Marriage The Family:

The Marriage-Go-Round Andrew J. Cherlin, 2010-12-08 In a landmark book that is intriguing and provocative and presents an original thesis to explain this peculiar paradox we idealize marriage and yet we're so bad at it The New York Times Andrew J. Cherlin's three decades of study have shown him that marriage in America is a social and political battlefield in a way that it isn't in other developed countries Americans marry and divorce more often and have more live in partners than Europeans and gay Americans have more interest in legalizing same sex marriage The difference comes from Americans' embrace of two contradictory cultural ideals marriage a formal commitment to share one's life with another and individualism which emphasizes personal choice and self-development Religion and law in America reinforce both of these behavioral poles fueling turmoil in our family life and heated debate in our public life Cherlin's incisive diagnosis is an important contribution to the debate and points the way to slowing down the partnership merry go round

The Individual, Marriage, and the Family Lloyd Saxton, 1986 Handbook of Marriage and the Family Marvin B. Sussman, Suzanne K. Steinmetz, Gary W. Peterson, 2013-06-29 To know where we are going as scholars educators and practitioners in the field of marriage and family life we first need to know where we have been A perusal of early texts on marriage and family life provides some thought provoking insights into the accuracy of the saying what goes around comes around It is interesting to note who has been considered to be in a position to provide information on marriage and family life Included in the eclectic collection of texts we reviewed were ministers whose focus was on spirituality doctors who emphasized medical aspects of child and adult health and public health professionals and home economists concerned with fighting disease who emphasized cleanliness order fighting germs and eliminating rodents and insects There are also philosophers who drew from ancient texts when discussing family life and a count who assembled a group of German intellectual elites to address various topics An insightful essay of this type is by Marta Karlweis 1926 in which she notes There is no other fetish that society holds to so firmly as the conception woman with all its usual associations of infantilism and dependence The child requires protection is a minor and consequently a serf but above all it possesses no spiritual existence Neither doctorates or other distinctions nor the right to vote have as yet been able to dispel this sweet idea of the childishness of woman which man cherishes p Marriage and the Family David H. L. Olson, John D. DeFrain, 2000 This introduction to marriage and the family accentuates the positive aspects of relationships and focuses on enriching students' knowledge and experience in building strong successful relationships The authors both seasoned family scholars and therapists integrate research theory and practical application with an interdisciplinary perspective of marriage and family Throughout the book emphasis is placed on both the diversity of ethnic and cultural groups as well as the types of family structures and intimate relationships that are common today A variety of personal assessments and end of chapter exercises are provided to increase student understanding of interpersonal relationships
