Marketing Principles And Perspectives:

Marketing William O. Bearden, Thomas N. Ingram, Raymond W. LaForge, 2003-03 Marketing Principles and Perspectives 4e is a cutting edge text. In the first edition we demonstrated this leading coverage with our strong integration of Integrated Marketing Communication and Direct Marketing. In the second edition we continued our modern coverage by integrating cross functional teams, customer loyalty and the Internet technology. The third edition includes an Internet Marketing chapter and continues to fully integrate the Internet throughout. The authors not only talk about what marketing is but prepare the students to be marketers by involving them in interactive exercises which strengthen decision making skills. Marketing 4e offers the latest coverage, quality professor supplements and an interactive student web tool and still it is approximately 20% less than most principles of marketing competitors. The perspectives approach is present in the fourth edition however the over riding theme concentrates on building customer equity.

This text continues to be a leader in the coverage of the most recent marketing thought. In the first edition our emphasis on integrated marketing communications Part 7 and our separate chapter on direct marketing chapter 21 were the best examples of this competitive advantage. In addition for the second edition we have added a focus on customer loyalty and cross functional teams as well as full integration of the Internet.
