

Conducting an Occupational Profile in Mental and Behavioral Health

Occupational therapy practitioners use a variety of standardized and non-standardized assessments to understand the strengths and barriers of their clients. Explore important discussion points to consider when conducting a non-standardized occupational profile for individuals with behavioral health conditions.

Daily Performance Patterns

What does a typical day look like for you? How do you care for yourself daily? How is your sleep?

Mental Health Assessment

How is your mental health impacting your daily life? Are there times of day that your mental health is impacting you more?

Medication Management

Are you taking any medications? What strategies do you use? Do you have difficulty taking them as prescribed?

Functional Assessment

Do you experience any physical pain when completing daily tasks? Do you have any tools to assist with completing them?

Environmental Assessment

What individuals do you speak to on a daily basis? Are they in the area? Do you participate in community-based programs?
