Materials Management In Clothing Production:

Materials Management in Clothing Production David J Tyler, 1992-04-15 Fabric and materials account for at least half the production cost of garments. Consequently the effective control of materials is a major objective in clothing production. Key areas for production control are discussed with particular reference to factors affecting the utilisation of markers and fabric. Principles for purchasing fabrics are outlined and related to the way companies operate in the market. Recent moves towards material requirements planning and the greater use of information technology for communications between suppliers and customers. Specifications, inspection techniques and the potential for economies by greater cooperation between suppliers and purchasers are also discussed.

Costing for the Fashion Industry Michael Jeffrey, Nathalie Evans, 2011-04-01 Costing for the Fashion Industry offers a clear, concise examination of the issues involved in budgeting and costing for the rapidly changing fashion industry. Accessibly written and designed specifically for the teaching of fashion-related subjects, it encourages a realistic awareness of costing, manufacture and sourcing. Each chapter focuses on a theme such as the changing nature of cost and of the industry, time constraints, global awareness and new markets, and product cost and sourcing. The chapters include exercises to reinforce learning as well as case studies and guides to further learning. Michael Jeffrey and Nathalie Evans combine many years of teaching and practical experience in accounting, buying and production for the fashion industry. *Costing for the Fashion Industry* is a practical, easy-to-use textbook which enables the reader to successfully put into practice the basic costing methods essential to students of fashion.
