best known Swiss artists of his generation Besides an immense number of drawings his oeuvre includes three dimensional  
works Although Raetz spends long periods of time minutely planning his sculptures installations and kinetic objects his  
drawings are spontaneous and executed quickly one after the other For him drawing means thinking with a pencil in his hand  
at least that is one way to describe his work with brushes finger paints and pencil on paper It is not the subject that is of  
main concern to him but the process of visual perception This is the first publication to present a selection of works from the  
over fifteen thousand drawings in the artist s studio providing a look at his sketchbooks which are filled to bursting as well as  
an animated cartoon and thus manifesting the extraordinary variety of techniques and motifs of Raetz s graphic oeuvre
