Marxism And Individualism:

Marxism and Individualism D. F. B. Tucker, 1980 **Marx and the New Individual (RLE Marxism)** Ian Forbes, 2015-04-17 In what is the first sustained analysis of Marx's attitude to the puzzle of the individual in history and society this book first published in 1990 challenges received views on the importance of class analysis and the place of a theory of human nature in Marx's thought. The radical possibilities of individual agency in society are explored within a Marxian framework and without recourse to the current fashions of methodological individualism or rational choice theory. In the context of the apparent antagonism between collectivist and individualist approaches to political explanation and social change the author establishes that a New Individual of singular importance for the understanding of contemporary society can be identified. For the first time the *Grundrisse* provides the basis of a major analysis of Marx's thoughts on the individual. By illustrating the nature of the connections between collective existence and individual experience Ian Forbes makes an important contribution towards the revitalization of socialist thought. He also develops a valuable counterpoint to rational actor models of politics and liberal theories of justice alike by establishing the importance of a political theory that values human agency as much as it understands social and historical processes *Marxism and Individualism* D. Marxism and Democracy Joseph V. Femia, 1993-06-24 The collapse of the Soviet Union would seem to sound the death knell for Marxism as a blueprint for social change. Why has this doctrine the repository of so many hopes and dreams failed in its grand ambition to liberate the human race from poverty and oppression. Through a critical and systematic analysis of what Marx and his disciples had to say about democracy Joseph Femia sheds light on the reasons for this failure

Karl Marx's Social and Political Thought Bob Jessop, Russell Wheatley, 1999 **History and Human Existence—From Marx to Merleau-Ponty** James Miller, 2023-04-28 From the Introduction The present essay provides an introduction to the treatment of human existence and individuality in Marxist thought. The work will be primarily concerned with two related topics the evaluation by Marxists of individual emancipation and their assessment of subjective factors in social theory. By taking up these topics within a systematic and historical framework I hope to generate some fresh light on several familiar issues. First I pursue a reading of Marx focused on his treatment of subjectivity individuation and related methodological and practical matters. Second I apply this interpretation to analyzing the dispute between Marxist orthodoxy and heterodoxy over such matters as class consciousness and the philosophy of materialism. Finally I employ this

historical context to clarify the significance of existential Marxism Maurice Merleau Ponty's and Jean Paul Sartre's contribution to Marxist thought. This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach and impact. From the Introduction: The present essay provides an introduction to the treatment of human existence and individuality in Marxist thought. The work will be primarily concerned with two related topics: the evaluation by Marxists of individual emancipation. Individualism and Community Jeffery H. Barker, 1986-04-22

Postmodern Marx Terrell Carver, 2010-11-01 Marx has changed. What we read, how we read and why we read Marx have all altered dramatically. This book explores these multiple new Marxes. In ten thematic chapters, Carver examines unfamiliar texts and new aspects of Marx's writings, ranging from vampires in Capital to his vision of communism in recently re-edited manuscripts. Marx's career in democratic politics is re-evaluated and his relationship to the gender politics of his day and ours is explored. Most importantly, Carver re-assesses the strengths and weaknesses of Marx as a theorist and critic of capitalist society. This book will appeal to anyone who wants a fresh perspective on Marx, arising from a reconciliation of historical scholarship with the de-centredness of postmodern writing. Foundations of Analytical Marxism John E. Roemer, 1994 **Individuality and the Social Organism** Philip Breed Dematteis, 1972 **Marxism and Philosophy in the Twentieth Century** Richard Hudelson, 1990-09-25 Useful to both students and scholars of the social sciences and humanities, this book provides a guide to fundamental issues in twentieth-century Marxist thought. Outlining the two distinct and incompatible critiques of vulgar Marxism, Marxist Leninism and humanistic Marxism that gained prominence in the aftermath of World War I, this book presents both an historical overview of these two dominant traditions and a critical analysis of their philosophical roots. Challenging the viewpoints of Marxist thought which have prevailed in this century, Richard Hudelson argues that the supposed philosophical breakthroughs claimed by both Marxist Leninism and humanistic Marxism rest upon flawed reasoning. With a careful critique of these prevailing views, he presents his own view which, while receptive to the social scientific work of current analytical Marxism, de-emphasizes the importance of philosophy in the study of Marxism. Hudelson contends that developments in contemporary philosophy of science will allow for an appreciation of the scientific Marxism of the Second International without recourse to the philosophical theories of humanistic Marxism and Marxist Leninism. Also using some of the more recent developments in the philosophy of science, this book makes possible a fruitful exchange between analytical Marxism and Marxist Leninism. Divided into three parts, the book first presents a historical introduction which identifies positions and arguments of historical significance. This is followed by an analytical look at various arguments to determine where the strongest position lies. Finally, the author offers some concluding remarks on the significance of his

analysis for current directions within Marxist philosophy *Marx and Hegel on the Dialectic of the Individual and the Social* Sevgi Doğan,2018 Marx and Hegel on the Dialectic of the Individual and the Social is a detailed investigation of the major works of Hegel and the young Marx with exploring how the concept of the individual is positioned within their ontologies and how this positioning is reflected in their related political views Instead of contrasting a Marxist understanding of the individual with that of a liberal thinker Sevgi Dogan chooses to take Hegel s theory of the state as representative of the modern state which Marx criticizes The decision to be in opposition to Hegel rather than some other liberal thinkers is important for two reasons First since Marx has developed many of his early ideas in critical interaction with Hegel this comparative approach enables the book to present a more thorough and well grounded exposition of Marx s arguments Second since Hegel himself has also criticized the concepts of liberal ideology in many respects differentiating Marx s arguments from those of Hegel s enables the book to underline how and why Hegel s critique of liberal ideology falls short of actually empowering individuals in the way that Marx s account does w and why Hegel s critique of liberal ideology falls short of actually empowering individuals in the way that Marx s account does w and why Hegel s critique of liberal ideology falls short of actually empowering individuals in the way that Marx s account does w and why Hegel s critique of liberal ideology falls short of actually empowering individuals in the way that Marx s account does Individualism, Collectivism, and Political Power Érvíñ László,2013-11-09 Recent Interpretations of Karl Marx's Social Theory Richard Ruey-Chyi Hwang,Ruiqi Huang,2006 This book seeks on the one hand to examine Habermas work on the reconstruction of historical materialism and Cohen s and Elster s analyses of the topic on the other to compare contrast and criticize their work They respond to the political and theoretical crises of contemporary Marxism Habermas response is to overcome economism and to stress normative structure and communication Cohen s reaction is to go back to the orthodoxy of Marxism with analytical philosophy and Elster reacts by re analyzing Marxian basic concepts with the analytical tools of the modern social sciences In short they all acknowledge the continual relevance of Marxism but also state that Marxism in general or historical materialism in particular needs revision in various ways Marxism and Scientism: an Essay in the Philosophy of Social Science John O'Neill,1962 **Translations on International Communist Developments** ,1966 **Marxism and the Modern State** David Wells,1981 **Residues of Justice** Wai Chee Dimock,2023-04-28 This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1996
