Marxism And Imperialism

Victor Gordon Kiernan

Marxism And Imperialism:

Marxist Theories of Imperialism Anthony Brewer,1990 The last two hundred years have seen a massive increase in the size of the world economy and equally massive inequalities of wealth and power between different parts of the world They have also witnessed the rise to dominance of the capitalist mode of production Marxists from Marx himself through to present day thinkers have argued that these changes are profoundly interconnected This book offers a unique account of Marxist theories of Imperialism It has been fully updated and expanded to cover all the developments since its initial publication and will be essential reading for any student of Marxism **Marxism and Imperialism** Victor Gordon Kiernan,1975 Marxist Theories of Imperialism Tony Brewer,2002-09-11 The last two hundred years have seen a massive increase in the size of the world economy and equally massive inequalities of wealth and power between different parts of the world They have also witnessed the rise to dominance of the capitalist mode of production Marxists from Marx himself through to present day thinkers have argued that these changes are profoundly interconnected This book offers a unique account of Marxist theories of Imperialism It has been fully updated and expanded to cover all the developments since its initial publication and will be essential reading for any student of Marxism **Marxist Theories of Imperialism** Murray Noonan,2017-02-28 For Marxists imperialism is the highest stage of capitalism Critical analysis of imperialism has been a feature of Marxist throughout the twentieth century The conceptualising and theorising of imperialism by Marxists has evolved over time in response to developments in the global capitalist economy and in international politics Murray Noonan here provides the first complete analysis of Marxist theories of imperialism in over two decades Presenting three phases of imperialist theories he analyses and compares Classical Neo and Globalisation era Marxist theories of imperialism The book moves chronologically tracking the origins of imperialism theorised by J A Hobson at the beginning of the twentieth century up to the present day He critically identifies and engages with a new Globalisation era phase of Marxist imperialism theory Through a detailed scholarly analysis of the history and evolution of these theories Noonan offers vital new perspectives on imperialist theory and its relevance and application in the twenty first century **Marxist Thought on Imperialism** Charles A. Barone,1985 First Published in 2015 Routledge is an imprint of Taylor Francis an Informa company *Marxism and the New Imperialism* Alex Callinicos,1994 *Marxist Perspectives on Imperialism* Chronis Polychroniou,1991-04-30 By distinguishing between classical Marxist and neo Marxist approaches to imperialism this volume challenges generally accepted views on the relationship between these two branches of Marxist thought reaffirming the principles and tools of fundamental Marxism as essential for understanding and explaining the internationalization of capitalist economic life Together original source materials and Polychroniou s highly readable analysis present a commentary both outlining and clarifying essential ideas contained in Marxist writings from the late 19th century to the present Marxist Perspectives on Imperialism also identifies current political and economic issues to which authentic Marxist concepts can be applied A review

of Marx's views on capitalist production relations and expansion opens the discussion and defines criteria for evaluating analyses which follow. Studies by classical Marxists such as Hilferding, Bukharin and Lenin are then contrasted to the neo-Marxist writings of Baran, Frank and Wallerstein among others. Polychroniou's defense of orthodox Marxism strengthens as he turns his attention to the practical uses of Marxist ideology to topics of international concern. His conclusions clarify a complex topic and provide political economists, sociologists and political scientists with a clear explanation of the theoretical and methodological contours of Marxist thought on capitalist imperialism.

Imperialism Vladimir Lenin, 1933 The pamphlet here presented to the reader was written in the spring of 1916 in Zurich. In the conditions in which I was obliged to work there I naturally suffered somewhat from a shortage of French and English literature and from a serious dearth of Russian literature. However I made use of the principal English work on imperialism, the book by J. A. Hobson, with all the care that in my opinion work deserves. This pamphlet was written with an eye to the tsarist censorship. Hence I was not only forced to confine myself strictly to an exclusively theoretical, specifically economic analysis of facts, but to formulate the few necessary observations on politics with extreme caution, by hints in an allegorical language in that accursed Aesopian language to which tsarism compelled all revolutionaries to have recourse whenever they took up the pen to write a legal work. It is painful in these days of liberty to re-read the passages of the pamphlet which have been distorted, cramped, compressed in an iron vice on account of the censor. That the period of imperialism is the eve of the socialist revolution, that social chauvinism, socialism in words, chauvinism in deeds, is the utter betrayal of socialism, complete desertion to the side of the bourgeoisie, that this split in the working class movement is bound up with the objective conditions of imperialism etc. on these matters I had to speak in a slavish tongue and I must refer the reader who is interested in the subject to the articles I wrote abroad in 1914-17, a new edition of which is soon to appear. In order to show the reader in a guise acceptable to the censors how shamelessly untruthful the capitalists and the social chauvinists who have deserted to their side and whom Kautsky opposes so inconsistently are on the question of annexations, in order to show how shamelessly they screen the annexations of their capitalists, I was forced to quote as an example Japan. The careful reader will easily substitute Russia for Japan and Finland, Poland, Courland, the Ukraine, Khiva, Bokhara, Estonia or other regions peopled by non-Great Russians for Korea. I trust that this pamphlet will help the reader to understand the fundamental economic question, that of the economic essence of imperialism, for unless this is studied it will be impossible to understand and appraise modern war and modern politics.

Rethinking Imperialism J. Milios, D. Sotiropoulos, 2009-10-09 This book aims at presenting and assessing imperialism as a theoretical concept. It aims to provide a comprehensive evaluation focusing specifically on the tension between Marx's theoretical system of the Critique of Political Economy and the theories of capitalist expansion and domination.

Imperialism and World Economy Nikolai Bukharin, 1929

Discovering Imperialism Richard B. Day, Daniel Gaido, 2011-11-25 This volume assembles the main documents of the international debate on imperialism that took place in

the Second International during the period 1898-1916. It assesses the contributions of the individual participants placing them in the context of contemporary political debates. Imperialism Bill Warren, 2020-05-05. Ever since the First World War socialists have considered imperialism a calamity responsible for militarism, economic stagnation and assaults on democracy in metropolitan countries, an impediment to economic and cultural development in the Third World. So widespread has this view become that it is shared in its essentials not only by Marxists but also by an entire school of liberal development economists. Bill Warren breaks with this traditional outlook, arguing that the theory of imperialism, one of Marxism's most influential concepts, is not only contradicted by the facts but has diluted and distorted Marxism itself. In particular, Warren disputes the claim that monopoly capitalism represents the ultimate stage of senile capitalism and sets out to refute the notion that imperialism is a regressive force impeding or distorting economic development in the Third World. The book argues on the contrary that direct colonialism powerfully impelled social change in Asia and Africa, laying the foundation for a vibrant indigenous capitalism. Finally, it takes issue with the conventional view that postwar economic performance in the Third World has been disastrous, presenting a powerful empirical case that the gap between rich and poor countries is actually narrowing. Closely argued, clearly written, original and iconoclastic, Imperialism: Pioneer of Capitalism is a compelling challenge to one of the chief tenets of contemporary socialist politics. Imperialism: The Highest Stage of Capitalism Vladimir Lenin, 2010-08-26. Vladimir Lenin created this hugely significant Marxist text to explain fully the inevitable flaws and destructive power of Capitalism that it would lead unavoidably to imperialism, monopolies and colonialism. He prophesied that those third world countries used merely as capitalist labour would have no choice but to join the Communist revolution in Russia. GREAT IDEAS. Throughout history, some books have changed the world. They have transformed the way we see ourselves and each other. They have inspired, debated, dissented, warred and revolutionized. They have enlightened, outraged, provoked and comforted. They have enriched lives and destroyed them. Now Penguin brings you the works of the great thinkers, pioneers, radicals and visionaries whose ideas shook civilization and helped make us who we are. Imperialism Vladimir Il'ich Lenin, 1999. **Imperialism and the Revolution** Enver Hoxha, 1979. Imperialism Vladimir Il'ich Lenin, 1917. *Imperialism and Unequal Development* Samir Amin, 1977. *Marxism Today* Chronis Polychroniou, Harry R. Targ, 1996-03-20. Early in the 20th century, revolutionary socialism was not only gaining momentum but appeared destined to conquer the world. By mid-century, the red flag flew over capitals in Eastern Europe, Russia, China, Southeast Asia, Africa and Central America. By the 1970s, over one third of the world's population lived under socialist regimes. All that has changed. With the 20th century drawing to a close, the political map of the globe looks very different. Most socialist states have collapsed, revolutionary movements have been abandoned, and the United States stands as the world's lone superpower. This unique volume examines these changes, the defeat of Marxism, and suggests that the present historical juncture is but a temporary setback in the march of the working class. The authors propose that Marxism remains the most useful approach in

understanding and explaining contemporary capitalism and its decay as well as the only path toward the liberation of society from class exploitation **Modern Imperialism, Monopoly Finance Capital, and Marx's Law of Value** Samir Amin, 2018-02-22 The law of worldwide value Further comments on Marx's Capital and historical capitalism Essays on Marx's value theory Index **Marxism and the National and Colonial Question** Joseph Stalin, 1953
