Marxism And Religion:

Marxism and Religion David McLellan, 1987 **Marx, Marxism, and Religion. A Brief Analysis of Interactions through Arguments, Semantics, and Context Awareness** Arghya Ray, 2015-01-05 Document from the year 2015 in the subject Sociology Religion language English abstract Without the fear of contradicting anyone it can generally be held that academicians worldwide describe Karl Marx as an atheist This point needs not to be challenged or scrutinised in great depths The reason is that Marx's personal mentality or intellectual bending does not profoundly affect the making of Marxism and its applications to the real world The first country to embrace scientific socialism along Marxist lines came into existence in the form of erstwhile Soviet Union The Soviet Union or the Union of Soviet Socialist Republics USSR was a country that began taking shape in the year 1917 However Marx had died rather long ago in the year 1883 So any attempt to find a direct personalised connection between Marx and USSR is nothing but academically irrelevant This irrelevance is further bulged when it is considered that Marx was especially interested in the affairs of Germany According to Marx only well developed capitalist economies were expected to be at the verge of a socialist revolution Desai 2004 However when the Bolsheviks of a backward capitalist country like Russia managed to establish the USSR Marx's predictions came under close scrutiny by the contemporary thinkers Desai 2004 In the current research work the economic importance of this development is not the main focus area The main focus area is Marxism and religion The main point of contention is not what Marx thought about religion Overwhelming majority of scholars think that Marx was a decided atheist However the main point of contention is what Marxists should actually do while handling religion Religion even in its simplest form has the capability of manifesting as both personalised and socially dispersed phenomena While exploring a possible alternative to capitalism Marxist and pro Marxist leaders contemplated on various societal issues which included religion and theology as well Desai 2004 Lobkowicz 1964 So it is a complex yet necessary pursuit to understand how Marxism needs religion to be handled If Marxism were completely antireligious then most of the world's socialist governments would not have allowed religious freedom at least officially For example even the Soviet Constitution did never authorise the state to destroy religion or persecute people on religious grounds Ginsburgs 1982 This kind of approach cannot be simplified just on the basis of a longing for internationalism **Marxism and Religion**, 2014-02-27 In Marxism and Religion leading Chinese scholars unfold before our eyes theoretical explorations of religion in present day China In addition they along with senior cadres superintending religious affairs strenuously explain why the Marxist view of religion still has relevance to living religions in a country undergoing deep changes unleashed by the late paramount leader Deng Xiaoping's reform and opening up policies Mistakenly perceived by so many westerners as outdated and dogmatic quasi scholarly work in the service of communist regime's propaganda studies selected here are brainchildren of a group of creative and reform minded scholars and cadres who endeavor to uphold Marxist traditions while innovatively sinicizing them hoping that their efforts will contribute to the

ruling party's ideological reconstruction Contributors include Fang Litian Gao Shining Gong Xuezeng He Qimin Jin Ze Li Xiangping L Daji Wang Xiaochao Wang Zuo an Ye Xiaowen Zhu Xiaoming and Zhuo Xinping **Marxism, Religion, and Emancipatory Politics** Graeme Kirkpatrick, Peter McMyler, Simin Fadaee, 2022-08-24 This edited collection evaluates the relationship between Marxism and religion in two ways Marxism's treatment of religion and the religious aspects of Marxism Its aim is to complicate the superficial understanding of Marxism as a simple rejection of religion both in theory and practice Divided into two parts Theory and Praxis this book brings together the three different themes of Marxism religion and emancipation for the first time The first part explores the more theoretical discussions regarding the relationship between Marxism and various themes or currents within religious thought to highlight points of compatibility as well as incompatibilities conflicts The studies in the second part of the collection refer to how Marxist ideas are received in different parts of the world They show that as soon as Marxism arrives in a new place the theory interacts and bonds with a pre existing stock of ideas each changing the other reciprocally *Marx On Religion* Karl Marx, 2002-03-25 Few people would ever expect that Karl Marx is the writer of the above statement He not only wrote it but he did so in the same breath of his more famous dictum that religion is the opiate of the masses How can one reconcile such different perspectives on the power and ubiquity of religion In this compact reader of Marx's essential thought on religion John Raines offers the full range of Marx's thoughts on religion and its relationship to the world of social relations Through a careful selection of essays articles pamphlets and letters Raines shows that Marx had a far more complex understanding of religious belief Equally important is how Marx's ideas on religion were intimately tied to his inquiries into political economy revolution social change and the philosophical questions of the self Raines offers an introduction that shows the continuing importance of the Marxist perspective on religion and its implications for the way religion continues to act in and respond to the momentous changes going on in our social and environmental worlds Marx on Religion also includes a study guide to help professors and students as well as the general reader continue to understand the significance of this often under examined component of Marx Author note John Raines is Professor of Religion at Temple University He is the author of over a half dozen books including most recently *What Men Owe to Women Men's Voices from World Religions* **Marxism and Religion** David McLellan, 1987

On Religion Karl Marx, Friedrich Engels, 2012-03-13 In these letters and essays the founders of Marxism discuss the origins and essence of religion and offer a thought provoking introduction to the theoretical basis of proletarian atheism

Karl Marx and Religion Trevor Ling, 1980-09-04 **The Classical Marxist Critiques of Religion: Marx, Engels, Lenin, Kautsky** D.B. McKown, 2012-12-06 In view of the enormous number of works on Marxism in general and in light of the many books and articles touching on the relationship of Marxism to religion in particular it may fairly be asked why yet another such work should be produced My reply is that in eliciting answers to the kinds of questions posed by the methodology I have used it was necessary to go to the primary sources almost exclusively This is not to bemoan a sad fate

but to affirm that there are notable deficiencies in the secondary sources relevant to my topic By way of general indictment I contend that the major difficulty with existing studies of the Marxist critique of religion is that their authors whether expositors or critics have failed both to specify their own presuppositions concerning religion and to approach the subject with an adequate comprehension of its many dimensions Since in most cases the reader is equally unprepared anthropologically sociologically psychologically and historically for clear and informed thought in this vast and nebulous area the result has been widespread confusion As if this were not enough numerous writers with little more than polemical interests have compounded the confusion by failing to distinguish between religion in general and their own brands of faith in particular Others have not discriminated between the concepts of metaphysics and the supernatural items of religious belief

Marxism, Socialism and Religion Karl Marx,2001 This work brings together new translations of Marx s most important texts in political philosophy written after 1848 Marx challenged political theory to its very fundamentals as his works do not follow traditional models for exploring politics theoretically In his introduction Terrell Carver situates Marx in a politics of democratic constitutionalism and revolutionary communism The works are presented here complete according to the first editions or the earliest manuscript state and include the Manifesto of the Communist Party the preface of 1859 to A Contribution to the Critique of Political Economy The Civil War in France and the little known Notes on Adolph Wagner More than most political theorists Marx made contemporary politics the focus for his theoretical work He created a distinctive kind of political theory and this volume aims to make it accessible today

The Christian Faith and the Marxist Criticism of Religion Helmut Gollwitzer,1970 **Marxism and Christianity** Alasdair MacIntyre,1984-03-15 Contending that Marxism achieved its unique position in part by adopting the content and functions of Christianity MacIntyre details the religious attitudes and modes of belief that appear in Marxist doctrine as it developed historically from the philosophies of Hegel and Feuerbach and as it has been carried on by latter day interpreters from Rosa Luxemburg and Trotsky to Kautsky and Lukacs The result is a lucid exposition of Marxism and an incisive account of its persistence and continuing importance

World Christianity and Marxism Denis Janz,1998 All the diverse philosophical and political manifestations of Marxism were ultimately rooted in Marx s thought and supporters based their greater or lesser hostilities toward Christianity on their reading of his critique Janz follows this with an overview of Christian responses to Marx extending from the mid 19th century to the onset of the Cold War

Marxist-Leninist "scientific Atheism" and the Study of Religion and Atheism in the USSR James Thrower,1983 Since its founding by Jacques Waardenburg in 1971 Religion and Reason has been a leading forum for contributions on theories theoretical issues and agendas related to the phenomenon and the study of religion Topics include among others category formation comparison ethnophilosophy hermeneutics methodology myth phenomenology philosophy of science scientific atheism structuralism and theories of religion From time to time the series publishes volumes that map the state of the art and the history of the discipline

Criticism of Religion Roland

Boer,2009-06-24 Criticism of Religion offers a spirited critical commentary on the engagements with religion and theology by a range of leading Marxist philosophers and critics Lucien Goldmann Fredric Jameson Rosa Luxemburg Karl Kautsky Julia Kristeva Alain Badiou Giorgio Agamben Georg Lukcs and Raymond Williams Apart from offering sustained critique the aim is to gather key insights from these critics in order to develop a comprehensive theory of religion The book follows on the heels of the acclaimed Criticism of Heaven being the second volume of a five volume series called Criticism of Heaven and Earth

Marxism and Religion in Eastern Europe R.T. De George,Robert H. Scanlan,1975-12-31 Since the Bolshevik revolution of 1917 two of the most significant but at the same time least understood areas of that revolution's cultural impact have been philosophy and religion The impact has of course been massive not only in the Soviet Union but after the second World War in Soviet dominated Eastern Europe as well Yet the consequences of Communism for philosophy and religion throughout the Soviet orbit are far from having the simplicity suggested by the stereotypes of a single monolithic Marxism and a consistent crushing assault on the Church and on religious faith Unquestionably Marxism is the ruling philosophy throughout Eastern Europe In the Soviet Union Marxism Leninism or dialectical materialism is the official and the only tolerated philosophy and most of the other countries of Eastern Europe follow the Soviet lead in philosophy as in other fields But in the latter countries Marxism was imposed only after World War II and its development has not always copied the Soviet model Original thinkers in Yugoslavia Czechoslovakia Poland and Hungary have thought their own way through the writings of Marx and his followers and have arrived at Marxist positions which are considerably at variance with the Soviet interpretations and often with each other Moreover in recent years the Soviet philosophers themselves have been unable to ignore the theoretical questions raised by the other East of Marxism in the West

Marxism, Religion and Ideology David Bates,Iain MacKenzie,Sean Sayers,2015-10-05 As austerity measures are put into place the world over and global restructuring is acknowledged by all as an attempt to bolster the economic system that lead to the crash there is a great need to come to grips with the economic political and philosophical legacy of Marx Of particular interest are Marx's analyses of alienation and the cycles of boom and bust thought to be integral to the functioning of capitalism Moreover as the Cold War drifts into the history books it is possible to reconsider the lasting impact of Marx's analyses without the shadows cast by the Soviet version of communism Equally though scholars are increasingly turning to Marx for insight into the rise of religion and the corresponding demise of political ideologies that seems to mark the contemporary age Are we witnessing the return of Marx Few scholars have done as much to tease out the intricacies of Marx's ideology and religion and their overlapping concerns as the eminent writer and Marx biographer Professor David McLellan This book brings together a group of internationally renowned academics to reflect upon develop and criticise McLellan's analyses of these three themes with a view to contributing more broadly to scholarly debates in these fields This exciting and timely analysis will be of interest to scholars of political theory the history of political thought including historical methodology Marx and Marxism sociology of knowledge

particularly in relation to discussions of ideology religion and theology more widely

Karl Marx on Religion Karl Marx,1974-10-01

In the Vale of Tears Roland Boer,2013-10-10 Winner of the 2014 Isaac and Tamara Deutscher Memorial Prize

In the Vale of Tears brings to a culmination the project for a renewed and enlivened debate over the interaction between Marxism and religion It does so by offering the author s own response to that tradition It simultaneously draws upon the rich insights of a significant number of Western Marxists and strikes out on its own Thus it argues for the crucial role of political myth on the Left explores the political ambivalence at the heart of Christianity challenges the bent among many on the Left to favour the unexpected rupture of kair s as a key to revolution is highly suspicious of the ideological and class alignments of ethics offers a thorough reassessment of the role of fetishism in the Marxist tradition and broaches the question of death unavoidable for any Marxist engagement with religion While the book is the conclusion to the five volume series The Criticism of Heaven and Earth it also stands alone as a distinct intervention in some burning issues of our time

The Urgency of Marxist-Christian Dialogue Herbert Aptheker,1970

Herbert Aptheker s new book is a striking pragmatic argument for reconciliation He begins by setting forth views of Marx Engels and Lenin on religion and then discusses the most prevalent distortions of these views Current re examinations of Marxism by such theologicans as J rgen Moltmann Paul Lehmann and Charles West are also analyzed and discussed From back cover
