## **Martin Buber A Centenary Volume:**

**Martin Buber, a Centenary Volume** Hayim Gordon, Jochanan Bloch, 1984 *Volume 9: Kierkegaard and Existentialism* Jon Stewart, 2016-12-05 There can be no doubt that most of the thinkers who are usually associated with the existentialist tradition whatever their actual doctrines were in one way or another influenced by the writings of Kierkegaard. This influence is so great that it can be fairly stated that the existentialist movement was largely responsible for the major advance in Kierkegaard's international reception that took place in the twentieth century. In Kierkegaard's writings one can find a rich array of concepts such as anxiety, despair, freedom, sin, the crowd, and sickness that all came to be standard motifs in existentialist literature. Sartre played an important role in canonizing Kierkegaard as one of the forerunners of existentialism. However, recent scholarship has been attentive to his ideological use of Kierkegaard. Indeed, Sartre seemed to be exploiting Kierkegaard for his own purposes and suspicions of misrepresentation and distortions have led recent commentators to go back and reexamine the complex relation between Kierkegaard and the existentialist thinkers. The articles in the present volume feature figures from the French, German, Spanish, and Russian traditions of existentialism. They examine the rich and varied use of Kierkegaard by these later thinkers and most importantly they critically analyze his purported role in this famous intellectual movement.

**Volume 19, Tome VI: Kierkegaard Bibliography** Peter Šajda, Jon Stewart, 2017-03-16 The long tradition of Kierkegaard studies has made it impossible for individual scholars to have a complete overview of the vast field of Kierkegaard research. The large and ever increasing number of publications on Kierkegaard in the languages of the world can be simply bewildering even for experienced scholars. The present work constitutes a systematic bibliography which aims to help students and researchers navigate the seemingly endless mass of publications. The goal has been to create the most exhaustive bibliography of Kierkegaard literature possible and thus the bibliography is not limited to any specific time period but instead spans the entire history of Kierkegaard studies.

**The Heidegger-Buber Controversy** Haim Gordon, 2001-05-30 The I Thou controversy between these two thinkers is a significant but often overlooked issue in philosophy and theology. In one of the first books to truly address the subject, Haim Gordon explores the arguments of both Martin Heidegger and Martin Buber regarding the I Thou relationship and its significance for human existence. Gordon's work illuminates Heidegger's complex and enlightening ontology, one that describes the everyday life of the human in such a way that there is no place for the I Thou relationship. Buber, on the other hand, argues for the significance of the I Thou relationship within human existence and highlights the ways in which Heidegger's philosophy fails to grasp this important point. After examining the fundamental ontology of Heidegger set beside the ontological insights of Buber concerning this relationship, Gordon concludes that each of these important twentieth century philosophers was guilty of ignoring the contributions made by the other to the study of ontology and being. By exploring the complicated dynamic between Heidegger and Buber, Gordon presents the reader with valuable insights and a deeper understanding of human existence and

relationships The implications of both this controversy and its resolution are far reaching for many other philosophical disciplines including social and political philosophy metaphysics and ethics     **Animal Theologians** Andrew Linzey,Clair Linzey,2023 Many people who have thought about God have not thought about animals or about the relationship between the two But among those who have are some of the most celebrated religious thinkers including Michel de Montaigne Thomas Tryon John Wesley John Ruskin Leo Tolstoy Mohandas K Gandhi Albert Schweitzer and Paul Tillich This volume comprises 24 scholarly studies that detail challenges to the dominant anthropocentrism of most religious traditions The editors have brought together Jewish Unitarian Christian transcendentalist Muslim Hindu Dissenting deist and Quaker voices each offering a unique theological perspective that counters the neglect of the nonhuman Animal Theologians is divided into three parts starting with the pioneers who first saw a relationship between animals and divinity those who contributed to the expansion of social sensibility to animals and ending with the work of contemporary theologians The essays in this volume use contextual and historical background to describe what led animal theologians to their beliefs and then pave way for further developments in this expanding field This volume is an act of reclaiming different religious traditions for animals by recovering lost voices     *The "central Person" in Martin Buber's Political Theory* Dan Avnon,1990     *The Cumulative Book Index* ,1985 A world list of books in the English language     *Martin Buber's Biblical Hermeneutics* Claire Emily Sufrin,2008
