**Maternal and Child Health** John Ehiri, 2009-10-03 Our current era of globalization war and socioeconomic unrest has revealed public health as a worldwide concern and a major frontier for social justice with maternal and child health at its epicenter Yet there has been a relative scarcity of training resources specifically dedicated to this crucial area Maternal and Child Health Global Challenges Programs and Policies addresses this gap in current knowledge by analyzing the range of socioeconomic and environmental factors health care disparities politics policies and cultural practices that impact the health and safety of mothers as well as the well being and optimum development of their children Individual sections focus on unequal distribution of the world's resources politics and power specific disease concerns programs policies and emerging concerns with a focus on what is currently being done and what needs to be done to improve the health status of women children and adolescents The book's contributors are some of the world's most respected experts carefully selected to represent different global geographic regions and diverse professional disciplines related to maternal and child health from both academic and field practice perspectives Among the topics in this authoritative volume The impact of war globalization gender inequity and harmful traditional practices e g female genital mutilation Specific health concerns including tuberculosis malaria HIV and malnutrition Child and adolescent health issues from abuse and neglect to children in difficult circumstances Pregnancy related issues safety abortion and post abortion care teen pregnancy and more Strategies for planning developing and maintaining maternal and child health systems in developing countries The status of global initiatives such as Integrated Management of Childhood Illnesses and the Millennium Development Goals The status of evidence based maternal and child health in the developing world With such a wealth of information on both practical and conceptual levels Maternal and Child Health Global Challenges Programs and Policies is as relevant to students and researchers in the field as it is to policy makers and those working for global health and development organizations It also makes an excellent stand alone text for courses in global health in general and global maternal and child health in particular

**Handbook of Children with Special Health Care Needs** David Hollar, 2012-07-15 Children with chronic conditions developmental disorders and birth defects represent a sizeable minority

of American children as many as one in five Often their families have financial or other issues limiting their access to appropriate care thus limiting their adult prospects as well Compounding the problem many valuable resources concerning this population are difficult to access although they may be critical to the researchers practitioners and policymakers creating standards for quality care and services In response the Handbook of Children with Special Health Care Needs assembles research applied and policy perspectives reflecting the range of children s problems requiring special services Widely studied conditions e g communication disorders substance abuse and those receiving lesser attention e g tuberculosis are covered as are emerging ideas such as the medical home concept of continuity of care Its interdisciplinary outlook makes the Handbook of Children with Special Health Care Needs a vital forward looking text for developmental psychologists pediatricians early childhood and special education researchers and practitioners disability researchers policymakers and advocates and providers for children with special health care needs
