Mars Disarmed Drew Milne,2002 Poetry Drew Milne is something of a one man culture industry He has published ten books of poetry and as much of criticism and critical anthologies He is the editor of Parataxis Editions and its house journal and is the co author with Terry Eagleton of Blackwell s 1996 Marxist Literary Theory For a better grasp of his career see his webpage at <http://drewmilne.tripod.com> Milne has an agreeably heavy touch with contemporary and anachronistic pop English the shot put data boys sure do prod the pudding rinky dink triumph of nerd mister kiss kiss bang bang on salad days and a pique nique of ire Gender, Politics, and Allegory in the Art of Rubens Lisa Rosenthal,2005-09-05 Gender Politics and Allegory in the Art of Peter Paul Rubens examines the intertwined relationship between paintings of family and marriage and of war peace and statehood by the Flemish master Drawing extensively upon recent critical and gender theory Lisa Rosenthal reshapes our view of Rubens works and of the interpretive practices through which we engage them Close readings offer new interpretations of canonical images while bringing into view other powerful works which are less familiar The focus on gender serves as a catalyst that enables an original way of reading visual allegory giving it a dynamic multivalence undiscovered by traditional iconographic methods The Pain of Reformation Joseph Campana,2012 The Pain of Reformation argues that Edmund Spenser s 1590 Faerie Queene examines emerging notions of vulnerability in Renaissance England This book approaches sensation through the aesthetics of the vulnerable body explores the emergence of notions of shared vulnerability and illuminates a constellation of masculinity sexuality and ethics in post Reformation England

Jacques-Louis David Philippe Bordes,2007-01-01 A landmark publication that sheds new light on the work of Jaques Louis David the most celebrated artist of his time The Romances of Alexandre Dumas Alexandre Dumas,1895 Rubens & Brueghel Anne T. Woollett,Ariane van Suchtelen,2006 Truly collaborative paintings that is not simply mechanical but also conceptual co productions are rare in the history of art This gorgeously illustrated catalogue explores just such an extraordinary partnership between Antwerp s most eminent painters of the early seventeenth century Peter Paul Rubens 1577 1640 and Jan Brueghel the Elder 1568 1625 Rubens and Brueghel executed approximately twenty five works together between around 1597 and Brueghel s death in 1625 Highly prized and sought after by collectors throughout Europe the collaborative works of Rubens and Brueghel were distinguished by an extremely high level of quality further enhanced by the status of the artists themselves Published to coincide with an exhibition at the Getty Museum to be held July 5 to September 24 2006 the catalogue features twenty six color plates of such Rubens Brueghel paintings as The Return from War The Feast of Achelo s and Madonna and Child in a Garland of Flowers along with Rubens and Brueghel s collaborations with important contemporaries such as Frans Snyders and Hendrick van Balen This is the first such publication to fully address and reproduce these works in depth Enchanted Islands Mary D. Sheriff,2018-08-16 In Enchanted Islands renowned art historian Mary D Sheriff explores the legendary fictional and real islands that filled the French imagination during the ancien

regime as they appeared in royal ballets and festivals epic literature paintings engravings book illustrations and other objects Some of the islands were mythical and found in the most popular literary texts of the day islands featured prominently for instance in Ariosto's Orlando furioso Tasso's Gerusalemme liberata and Falcone's Telemachus Other islands real ones such as Tahiti and St Domingue the French learned about from the writings of travelers and colonists All of them were imagined to be the home of enchantresses who used magic to conquer heroes by promising sensual and sexual pleasure As Sheriff shows the theme of the enchanted island was put to many uses Kings deployed enchanted island mythology to strengthen monarchical authority as Louis XIV did in his famous Versailles festival Les Plaisirs de l'île enchanté Writers such as Falcone used it to tell morality tales that taught virtue duty and the need for male strength to triumph over female weakness and seduction Yet at the same time artists like Boucher painted enchanted islands to portray art's purpose as the giving of pleasure In all these ways and more Sheriff demonstrates for the first time the centrality of enchanted islands to ancient regime culture in a book that will enchant all readers interested in the art literature and history of the time

Brunelleschi's Egg Mary D. Garrard, 2010 Garrard one of a small handful of truly distinguished feminist art historians presents a detailed and visually convincing account of the relationship between nature and art in all its fraught and gendered cultural meaning from antiquity on Brunelleschi's Egg constitutes an exemplary feat of interdisciplinary study that requires no specialized theoretical baggage to follow and emulate Mieke Bal author of *Of What One Cannot Speak* Doris Salcedo's Political Art Mary Garrard's discerning eye and deep knowledge of Renaissance art informs this fascinating book She offers a sophisticated exploration of a rich artistic conversation on the relationship of nature and art describing the central role of gender in structuring artists complex and changing attitudes toward nature Brunelleschi's Egg is so much more than a history of style it maps the changing mindsets of Renaissance society in the several centuries during which scientific developments gradually seized masculine authority relegating both art and nature to mastered femininity This book provides new perspective on Italian Renaissance masterworks it will be central to future discussion of Renaissance art Margaret R Miles author of *A Complex Delight The Secularization of the Breast 1350-1750* In this sweeping study the magnum opus of one of feminist art history's founding mothers Mary Garrard extends the gendered critique of art into the realms of philosophy and science psychology and myth Her eloquently prophetic and richly detailed synthesis chronicles western culture's increasing feminization of nature and art and its parallel masculinization of the human mind both male and female as a Renaissance tragedy on an epic scale The book is a must read for historians of the early modern period with a theme also of urgent contemporary concern James M Saslow author of *Pictures and Passions A History of Homosexuality and Art* A completely new and thoroughly convincing way of looking at the major monuments of the Italian Renaissance The ideas in Brunelleschi's Egg are so compelling that it is hard to imagine a reader who would not be drawn into the analysis Jacqueline Marie Musacchio author of *Art Marriage and Family in the Italian Renaissance Palace* Garrard offers an unprecedented

perspective on an amazing plethora of seminal works Written beautifully Brunelleschi's Egg is nothing but exemplary Yael Even University of Missouri St Louis **Premodern Masculinities in Transition** Konrad Eisenbichler, Jacqueline Murray, 2024 Sheds new light on how masculinity was understood lived performed and viewed during a period of huge change Premodern masculinity was multivalent and dynamic a series of intersecting conflicting and mutating identities that nevertheless were distinct and recognizable to people and their societies The articles collected here examine a variety of means by which masculinity was constructed deconstructed and transformed across time geographies and cultures Articles range across the twelfth to seventeenth century from western Europe to the Volga Ural region from the Christian west to the Muslim east from Ottomans to Mongols and Persians from Baudri of Bourgueil to Blaise de Monluc while topics include the chivalric hero the effeminate man beards and spurs represented variously in literature historical documents and art Finally in that period of great transformation that is the sixteenth century they show how masculinity moved away from the traditional and recognizable to become something different and distinct from its premodern expressions
