## **Material Cultures Why Some Things Matter:**

**Material Cultures** Daniel Miller, 2002-09-10 This volume is an ethnographic study of material cultures Incorporating local and global dimensions a team of scholars explore the changing experiences of cultures in locations as disparate as the Philippines and Northern Ireland Material culture and consumption studies have undergone something of a renaissance recently This study provides an up to date analysis of a developing field in sociological and anthropological based courses This book is intended for undergraduate MA courses on material culture and consumption within cultural studies and anthropology degree schemes

**Material Cultures** Daniel Miller, 1998 The field of material culture has been historically well established but has recently enjoyed something of a renaissance Methods once dominated by Marxist oriented analyses in which objects are understood as commodities and by the study of objects as symbols are starting to give way to a more ethnographic approach to artifacts This orientation to practice is the cornerstone of the essays presented in Material Cultures Why Some Things Matter The diversity of these essays is mediated by their common commitment to ethnography with a material focus Against the established practice of examining objects as mirages of media or language Material Cultures emphasizes how the study of objects not only contributes to an understanding of artifacts but is also an effective instrument for the study of social values and contradictions

**Material Cultures** Daniel Miller, 1998-02-17 A collection of essays which present a balanced survey between theoretical discussions on the one hand and case study research on the other This volume is an ethnographic study of material cultures

**The Oxford Handbook of Material Culture Studies** Dan Hicks, Mary C. Beaudry, 2010-09-02 Written by an international team of experts the Handbook makes accessible a full range of theoretical and applied approaches to the study of material culture and the place of materiality in social theory presenting current thinking about material culture from the fields of archaeology anthropology geography and science and technology studies

**Material Culture in Transit** Zainabu Jallo, 2023-03-31 Material Culture in Transit Theory and Practice constellates curators and scholars actively working with material culture within academic and museal institutions through theory and practice The rich collection of essays critically addresses the multivalent ways in which mobility reshapes the characteristics of artefacts specifically under prevailing issues of representation and colonial liabilities The volume attests to material culture as central to understanding the repercussions of problematic histories and proposes novel ways to address them It offers valuable reading for scholars of anthropology museum studies history and others with an interest in material culture

**Handbook of Material Culture** Chris Tilley, Webb Keane, Susanne Kuechler, Mike Rowlands, Patricia Spyer, 2006-01-05 The study of material culture is concerned with the relationship between persons and things in the past and in the present in urban and industrialized and in small scale societies across the globe The Handbook of Material Culture provides a critical survey of the theories concepts intellectual debates substantive domains and traditions of study characterizing the analysis of things It is cutting edge rather than simply reviewing the field as it currently exists It also

attempts to chart the future the manner in which material culture studies may be extended and developed The Handbook of Material Culture is divided into five sections Section I maps material culture studies as a theoretical and conceptual field Section II examines the relationship between material forms the human body and the senses Section III focuses on subject object relations Section IV considers things in terms of processes and transformations in terms of production exchange and consumption performance and the significance of things over the long term Section V considers the contemporary politics and poetics of displaying representing and conserving material and the manner in which this impacts on notions of heritage tradition and identity The Handbook charts an interdisciplinary field of studies that makes an unique and fundamental contribution to an understanding of what it means to be human It will be of interest to all who work in the social and historical sciences from anthropologists and archaeologists to human geographers to scholars working in heritage design and cultural studies

**"Women and the Material Culture of Needlework and Textiles, 1750-1950"** Maureen Daly Goggin, 2017-07-05 Rejecting traditional notions of what constitutes art this book brings together essays on a variety of fiber arts to recoup women's artistic practices by redefining what counts as art Although scholars over the last twenty years have turned their attention to fiber arts redefining the conditions practices and products as art there is still much work to be done to deconstruct the stubborn patriarchal art/craft binary With essays on a range of fiber art practices including embroidery knitting crocheting machine stitching rug making weaving and quilting this collection contributes to the ongoing scholarly redefinition of women's relationship to creative activity Focusing on women as producers of cultural products and creators of social value the contributors treat women as active subjects and problematize their material practices and artifacts in the complex world of textiles Each essay also examines the ways in which needlework both performs gender and in turn constructs gender Moreover in concentrating on and theorizing material practices of textiles these essays reorient the study of fiber arts towards a focus on process the making of the object including the conditions under which it was made by whom and for what purpose as a way to rethink the fiber arts as social praxis

**The Material Culture of Writing** Cydney Alexis, Hannah Rule, 2022-11-15 The Material Culture of Writing opens up avenues for understanding writing through scholarship in material culture studies Contributors to this volume each interrogate an object set of objects or writing environment to reveal the sociomaterial contexts from which writing emerges The artifacts studied are both contemporary and historical including ink a Victorian hotel visitors book Moleskine notebooks museum conservators files an early twentieth century baby book and a college campus makerspace Close study of such artifacts not only enriches understanding of what counts as writing but also offers up the potential for rich current and historical inquiry into writing artifacts and environments The collection features scholars across the disciplines such as art art history English museum studies and writing studies who work as teachers historians museum curators conservators and faculty Each chapter features methods and questions from contributors own disciplines while at the same time speaking to writing studies interest in writers writing

identity and writing practice The authors in this volume also work with a variety of methodologies including literary analysis archival research and qualitative research providing models for the types of research possible using a material culture studies framework The collection is organized into three sections Writing Identity Writing Work Writing Genre each with a contextualizing introduction from the editors that introduces the chapters themselves and imagines possible directions for writing studies research facilitated by material culture studies The *Material Culture of Writing* serves as an accessible introduction to work in material culture studies for writing studies scholars graduate students and undergraduates especially as it makes a distinctive contribution to writing studies in its material culture studies approach Because of the interdisciplinarity of material culture studies and this volume's contributors this collection will appeal to a wide range of scholars and readers including those interested in writing studies the history of the book print culture genre studies archival methods and authorship studies Contributors Cydney Alexis Debby Andrews Diane Ehrenpreis Keri Epps Desir e Henderson Kevin James Jenny Krichevsky Anne Mackay Emilie Merrigan Laura R Micciche Hannah J Rule Kate Smith *Material Cultures*, 199? War Matters Joan E. Cashin, 2018-10-03 Material objects lie at the crux of understanding individual and social relationships in history and the Civil War era is no exception Before during and after the war Americans from all walks of life created used revered exploited discarded mocked and destroyed objects for countless reasons These objects had symbolic significance for millions of people The essays in this volume consider a wide range of material objects including weapons Revolutionary artifacts landscapes books vaccine matter human bodies houses clothing and documents Together the contributors argue that an examination of the meaning of material objects can shed new light on the social economic and cultural history of the conflict This book will fundamentally reshape our understanding of the war In addition to the editor contributors include Lisa M Brady Peter S Carmichael Earl J Hess Robert D Hicks Victoria E Ott Jason Phillips Timothy Silver Yael A Sternhell Sarah Jones Weicksel Mary Saracino Zboray and Ronald J Zboray *Lineages and Advancements in Material Culture Studies* Timothy Carroll, Antonia Walford, Shireen Walton, 2020-11-10 This volume comprises a curated conversation between members of the Material Culture Section of University College London Anthropology In laying out the state of play in the field it challenges how the anthropology of material culture is being done and argues for new directions of enquiry and new methods of investigation The contributors consider the ramifications of specific research methods and explore new methodological frameworks to address areas of human experience that require a new analytical approach The case studies draw from a range of contexts including digital objects infrastructure data extraterrestriality ethnographic curation and medical materiality They include timely reappraisals of now classical analytical models that have shaped the way we understand the object the discipline knowledge formation and the artefact **Material Culture and Other Things** Fredrik Fahlander, Terje Oestigaard, 2004 *Material Agency* Carl Knappett, Lambros Malafouris, 2008-12-15 Agency is a key theme that cross cuts a wide raft of disciplines in the humanities social sciences and beyond yet it is invariably discussed

separately behind closed disciplinary doors Within archaeology agency has been characterized as a uniquely human attribute and a means of incorporating individual intentionality into theoretical discourse In other domains however notions of non human and material agency have been finding currency and it is our aim to introduce some of these themes into archaeology and develop a non anthropocentric approach to agency It is anticipated that such a perspective will not only help us achieve more convincing interpretations of the past giving a more active role to material culture but also throw new light on the changing role of artifacts in the present and the future This book is a groundbreaking attempt to address questions of non human and material agency from a wide range of perspectives and disciplines archaeology anthropology sociology cognitive science philosophy and economics The editors and authors demonstrate that a distributed relational approach to agency incorporating both humans and artifacts has important ramifications for how we understand material culture

Material Culture in the Social World Tim Dant,1999 Concerns human interaction with everyday objects and occurrences and how this affects the way we respond to others The book uses theoretical works by Marx and Baudrillard as a basis as well as contemporary work It uses ideas drawn from this work to explore objects and how we live with them

Material Culture in America Helen Sheumaker,2008 You can tell a lot about people by looking at their stuff the things they make process and value That is the idea that drives the field of material culture in which scholars explore the meaning of objects of a given society This book is the first encyclopedia to look at the study of material culture and what it reveals about life in the United States Jacket

*Material History Review* ,2004

*The Materiality of Res Publica* Dominique Colas,Oleg Kharkhordin,2009 For the last 100 years political science has traditionally concentrated on the publica part of the expression res publica conceiving this notion as a form of government opposed to say monarchy However the Ancients and citizens of Renaissance republics were just as attentive to the res part of the expression The goal of this richly illustrated volume containing 94 images is to draw attention to this res things and affairs that bring people together The book first focuses on the central role played by the Rialto Bridge in Venice and by the main bridge in Novgorod the Great in the lives of the respective republics It includes studies of res in other res publicae an analysis of the republican icon of a woman crowned with ramparts found in three European cities and a detailed study of iconography figuring Hobbes TM theory of res publica

Old Clothes, New Looks Alexandra Palmer,Hazel Clark,2005 The history global trade and the current western revival of interest in used garments as a new form of fashion consciousness are the background to this book on the use of second hand dress and age old traditions of recycling fashion
