*Crossing the Color Line* Carina E. Ray,2015-10-15 Interracial sex mattered to the British colonial state in West Africa In Crossing the Color Line Carina E Ray goes beyond this fact to reveal how Ghanaians shaped and defined these powerfully charged relations The interplay between African and European perspectives and practices argues Ray transformed these relationships into key sites for consolidating colonial rule and for contesting its hierarchies of power With rigorous methodology and innovative analyses Ray brings Ghana and Britain into a single analytic frame to show how intimate relations between black men and white women in the metropole became deeply entangled with those between black women and white men in the colony in ways that were profoundly consequential Based on rich archival evidence and original interviews the book moves across different registers shifting from the micropolitics of individual disciplinary cases brought against colonial officers who kept local women to transatlantic networks of family empire and anticolonial resistance In this way Ray cuts to the heart of how interracial sex became a source of colonial anxiety and nationalist agitation during the first half of the twentieth century      **The Origins of African American Literature, 1680-1865** Dickson D. Bruce,2001 From the earliest texts of the colonial period to works contemporary with Emancipation African American literature has been a dialogue across color lines and a medium through which black writers have been able to exert considerable authority on both sides of that racial demarcation Dickson D Bruce argues that contrary to prevailing perceptions of African American voices as silenced and excluded from American history those voices were loud and clear Within the context of the wider culture these writers offered powerful widely read and widely appreciated commentaries on American ideals and ambitions The Origins of African American Literature provides strong evidence to demonstrate just how much writers engaged in a surprising number

of dialogues with society as a whole Along with an extensive discussion of major authors and texts including Phillis Wheatley s poetry Frederick Douglass s Narrative Harriet Jacobs Incidents in the Life of a Slave Girl and Martin Delany s Blake Bruce explores less prominent works and writers as well thereby grounding African American writing in its changing historical settings The Origins of African American Literature is an invaluable revelation of the emergence and sources of the specifically African American literary tradition and the forces that helped shape it

**Interracial Intimacy** Rachel F. Moran,2001 Crossing disciplinary lines Moran looks in depth at interracial intimacy in America from colonial times to the present She traces the evolution of bans on intermarriage and explains why blacks and Asians faced harsh penalties while Native Americans and Latinos did not She provides fresh insight into how these laws served complex purposes why they remained on the books for so long and what led to their eventual demise As Moran demonstrates the United States Supreme Court could not declare statutes barring intermarriage unconstitutional until the civil rights movement coupled with the sexual revolution had transformed prevailing views about race sex and marriage

Interradge Across Race and Ethnicity Among Immigrants Charlie V. Morgan,2009 Morgan examines the relationship between assimilation and intermarriage In studying mixed relationships he finds that ethnicity in the form of language and religion is more important than race Males and females were more likely to find themselves in coethnic relationships as they imagined the role that extended family would play They talked about parental prejudices language religion and other cultural clashes as major factors There were many females however who did not follow this pattern because of perceptions of patriarchy They avoided coethnic relationships because they wanted a partner who would think of them as an equal
