The Space Opera Renaissance David G. Hartwell,Kathryn Cramer,2006-07-11 The best ever anthology of one of science fiction s most vigorous subgenres ***The Space Opera Renaissance*** Kathryn Cramer,David G. Hartwell,2007-07-10 From two acclaimed editors comes the best ever anthology of science fiction s most vigorous subgenres the space opera Space opera once a derisive term for cheap pulp adventure has come to mean something more in modern SF compelling adventure stories told against a broad canvas and written to the highest level of skill Indeed it can be argued that the new space opera is one of the defining streams of modern SF Now World Fantasy Award winning anthologists David G Hartwell and Kathryn Cramer have compiled a definitive overview of this subgenre both as it was in the days of the pulp magazines and as it has become in the 2000s Included are major works from genre progenitors popular favorites and modern day pioneers **The New Space Opera** Gardner Dozois,Jonathan Strahan,2016-05-17 This anthology is a reminder of why science fiction captured the hearts and minds of generations of readers Orson Scott Card What sets space opera apart from other fiction is its sheer scale it is an exuberant celebration of the very large and the very small of the very old and the very new of the vast panoramic instant we live in the instant in which everything that went before melds with everything yet to be It is Star Wars and Battlestar Galactica The only book of its kind The New Space Opera brings together for the first time the generation of writers who spawned and embody the new space opera as well as other talents destined to join their ranks Going beyond everything that has come before this fresh visionary anthology is essential reading for every science fiction fan The new space opera shares with the old the interstellar sweep of events and exotic locales but Dozois and Strahan s all original anthology shows how the genre s purveyors have updated it with rigorous science well drawn characters and excellent writing Publishers Weekly starred review Dynamic and exciting an essential roadmap to the cutting edge of SF today Charles Stross In sheer breathtaking mind expanding scope this collection of some of the finest tale spinning the subgenre has to offer delivers hours of exhilarating reading Booklist **The New Space Opera** Gardner R. Dozois,Jonathan Strahan,2007 In the late 1970s the release of George Lucas s Star Wars brought unprecedeted attention to the romantic epic potential of space adventure and it hasn t stopped since What sets space opera apart from any other kind of fiction is its sheer scale It is about bursting out it is about going beyond Looking at things every which way are eighteen fabulous writers including Peter F Hamilton Ken McLeod Nancy Kress Alastair Reynolds Dan Simmons Steven Baxter and many other top names in the genre From two of the most highly respected editors in the genre comes this must have collection of cutting edge space opera **Wars We Never Fought** Matthew B. Hill,Leigha H. McReynolds,2025-11-13 A collection of essays examining how armed conflict functions as a subject theme metaphor symbol or plot device in popular works of speculative fiction including novels films television and video games Speculative fiction genres such as science fiction fantasy utopian dystopian apocalyptic post apocalyptic supernatural horror superhero and alternative history is at this particular cultural moment incontrovertibly popular Despite

the fact that war and its social cultural political and moral consequences are often a driving force in speculative fiction narratives exerting outsized influence on character development structuring plot and conflict and serving as a vehicle to explore various themes there has been little critical attention given specifically to the intersection of these concepts Wars We Never Fought remedies this problem as contributors analyze such popular texts as the Star Wars franchise Ann Leckie's Imperial Radch trilogy Dune Mary Doria Russell's The Sparrow and Children of God The Expanse series Captain Marvel and the Fallout game franchise These essays offer accessible and wide ranging critical insight into how and why creators of speculative fiction use war as a device within the diegetic worlds of their stories They also look at what the depictions of war and warriors within these texts suggest regarding notions such as race class gender sexuality difference sociopolitical power and other cultural values Contextualizing the culture in which these narratives are created and consumed Wars We Never Fought demonstrates how the textual dramatization of entirely fictitious wars might reflect interrogate and even structure understanding of warfare in the real world
