The Existential Philosophy of Etty Hillesum Meins G. S. Coetsier,2014-01-09 In The Existential Philosophy of Etty Hillesum Meins G S Coetsier breaks new ground by demonstrating the Jewish existential nature of Etty Hillesum s spiritual and cultural life in light of the writings of Martin Buber Emmanuel Levinas and Dietrich Bonhoeffer Hillesum s diaries and letters written between 1941 and 1943 illustrate her struggle to come to terms with her personal life in the context of the Second World War and the Shoah By finding God under the rubble of the horrors she rediscovers the divine presence between humankind while taking up responsibility for the Other as a way to embrace justice and compassion In a fascinating accessible and thorough study Coetsier dispels much of the confusion that assails readers when they are exposed to the bewildering range of Christian and Jewish influences and other cultural interpretations of her writings The result is a convincing and profound picture of Etty Hillesum s path to spiritual freedom

**Contemporary Religious Studies in China** Xinping Zhuo,2020-04-30 It is a spectacular history since the founding of the PRC When looking back to the history we realize the huge accomplishment of the contemporary China and the remarkable spirit of Chinese people Just as that in other branches the achievements of contemporary Chinese academic development are fully manifested in the research and results of contemporary Chinese religious studies Therefore there is special academic value and practical significance for the development and the future of our religious studies to reexamine this period of history and explore how contemporary Chinese scholars think about it During the academic development of contemporary China religious studies be come one of the most developed and popular as well as controversial subjects This is because religious studies have been situated in a complex background and it is difficult to have a well situated position with broad spectrums and sensitive questions Hence religious studies belong to the subjects that are growing The understanding of its connotation and extension is still on the way The full development of religious studies as a discipline will represent the real leap of Chinese religious studies

**Thinking Jewish Culture in America** Ken Koltun-Fromm,2013-12-11 Thinking Jewish Culture in America argues that Jewish thought extends our awareness and deepens the complexity of American Jewish culture This volume stretches the disciplinary boundaries of Jewish thought so that it can productively engage expanding arenas of culture by drawing Jewish thought into the orbit of cultural studies The eleven contributors to Thinking Jewish Cultures together with Chancellor Arnold Eisen s postscript position Jewish thought within the dynamics and possibilities of contemporary Jewish culture These diverse essays in Jewish thought re imagine cultural space as a public and sometimes contested performance of Jewish identity and they each seek to re enliven that space with reflective accounts of cultural meaning How do Jews imagine themselves as embodied actors in America Do cultural obligations limit or expand notions of the self How should we imagine Jewish thought as a cultural performance What notions of peoplehood might sustain a vibrant Jewish collectivity in a globalized economy How do programs in Jewish studies work within the academy These and other questions engage both Jewish thought and

culture opening space for theoretical works to broaden the range of cultural studies and to deepen our understanding of Jewish cultural dynamics Thinking Jewish Culture is a work about Jewish cultural identity reflected through literature visual arts philosophy and theology But it is more than a mere reflection of cultural patterns and choices the argument pursued throughout Thinking Jewish Culture is that reflective sources help produce the very cultural meanings and performances they purport to analyze

**Maimonides and the Shaping of the Jewish Canon** James A. Diamond, 2014-10-27

Jewish thought since the Middle Ages can be regarded as a sustained dialogue with Moses Maimonides regardless of the different social cultural and intellectual environments in which it was conducted Much of Jewish intellectual history can be viewed as a series of engagements with him fueled by the kind of Jewish rabbinic and esoteric writing Maimonides practiced This book examines a wide range of theologians philosophers and exegetes who share a passionate engagement with Maimonides assaulting adopting subverting or adapting his philosophical and jurisprudential thought This ongoing enterprise is critical to any appreciation of the broader scope of Jewish law philosophy biblical interpretation and Kabbalah Maimonides's legal philosophical and exegetical corpus became canonical in the sense that many subsequent Jewish thinkers were compelled to struggle with it in order to advance their own thought As such Maimonides joins fundamental Jewish canon alongside the Bible the Talmud and the Zohar

*Sociocultural Studies in Education* Richard A Quantz, 2016-01-08

Sociocultural Studies in Education Critical Thinking for Democracy fills a void in the education of educators and citizens in a democracy It explores some of the fundamentals around which disagreements in education arise It presents a process with which those new to these debates can understand often confusing and entwined sets of facts and logics This book leads the reader through some general concepts and intellectual skills that provide the basis for making sense out of the debates around public education in a democracy This book can be seen as a primer on how to read texts about education It acknowledges that good teachers must be not only trained to teach but also educated about education It presents the various themes and currents found within the arguments and narratives that people use to represent public education It assumes that the more those interested in education know about how to see through the rhetoric the better they will be at discerning whose interests are served by which texts

**Judaic Perspectives in Rhetoric and Composition** Andrea Greenbaum, Deborah H. Holdstein, 2008

There has been virtually little discussion about how Judaism whether as a religious doctrine or cultural identity has influenced the field of composition studies This chasm in composition scholarship is surprising given that composition studies has been a discipline that has vigorously claimed to embrace and advocate a policy of diversity This book explores the myriad configurations of Judaic influences in composition studies that have yet to be articulated but that are made manifest in the theory and pedagogy of radical critical teaching service learning and narratives of literacy identity and politics Further the text explores how Judaic rhetorical texts can be used to reconstruct traditional rhetoric through its use of language style and symbolism

**Jews in China** Irene Eber, 2019-11-12 Irene Eber was one of the foremost authorities on Jews in China during

the twentieth and twenty first centuries a field that in contrast to the study of the Jewish diaspora in Europe and the Americas has been critically neglected This volume gathers fourteen of Eber's most salient articles and essays on the exchanges between Jewish and Chinese cultures making available to students scholars and general readers a representative sample of the range and depth of her important work in the field of Jews in China Jews in China delineates the centuries long reciprocal dialogue between Jews Jewish culture and China all under the overarching theme of cultural translation The first section of the book sets forth a sweeping overview of the history of Jews in China beginning in the twelfth century and concluding with a detailed assessment of the two crucial years leading up to the Second World War The second section examines the translation of Chinese classics into Hebrew and the translation of the Hebrew Bible into Chinese The third and final section turns to modern literature bringing together eight essays that underscore the cultural reciprocity that takes place through acts of translation The centuries long relationship between Judaism and China is often overlooked in the light of the extensive discourse surrounding European and American Judaism With this volume Eber reminds us that we have much to learn from the intersections between Jewish identity and Chinese culture
