Marxism Imperialism:

Marxist Theories of Imperialism Tony Brewer, 2002-09-11 The last two hundred years have seen a massive increase in the size of the world economy and equally massive inequalities of wealth and power between different parts of the world They have also witnessed the rise to dominance of the capitalist mode of production Marxists from Marx himself through to present day thinkers have argued that these changes are profoundly interconnected This book offers a unique account of Marxist theories of Imperialism It has been fully updated and expanded to cover all the developments since its initial publication and will be essential reading for any student of Marxism *Marxist Theories of Imperialism* Anthony Brewer, 1990 The last two hundred years have seen a massive increase in the size of the world economy and equally massive inequalities of wealth and power between different parts of the world They have also witnessed the rise to dominance of the capitalist mode of production Marxists from Marx himself through to present day thinkers have argued that these changes are profoundly interconnected This book offers a unique account of Marxist theories of Imperialism It has been fully updated and expanded to cover all the developments since its initial publication and will be essential reading for any student of Marxism **Marxist Theories of Imperialism** Murray Noonan, 2017-02-28 For Marxists imperialism is the highest stage of capitalism Critical analysis of imperialism has been a feature of Marxism throughout the twentieth century The conceptualising and theorising of imperialism by Marxists has evolved over time in response to developments in the global capitalist economy and in international politics Murray Noonan here provides the first complete analysis of Marxist theories of imperialism in over two decades Presenting three phases of imperialist theories he analyses and compares Classical Neo and Globalisation era Marxist theories of imperialism The book moves chronologically tracking the origins of imperialism theorised by J A Hobson at the beginning of the twentieth century up to the present day He critically identifies and engages with a new Globalisation era phase of Marxist imperialism theory Through a detailed scholarly analysis of the history and evolution of these theories Noonan offers vital new perspectives on imperialist theory and its relevance and application in the twenty first century *Marxist Perspectives on Imperialism* Chronis Polychroniou, 1991-04-30 By distinguishing between classical Marxist and neo Marxist approaches to imperialism this volume challenges generally accepted views on the relationship between these two branches of Marxist thought reaffirming the principles and tools of fundamental Marxism as essential for understanding and explaining the internationalization of capitalist economic life Together original source materials and Polychroniou s highly readable analysis present a commentary both outlining and clarifying essential ideas contained in Marxist writings from the late 19th century to the present *Marxist Perspectives on Imperialism* also identifies current political and economic issues to which authentic Marxist concepts can be applied A review of Marx s views on capitalist production relations and expansion opens the discussion and defines criteria for evaluating analyses which follow Studies by classical Marxists such as Hilferding Bukharin and Lenin are then contrasted to the neo Marxist writings of Baran

Frank and Wallerstein among others Polychroniou's defense of orthodox Marxism strengthens as he turns his attention to the practical uses of Marxist ideology to topics of international concern His conclusions clarify a complex topic and provide political economists sociologists and political scientists with a clear explanation of the theoretical and methodological contours of Marxist thought on capitalist imperialism

Imperialism Bill Warren, 2020-05-05 Ever since the First World War socialists have considered imperialism a calamity responsible for militarism economic stagnation and assaults on democracy in metropolitan countries an impediment to economic and cultural development in the Third World So widespread has this view become that it is shared in its essentials not only by Marxists but also by an entire school of liberal development economists Bill Warren breaks with this traditional outlook arguing that the theory of imperialism one of Marxism's most influential concepts is not only contradicted by the facts but has diluted and distorted Marxism itself In particular Warren disputes the claim that monopoly capitalism represents the ultimate stage of senile capitalism and sets out to refute the notion that imperialism is a regressive force impeding or distorting economic development in the Third World The book argues on the contrary that direct colonialism powerfully impelled social change in Asia and Africa laying the foundation for a vibrant indigenous capitalism Finally it takes issue with the conventional view that postwar economic performance in the Third World has been disastrous presenting a powerful empirical case that the gap between rich and poor countries is actually narrowing Closely argued clearly written original and iconoclastic *Imperialism* Pioneer of Capitalism is a compelling challenge to one of the chief tenets of contemporary socialist politics

Imperialism Vladimir Il'ich Lenin, 1999 *Marxist Thought on Imperialism* Charles A. Barone, 2016-07-08 First Published in 2015 Classic and contemporary Marxist theoretical works on imperialism are systematically summarized and critiqued in this useful survey Throughout the discussion attention is focused analyses of the causes of capitalist foreign economic expansion and the impact of that expansion The study begins with a discussion of Marx's political economy and the work of early theorists of imperialism Vladimir Lenin Rosa Luxemburg Nikolai Bukharin and Rudolf Hilferding This analysis then serves as the basis for a critical survey of the major strands of postwar Marxist thought including the work of Paul Baran and Paul Sweezy Harry Magdoff James O'Connor Andre Gunder Frank and more Following the survey are extended critiques of Baran and Sweezy's theory of monopoly capitalism and Arghiri Emmanuel's theory of unequal exchange

Imperialism: The Highest Stage of Capitalism V.I. Lenin, 2021-11 During the First World War Lenin found himself isolated but he was not afraid to fight against the stream He dedicated all his strength to educating and training the Bolsheviks on the basis of the genuine ideas of Marxism His masterpiece *Imperialism The Highest Stage of Capitalism* is an immortal monument to his work in the vital field of theory No book has ever explained the phenomena of modern capitalism better Indeed all of Lenin's predictions

concerning the concentration of capital the dominance of the banks and finance capital the growing antagonism between nation states and the inevitability of war arising out of the contradictions of imperialism have been shown to be true by the entire history of the last 100 years Using the empirical evidence and statistics at his disposal Lenin explains that in the stage of imperialist monopoly capitalism the entire economy is under the domination of the banks and finance capital Today over 100 years after it was first published this domination is 100 times greater Lenin s text therefore stands as required reading for revolutionaries *Imperialism* Sotirios F Drokalos,2023-06-05 According to Karl Marx and Friedrich Engels the modern Western civilization was superior to the others and its dominance even if violent marked a positive historical evolution The two founders of revolutionary Marxism believed that Western colonialism was a progressive phenomenon from a historical point of view because it determined the establishment of capitalism modern industry and urban culture namely the necessary preconditions for the future rise of Communism in Marxist thought This essay explains the essential opinions of Marx and Engels regarding Western colonialism and imperialism issues by presenting and analyzing related texts existing in the books articles and letters of the two German thinkers And after all the modern bourgeois with civilization industry order and at least relative enlightenment following him is preferable to the feudal lord or to the marauding robber with the barbarian state of society to which they belong Friedrich Engels 1848 Since the commencement of the Titanic American strife the working men of Europe felt instinctive that the star spangled banner carried the destiny of their class The contest for the territories which opened the dire epopee was it not to decide whether the virgin soil of immense tracts should be wedded to the labor of the emigrant or prostituted by the tramp of the slave driver Karl Marx 1864 The bourgeoisie draws all even the most barbarian nations into civilization forces the barbarians intensely obstinate hatred of foreigners to capitulate it has rescued a considerable part of the population from the idiocy of rural life the bourgeoisie has made barbarian and semi barbarian countries dependent on the civilized ones nations of peasants on nations of bourgeois the East on the West Karl Marx and Friedrich Engels Communist Manifesto 1848 Offer With every purchase get Sotirios F Drokalos essay The fundamental errors of Marxism Why communism is a flawed and destructive ideology absolutely for FREE *Rethinking Imperialism* J. Milios,D. Sotiropoulos,2009-10-09 This book aims at presenting and assessing imperialism as a theoretical concept It aims to provide a comprehensive evaluation focusing specifically on the tension between Marx s theoretical system of the Critique of Political Economy and the theories of capitalist expansion and domination **Imperialism: The Highest Stage of Capitalism** Vladimir Lenin,2010-08-26 Vladimir Lenin created this hugely significant Marxist text to explain fully the inevitable flaws and destructive power of Capitalism that it would lead unavoidably to imperialism monopolies and colonialism He prophesied that those third world countries used merely as capitalist labour would have no choice but to join the Communist revolution in Russia GREAT IDEAS Throughout history some books have changed the world They have transformed the way we see ourselves and each other They have inspired debate dissent war and revolution They have

Farris, Alberto Toscano, Svenja Bromberg, 2021-11-17 The past decade has witnessed a resurgence of interest in Marxism both within and without the academy Marxian frameworks concepts and categories continue to be narratively relevant to the features and events of contemporary capitalism Most crucially an attention to shifting cultural conditions has lead contemporary researchers to re confront some classical and essential Marxist concepts as well as elaborating new critical frameworks for the analysis of capitalism today The SAGE Handbook of Marxism showcases this cutting edge of today s Marxism It advances the debate with essays that rigorously map and renew the concepts that have provided the groundwork and main currents for Marxist theory and showcases interventions that set the agenda for Marxist research in the 21st century A rigorous and challenging collection of scholarship this book contains a stunning range of contributions from contemporary academics writers and theorists from around the world and across disciplines invaluable to scholars and graduate students alike Part 1 Reworking the critique of political economy Part 2 Forms of domination subjects of struggle Part 3 Political perspectives Part 4 Philosophical dimensions Part 5 Land and existence Part 6 Domains Part 7 Inquiries and debates *Marxism and Imperialism* Victor Gordon Kiernan, 1974-01-01 **Imperialism and World Economy** Nikolai Bukharin, 1929 **Discovering Imperialism** Richard B. Day, Daniel Gaido, 2011-11-25 This volume assembles the main documents of the international debate on imperialism that took place in the Second International during the period 1898 1916 It assesses the contributions of the individual participants placing them in the context of contemporary political debates *Imperialism and Its Contradictions* Victor Gordon Kiernan, 1995 V G Kiernan is recognised as one of the most remarkable historians of the 20th Sensitive to the tragic and ironic character of human history he addresses the origins consequences and legacies of modern imperialism and colonialism Marxism, China, and Development A. James Gregor, 2017-07-05 China has always been something of a mystery to Westerners For one generation Mao Zedong and his followers were simple agrarian reformers while for another they were the communist emperor and his blue ants In the 1970s some of the finest Sinologists believed there was much the United States could learn from Mao s Great Proletarian Cultural Revolution with regard to bureaucracy criminal justice health care and mass education By the 1980s those same theorists asserted that Maoism was nothing more than a feudal fascism and had absolutely nothing positive to teach Marxism China and Development provides a plausible explanation of these developments that have had such a powerful effect on the people of China for the past half century The author describes and explains the strange collection of beliefs that made up the Marxism of Mao Zedong He seeks to understand why the communist leadership of China like that of the USSR tried to spur economic growth by abandoning the market modalities common to developed economies A James Gregor s conceptual framework is both original and makes more

comprehensible the history of Marxism and the history of China Among the major topics he covers are imperialism political democracy economics and alternatives to Maoism and Marxism for China While it is unlikely that our understanding of so complex a series of events as modern Chinese history will soon become less controversial Marxism China and Development's clear concise explanations will clarify some perplexing areas and make the new turns in Chinese political economy more understandable This is a monumental effort at theory construction that will be of interest to political scientists economists sociologists and Sinologists

Imperialism and Global Political Economy Alex Callinicos, 2009-07-27 In *Imperialism and Global Political Economy* Alex Callinicos intervenes in one of the main political and intellectual debates of the day The global policies of the United States in the past decade have encouraged the widespread belief that we live in a new era of imperialism But is this belief true and what does imperialism mean Callinicos explores these questions in this wide ranging book In the first part he critically assesses the classical theories of imperialism developed in the era of the First World War by Marxists such as Lenin Luxemburg and Bukharin and by the Liberal economist J A Hobson He then outlines a theory of the relationship between capitalism as an economic system and the international state system carving out a distinctive position compared to other contemporary theorists of empire and imperialism such as Antonio Negri David Harvey Giovanni Arrighi and Ellen Wood In the second half of *Imperialism and Global Political Economy* Callinicos traces the history of capitalist imperialism from the Dutch East India Company to the specific patterns of economic and geopolitical competition in the contemporary era of American decline and Chinese expansion Imperialism he concludes is far from dead
