[Website Visitors Transformed Into Opt-Ins](#) Luke Philips,2011-05-02 Getting website traffic is

an important element of online marketing But equally important is getting the traffic to convert A steady stream of traffic is a good thing because then there is more potential for bringing in regular customers But what is needed to stay alive in the business and stay ahead of the competition is for that traffic to turn into actual buyers So if there is high traffic but not one single one of them turns into buyers then clearly you're not marketing the right way Selling in the internet is not as quick and easy as getting traffic to your site For most of your website visitors you will need to do a bit more persuasion to get them to buy This is why you need your website visitors to opt in to your email list so that they become regular subscribers to whom you can market to little by little but on a regular basis This book will show you what important elements go together when building your mailing lists so that you can get your website visitors to sign up as opt ins in order that they turn into regular subscribers with the intention that eventually they will become actual buyers
