Martello Towers:

Martello Towers Sheila Sutcliffe, 1973 Martello Towers those squat circular buildings on lonely stretches of coastline have been part of the seaside scene for over 150 years This book describes how and why they were built their history and what they are used for today

Martello Towers Worldwide Bill Clements, 2011-07-04 Martello Towers Worldwide follows the history of the Martello tower from the construction of the early towers built to protect the Mediterranean shores of Spain and Italy right up to the final towers built in the United Kingdom during the First World War The book is illustrated with a large number of contemporary and historic photographs drawings and plans a very large number of which were not included in the earlier *Towers of Strength* These provide the most detailed information yet published about the development of the Martello towers in Britain and overseas So the book will be of particular interest to those interested in the history of fortifications architectural conservation and military history generally It will also be of interest to an international readership as the book now has a gazetteer of towers outside the United Kingdom that remain today together with a chapter describing a number of towers built in the United States The book supplements the earlier *Towers of Strength* and such will be an important addition to the existing bibliography of books on Martello towers and fortification

Towers of Strength W. H. Clements, 1998-08-12 Martello towers were built in the early part of the nineteenth century to defend the coast of England against Napoleonic invasion Almost 200 years later forty one of these handsome brick towers still stand along the coast of Kent Sussex Essex and Suffolk The cost of their construction was comparable in relative terms to that of today's Trident missile system The line of towers was never tested in action but acted as an effective deterrent against invasion Today Martello towers are a familiar sight from Aldeburgh in Suffolk to Newhaven in Sussex but it is generally known that similar towers were built by the Royal Engineers to defend British interests in other parts of the world Martello towers were being built as late as the 1850s as far afield as Canada Mauritius Australia and the Mediterranean This book illustrated with numerous photographs and plans is the first comprehensive and detailed study of the known Martello towers built by the British Its description of their construction use current condition and fate will fascinate the enquiring reader as well as being a source of interest to visitors Many of the towers remain landmarks today Fort Denison in Sydney Harbour being a case in point

Martello Towers Michael Foley, 2013-03-15 Full colour guide to the towers built to defend England's coastline Built to defend against Napoleon's forces the Martello towers have played a part in both the First and Second World Wars and many are still visible along the coasts of Kent Sussex Essex and Suffolk

Tybee Island Robert A. Ciucevich, 2005 From Gule Indians and Spanish explorers to its glory days as the queen of south Atlantic beach resorts and beyond Tybee Island's quiet charm hides a rich and occasionally violent history Soldiers rebels and rumrunners all found their place in history here as great battles fires and hurricanes played out over time Through centuries

of change Tybee has remained one of the South's most popular resorts *The Martello Towers of Ireland* Victor J. Enoch, 1975 *Martello Towers* Geoff Hutchinson, 1994 *The Martello Towers and the Story of Key West*, 1953

Martello Towers Alexander Buzo, *The Martello Towers and the Story of Key West* Burt Garnett, 1953 **History of Martello Towers in the Defence of British North America, 1796-1871** Parks Canada, 1975 *Coastal Defences of the British Empire in the Revolutionary & Napoleonic Eras* Daniel S. MacCannell, 2021-06-30 Far more than an architecture book *Coastal Defences of the British Empire 1775-1815* is a sweeping reinterpretation of the Martello towers Grand Redoubts Royal Military Canal and other new defence infrastructure of the Napoleonic War Lavishly illustrated with period maps views portraits cartoons and newly commissioned color photographs it includes not only these structures forerunners and plans that were never executed but also the grand strategy that informed them At its best this saw Britain's position as a vast land battle with the deadly threat of the French held Antwerp navy yards on its own left wing and Lisbon as the enemy's weak left to be turned The book also takes in the astonishingly inventive bold and bloody small boat wars that raged from the Baltic and Channel coast to Chesapeake Bay and Lake Ontario and provides vivid pen sketches of the now obscure and sometimes deeply flawed strategic visionaries engineers inventors and fighting men who held the line as even after Trafalgar the forces of an ever more powerful French empire circled like sharks Along the way it traces a fundamental change in the nature of war and society from a ponderous game of fortresses and colonies played by rulers to murderous foot by foot defence of the whole territory of the nation by both sexes and every social type **A Legacy in Brick and Stone** John Weaver, 2018 The definitive history of the American Third System of Fortifications that defended our coastline for more than half of century these architectural wonders were built from 1816 through 1867 from Maine through the Florida Keys to New Orleans with two forts in San Francisco Bay Almost all of these 42 masonry forts still stand along our shores and most are open to the public A Legacy in Brick and Stone provides the background of these famous Civil War forts why they were built where they are who built them and how they functioned as well as descriptions of each fort This revised and expanded edition has grown by over 100 pages and over 400 new photographs and drawings have been included **Catalogue of the Collections of Munitions of War &c., in the South Kensington Museum** South Kensington Museum, Victoria and Albert Museum, 1875

Geotechnical Engineering for the Preservation of Monuments and Historic Sites Emilio Bilotta, Alessandro Flora, Stefania Lirer, Carlo Viggiani, 2013-05-10 All the traces of historic heritage are a fundamental part of our environment and reward us in the form of cultural enrichment with the ability to have a positive effect both on our lifestyle and economy Therefore the preservation of ancient monuments historic towns and sites has increasingly drawn the attention of public opinion governmental agencies as well as consultants and contractors This interest must be however carefully controlled and directed since the conservation of monuments and historic sites is one of the most challenging problems of our age Careless attempts at preservation can be detrimental not only to their iconic value formal integrity but even to their structural

characteristics and the materials they are built with material integrity Geotechnical Engineering for the Preservation of Monuments and Historic Sites collects one opening address four special lectures and 82 contributions from all over the world giving a unique sample of the geotechnical problems to be tackled the solutions currently being proposed and the strategies being carried out to preserve the overall integrity of monuments and historic sites It is clearly apparent that differences exist around the world not only in terms of the characteristics of the monuments or sites to be preserved but also in the approaches adopted to achieve this aim Hence no unique solution is available to the geotechnical engineer dealing with the delicate structures and sites that represent our cultural heritage and knowledge of previous experiences may be a unique guide in any technical decision making process English Martello Towers R. M. Telling,1997 **A Biographical Dictionary of Civil Engineers in Great Britain and Ireland: 1500-1830** A. W. Skempton,2002 This biographical reference work looks specifically at the lives works and careers of those individuals involved in civil engineering whose careers began before 1830 The Marconigraph ,1912
