estudio de las complejidades de sus microestructuras y culminar con el análisis de las propiedades que estos exhiben en la escala macroscópica. Se ofrece así al lector alumno profesor o profesional una obra de consulta de gran amplitud en sus contenidos y con una organización lógica y comprensiva de la materia que permite realizar incursiones con diferente grado de profundidad inicial y especializada. Los aspectos científicos están tratados con rigor aunque los contenidos con una mayor exigencia matemática así como los aspectos más tecnológicos se han desplazado a Notas y Adendas independientes para facilitar la lectura. El desarrollo de los diagramas de equilibrio y de las propiedades macroscópicas de los materiales es más extenso que el habitual en otros libros introductorios. Se ha pretendido en todo momento hacer una obra que pueda ser entendida sin más ayuda que su lectura detenida y reflexiva. Con este fin se han incluido un gran número de figuras, problemas resueltos, problemas propuestos con solución y preguntas tipo test de autoevaluación. Los lectores podrán contar con un valioso conjunto de tales recursos digitales a los que se puede acceder a través de la ficha web de la obra en <http://www.paraninfo.es/catalogo/9788428330176> mediante un sencillo registro desde la sección de Recursos previo registro.

**Diccionario de materiales cerámicos** Carmen Padilla Montoya, Ruth Maicas Ramos, Paloma Cabrera Bonet, 2002. Hace casi una década la Dirección General de Bellas Artes y Bienes Culturales inició un ambicioso proyecto de Normalización Documental de Museos que se ha venido desarrollando en diferentes actuaciones. Se han analizado y definido los procesos de gestión museística así como unas estructuras descriptivas y de catalogación normalizadas de los bienes culturales custodiados en los museos. Partiendo de este análisis y definición se ha elaborado un sistema integrado de documentación y gestión museográfica. Domus que está permitiendo informatizar los museos estatales y próximamente hará posible la difusión en red de la información sobre el Patrimonio custodiado en los mismos. Otro aspecto importante del proyecto es la normalización de terminologías, la unificación y estructuración del vocabulario técnico utilizado en la descripción y catalogación de bienes culturales imprescindible para construir bancos de datos de calidad no sólo de museos sino de Patrimonio Histórico en general. Tenemos la satisfacción de presentar aquí el primer resultado de esta segunda línea de actuación: el Diccionario de Materiales Cerámicos. Contiene terminología referida tanto a denominaciones de objetos cerámicos como a materias y técnicas de elaboración y decoración así como términos de descripción especializados. Además esta publicación es más que un diccionario ya que tiene el valor añadido que un tesoro aporta a una mera relación de términos y definiciones: fruto de un importante esfuerzo de sistematización. Pretendemos que se convierta en una publicación de referencia como herramienta de apoyo a la catalogación de una categoría de bienes culturales tan abundante en los museos y colecciones como es la de la Cerámica. *Ejecución de procesos de mecanizado, conformado y montaje* GINJAUME PUJADAS, ALBERT, TORRE CRESPO, FELIPE, 2005-01-01.
