Marxism And Workers Self Management:

Marxism and Workers' Self-Management David Prychitko,1991-06-30 Prychitko offers a reinterpretation of Marx's vision of socialism by arguing that Marx's understanding of humankind led him to a utopian goal of decentralized socialism based on the total abolition of market exchange *Marxism and Workers' Self-Management* David Prychitko,1991-06-30 Prychitko offers a reinterpretation of Marx's vision of socialism by arguing that Marx's understanding of humankind led him to a utopian goal of decentralized socialism based on the total abolition of market exchange **Anton Pannekoek and the Socialism of Workers' Self Emancipation, 1873-1960** John P. Gerber,1989 *Marxism and the Crisis of Development in Prewar Japan* Germaine A. Houston,2014-07-14 This study is a comprehensive analysis of the Marxist debate in Japan over how capitalism developed in that country Originally published in 1987 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **Worker's Self-management and Organizational Power in Yugoslavia** Josip Obradović,William N. Dunn,1978 Collection of papers on the organisational effect and power of workers self management programmes in Yugoslavia discusses the impact of workers participation on the decision making structure and institutional framework of enterprises on employees attitudes strikes and efficiency etc and the socio political environment state intervention and political participation Graphs references and statistical tables *A New Model of Socialism* Bruno Jossa,2018-04-27 Economic democracy is essential for creating a truly democratic political sphere This engaging book uses Marxist theory to hypothesise that capitalism is not a democratic system and that a modern socialist system of producer cooperatives and democratically managed enterprises is urgently needed *A New Model of Socialism* focuses on the current crisis of the political Left a result of the collapse of the Soviet model of society and the decline of statism and kingship Bruno Jossa expands on existing theories to explore Marx's notions on economic democracy in a modern setting He advocates a move away from the centralised planning form of economic socialism towards a self management system for firms that does not prioritise the interests of one class over another in order to achieve greater economic democracy It is argued that the establishment of such a system of democratic firms is the precondition for reducing intervention in the economy thus enabling the State to perform its ultimate function of serving the public interest This timely book is ideal for advanced scholars of Marxist radical and heterodox economic theory as well as academics with an interest in the rise of socialism in our modern world Indeed it will also be of value to all those seeking a viable and practical alternative to existing capitalist and socialist thinking *Professionals, Power and Solidarity in Poland* Michael D. Kennedy,1991-02-14 The Solidarity movement of the early 1980s not only triggered a transformation in Polish

society it forced a fundamental reconsideration of the nature of socialism throughout the Soviet Union and Eastern Europe Seen as one of the most important social movements of the century this pathbreaking study analyses Solidarity s significance in Soviet societies Participation and Self-management Eugen Pusić,1972 *Workers' Self-management and Participation in Practice: Case studies from Bolivia, Malta, India, Sri Lanka, Tanzania, Zambia* Aleš Vahčić,Vesna Smole-Grobovšek,1986 Case studies of workers participation in public enterprises in mixed economy developing countries Bolivia India Malta Sri Lanka Tanzania Zambia covers mining electrical machinery industry dockers port workers banking textile industry and detergent industry discusses labour relations the role of trade unions employees attitudes job satisfaction labour productivity wage rates etc Graphs references *Participation and Self-management* ,1972 **Workers Self-Management** Ian Clegg,1971 **Department of State News Letter** United States. Department of State,1977 **Workers' Self-management in the United States** Christopher Eaton Gunn,1980 Newsletter United States. Department of State,1977 **Self-management** Josip Broz Tito,1983 **Marxism, Communism and Western Society** Claus Dieter Kernig,1973 *From Marx to Mises* David Ramsay Steele,1992 In 1920 Ludwig von Mises proclaimed that all attempts to establish socialism would come to grief for reasons of informational efficiency At first socialists and economists took Mises s argument seriously but by the end of the Second World War a consensus prevailed that Mises had been discredited More recently that consensus has been rapidly reversed it is now widely agreed that Mises was right Yet the momentous implications of the Mises argument for economics politics culture and philosophy remain largely unexplored From Marx to Mises is a clear penetrating exposition of the economic calculation debate and a scrutiny of some of the broader issues it raises **Marxism, Communism, and Western Society: Socialist realism** Claus Dieter Kernig,1973 *Newsletter* ,1977 **ACEN Seminars in Latin America** ACEN (Organization).,1964
