Marx His Theory And Its Context

David McLellan

Marx His Theory And Its Context:

Marx, His Theory and Its Context Angus Walker, 1989 *Marx, His Theory and Its Context* Angus Walker, 1978 *Karl Marx and the Philosophy of Praxis* Gavin Kitching, 2015-04-17 In this major study first published in 1988 Professor Kitching builds on recent scholarship on Marx and Wittgenstein to provide an incisive readable account and critique of the whole of Marx's work. He presents the philosophical, economic and political Marx as one thinker and argues that the key to understanding Marx is his commitment to a philosophy of praxis. This sees thought as just part of that purposive activity or praxis which distinguishes human beings from other creatures. This is the first book to analyse all of Marx's thought from a Wittgenstein perspective; in doing so it clarifies and deepens our understanding of Marx. Marx's Scientific Dialectics Paul B. Paolucci, 2007-06-30 While Karl Marx's ideas remain influential in the social sciences, there is considerable disagreement and debate on the methodological principles that inform his work. Marx often aligned himself with both scientific and dialectical principles, at least once referring to his method as a scientific dialectic, suggesting he believed dialectical reason could be incorporated into scientific method. By debunking several misconceptions about Marx's work and examining how he brought scientific methods to bear on his general sociological thinking, his materialist historical perspective and within his political economy, this book brings new insight to the methodological principles that animate Marx's writings. What emerges from such a perspective is an approach to sociological inquiry that remains vital and useful for contemporary research on capitalist society and its possible futures. *Marx's Theory of Ideology (RLE Marxism)* Bhikhu Parekh, 2015-04-17 Although Marx's concept of ideology has been a subject of considerable discussion, much of the debate has proved to be rather disappointing. There has been no systematic attempt to examine why Marx needed the concept of ideology, why it was an important concept for him, and how it related to his views on truth and objectivity. This book, first published in 1982, considers these and other neglected questions. It explains why Marx continued to use the term ideology throughout his life to mean both idealism and apologia and traces the complex ways in which, according to Marx, such talented writers as Hegel became apologists. In conclusion, the book outlines the lessons Marx learnt from his investigations into the nature and mechanism of ideology and discusses his theories of objectivity and truth. The A to Z of Marxism David Walker, Daniel Gray, 2009-08-13 Marxism, one of the few philosophies that turned into an effective movement not so long ago, was the official ideology in one form or another of much of humanity. It was promulgated initially by the Soviet Union, then imposed on much of Central and Eastern Europe, later emerged in the People's Republic of China and gradually spread to other parts of Asia and even bits of Africa and Latin America. Although declining in its initial popularity, it still remains strong in several countries and is supported by numerous communist and other parties and countless individuals around the world. *The A to Z of Marxism* covers the history of Marxism and all its thinkers and schools of thought in a comprehensive manner. This is done through a chronology, an introductory essay, a bibliography, and hundreds of cross-reference dictionary entries on basic terms and

concepts significant thinkers and doers and also the parties and countries that followed it **Karl Marx** Karl Marx,2000 This edition of McLellan s comprehensive selection of Marx s writings includes carefully selected extracts from the whole range of Marx s most important pieces alongside a fully revised and updated bibliography and editorial commentary on each document New editorial introductions to each section of the book provide the reader with the background and context of Marx s writing in each period Essential reading for anyone wishing for a detailed overview of Marx spolitical philosophy

MARX : HIS THEORY AND ITS CONTEXT ; POLITICS AS ECONOMICS ; AN INTROD. AND CRITICAL ESSAY ON THE POLIT. ECONOMY OF KARL MARX Angus Walker,1979 Natural Law and Political Realism in the History of Political Thought R. W. Dyson,2005 Original Scholarly Monograph Western Political Thought Robert Eccleshall,Michael Kenny,1995 This is a guide to the vast amount of literature on the history of political thought which has appeared in English since 1945 The editors provide an annotation of the content of many entries and where appropriate indicate their significance controversial nature and readability **The Thought of Karl Marx** David McLellan,1995 An introduction to the complex and often misrepresented ideas of Marx Surveys his published work in each period in chronological sequence

Marx Angus Walker,1978 **Marx and Modern Economic Analysis** Giovanni Caravale,1991 Presents a spectrum of interpretations of Marx s economic theory and methodology Informed by the debate on the foundations of economic theory the main emphasis is on analytical and textual argument to the rigorous exclusion of ideological debates **Marx** Angus Walker,1978 **The Theoretical System of Karl Marx in the Light of Recent Criticism** Louis Boudianoff Boudin,1907

On Hegel's Epistemology and Contemporary Philosophy Tom Rockmore,1996 Aimed at specialists as well as graduate and select undergraduate students this study centers on Hegel s important but neglected theory of knowledge Professor Rockmore interprets Hegel as reacting to the Kantian effort to reformulate epistemology in the wake of what Kant contends is the failure of earlier dogmatic theories Recent work has shown that Hegel s epistemology is a good deal more respectable than has usually been thought Rockmore s aim is to continue that work in order to bring Hegel into the main discussion of knowledge Rockmore s main argument for the relevance of Hegel s theory to the problem of knowledge is that with the apparent failure of foundationalism Hegel s antifoundationalist theory that sees knowledge as perspectival and historical supplies two items helpful to advance the epistemological discussion **Marx's Wage Theory in Historical Perspective** Kenneth Lapides,1998-06-18 To fully grasp Marx s theory of the labor movement Lapides supplies a deeper insight into the economic analysis underlying it This book presents Marx s theory of wages and wage labor previously scattered throughout his writings in its entirety for the first time The author places the theory in its historical context locating the sources of Marx s wage theory its intellectual antecedents and the roots of later controversies but the primary focus of the work is the actual development of Marx s theory in the words in which he expressed it In order to reveal the true nature and rich texture of Marx s thought the author has assembled Marx s own formulations scattered throughout his numerous works and buried

beneath mountains of commentary and criticism The book provides a faithful record of the complete evolutionary progress of Marx's theory **An Introduction to Political Science** Mark R. Amstutz, 1982 **Monetary Economics** William Warrand Carlile, 1912 *Karl Marx's Theory of Revolution: The "dictatorship of the proletariat"* Hal Draper, 1986

The Enigmatic Realm of **Marx His Theory And Its Context**: Unleashing the Language is Inner Magic

In a fast-paced digital era where connections and knowledge intertwine, the enigmatic realm of language reveals its inherent magic. Its capacity to stir emotions, ignite contemplation, and catalyze profound transformations is nothing in short supply of extraordinary. Within the captivating pages of **Marx His Theory And Its Context** a literary masterpiece penned by way of a renowned author, readers set about a transformative journey, unlocking the secrets and untapped potential embedded within each word. In this evaluation, we shall explore the book's core themes, assess its distinct writing style, and delve into its lasting effect on the hearts and minds of people who partake in its reading experience.
