Marxism In China:

Li Da And Marxist Philosophy In China Nick Knight, 2018-02-23 Scholars of Marxism will be in Nick Knight's debt for this pioneering study of one of the most important figures in the development of Marxism in China. Knight makes an important case about the relationship of Chinese Marxist thought to Marxist thought in general with particular attention to Soviet Marxism. The book makes available to readers not just important texts of Chinese Marxism but a whole series of texts of Marxism that were crucial to the political discourse of the thirties. Knight displays impressive erudition and command of these texts. In spite of the strong case he makes for his thesis, he retains throughout an admirable critical self-awareness that enhances the plausibility of his argument. Arif Dirlik, Duke University

Marxism and the Making of China J. Gregor, 2014-02-19 An assessment of the influence of the Marxism of Karl Marx and Friedrich Engels on revolutionary developments in China. How to Localize Marxism in China Guo Jianning, 2022-12-30 This book explores frontier issues concerning the localization of Marxism in China by examining historical processes, cultural implications, and contemporary perspectives on this process of indigenization. Emerging in the 1840s in Germany, Marxism has evolved from a German, European, and Western idea into a Chinese, Asian, and Eastern one. This title seeks to answer the question of how Marxism has been adapted to the Chinese context and how it migrated to the regions. The first three chapters chart the history of the dissemination of Marxism to adapt to Chinese conditions across three periods: revolutionary times before 1949, the period of socialist construction after 1949, and the reform and opening up since 1978. The subsequent two chapters analyze the experience of the development of socialism with Chinese characteristics, featuring synergistic integration with traditional Chinese culture and the combining of the basic principles of Marxism and China's real-life situation. The final chapter advances suggestions on how to further promote the localization of Marxism and how to develop contemporary Chinese Marxism faced with new historical conditions. The book will appeal to scholars, students, and general readers interested in contemporary Marxism, Marxism in China, and contemporary Chinese history, politics, and society

Marxism in the Chinese Revolution Arif Dirlik, 2005 Representing a lifetime of research and writing by noted historian Arif Dirlik, the essays collected here explore developments in Chinese socialism and the issues that have occupied historians of the Chinese revolution for the past three decades. Dirlik engages Chinese socialism critically but with sympathy for the aspirations of revolutionaries who found the hope of social, political, and cultural liberation in Communist alternatives to capitalism and the intellectual inspiration to realize their hopes in Marxist theory. The book's historical approach to Marxist theory emphasizes its global relevance while avoiding dogmatic and Eurocentric limitations. These incisive essays range from the origins of socialism in the early twentieth century through the victory of the Communists in

mid century to the virtual abandonment by century s end of any pretense to a socialist revolutionary project by the leadership of the Chinese Communist Party All that remains of the revolution in historical hindsight are memories of its failures and misdeeds but Dirlik retains a critical perspective not just toward the past but also toward the ideological hegemonies of the present Taken together his writings reaffirm the centrality of the revolution to modern Chinese history They also illuminate the fundamental importance of Marxism to grasping the flaws of capitalist modernity despite the fact that in the end the socialist response was unable to transcend the social and ideological horizons of capitalism

Marxist Philosophy in China : From Qu Qiubai to Mao Zedong, 1923-1945 Nick Knight,2006-01-01 This book recounts the history of Marxist philosophy in China between 1923 and 1945 through the writings and activities of four philosophers Qu Qiubai Ai Siqi Li Da and Mao Zedong Two of these philosophers Qu and Mao were also political activists and leaders but their contribution to this history is as important if not more so than the contribution of Ai and Li who were predominantly philosophers and scholars The inclusion of Qu and Mao underlines the intimate connection between philosophy and politics in the revolutionary movement in China It is not possible to speak credibly of Marxist philosophy in China without considering the political context within which its introduction elaboration and dissemination proceeded Indeed each of the philosophers considered in this book repudiated the notion that the study of philosophy was a scholastic intellectual exercise devoid of political significance Each of these philosophers regarded himself as a revolutionary and considered philosophy to be useful precisely because it could facilitate a comprehension of the world and so accelerate efforts to change it By the same token each of these philosophers took philosophy seriously each bent his mind to the daunting task of mastering the arcane and labyrinthian philosophical system of dialectical materialism Philosophy might well be political they believed but this was no excuse for philosophical dilettantism

China And The Crisis Of Marxism-leninism Franz Michael,2019-04-11 Is the failure of communism in China inevitable So argue the authors of China and the Crisis of Marxism Leninism who believe that Mao s programs were utopian fantasies that greatly aggravated the incurable flaws of the Stalinist order now eroding worldwide At the time of the death of Mao Zedong in 1976 China was in a state of disarray and the

Marxism and the Chinese Experience Arif Dirlik,Maurice J. Meisner,1989 These essays consider the implications for Chinese socialism of the repudiation of the Cultural Revolution and the legacy of Mao Zedong as well as the meaning of the new definition and direction Mao s successors have given socialism The themes have been selected for conceptual coherence within a socialist problematic of social change Representing anthropology art history economics history literature and politics various inquiries point in a twofold direction the meaning of socialism for China and the meaning of Chinese Socialism for socialism as a global phenomenon meaning not in some abstract sense but rather as it is constituted in the process of political ideological activity which articulates and defines social relationships within China as well as China s relationship to the world

The China Path and its Original Meaning Han Qingxiang,2023-12-19 This book examines the fundamental issues of Marxism in the 21st century and explores

its contributions through the explanatory framework of the unity of continuity and stages spatial and temporal analysis and the dialectical relationship of universality and particularity of Marxist historical development Marxism in the 21st century is a concept closely related to the historical changes of capitalism and the historical shift of the center of the socialist movement Marxism in the 21st century should be developed on the basis of the continuation of the fundamental position value orientation ideals and beliefs basic principles and methodological principles of Marxism This book explores the logic of the development of modernization in contemporary China and the world the communication and interaction between contemporary China and the world and the coexistence of socialism and capitalism It also examines the relationship between the adaptation of Marxism to the Chinese context Marxism in contemporary China and Marxism in the 21st century The book also discusses Xi Jinping Thought on Socialism with Chinese Characteristics for a New Era which provides a scientific theoretical system for interpreting the contemporary world and could become the core theoretical form of Marxism in the 21st century The book will be essential reading for students and scholars of Marxism Chinese studies and modernization theory

Marxism, China, and Development A. James Gregor, 2017-07-05 China has always been something of a mystery to Westerners For one generation Mao Zedong and his followers were simple agrarian reformers while for another they were the communist emperor and his blue ants In the 1970s some of the finest Sinologists believed there was much the United States could learn from Mao's Great Proletarian Cultural Revolution with regard to bureaucracy criminal justice health care and mass education By the 1980s those same theorists asserted that Maoism was nothing more than a feudal fascism and had absolutely nothing positive to teach Marxism China and Development provides a plausible explanation of these developments that have had such a powerful effect on the people of China for the past half century The author describes and explains the strange collection of beliefs that made up the Marxism of Mao Zedong He seeks to understand why the communist leadership of China like that of the USSR tried to spur economic growth by abandoning the market modalities common to developed economies A James Gregor's conceptual framework is both original and makes more comprehensible the history of Marxism and the history of China Among the major topics he covers are imperialism political democracy economics and alternatives to Maoism and Marxism for China While it is unlikely that our understanding of so complex a series of events as modern Chinese history will soon become less controversial Marxism China and Development's clear concise explanations will clarify some perplexing areas and make the new turns in Chinese political economy more understandable This is a monumental effort at theory construction that will be of interest to political scientists economists sociologists and Sinologists

A Place In The Sun A. James Gregor, 2019-04-16 China has endured a century of turmoil beginning with the anti-dynastic revolution associated with Sun Yat Sen through the military and tutelary rule of Chiang Kai shek the revolutionary regime of Mao Zedong and the radical reforms of Deng Xiaoping China has had little respite Historians and social scientists have attempted to understand some of this history as being the consequence of the impact of

European ideologies including Marxism Marxism Leninism and Fascism Rarely instructive or persuasive the discussions regarding this issue have more often than not led to puzzlement rather than enlightenment In *A Place in the Sun* A James Gregor offers an interpretation of the role of European Marxist and Fascist ideas on China's revolutionaries that is both original and based on a lifetime of scholarship devoted to revolutionary ideologies Gregor renders a detailed analysis of their respective influence on major protagonists In the exposition Gregor reveals an unsuspected and complex set of relationships between the Chinese revolution and essentially European ideologies His discussion concludes with a number of estimations that suggest implications for the future of modern China and its relationship with the advanced industrial democracies How post Dengist China the world's most populous nation is to be understood remains uncertain to most comparativists and historians Gregor provides one well supported alternative and he is carefully attentive to the implications of this alternative

Socialism with Chinese Characteristics Roland Boer, 2021-04-27 This book covers the whole system of Socialism with Chinese Characteristics dealing with Deng Xiaoping's theory the socialist market economy a moderately well off Xiaokang society China's practice and theory of socialist democracy human rights and Xi Jinping's Marxism In short the resolute focus is the Reform and Opening Up Socialism with Chinese Characteristics is one of the most important global realities today However the concept and its practice remain largely misunderstood outside China This book sets to redress such a lack of knowledge by making available to non Chinese speakers the sophisticated debates and conclusions in China concerning socialism with Chinese Characteristics It presents this material in a way that is both accessible and thorough

Chinese Marxism Adrian Chan, 2003-06-29 This groundbreaking study of Chinese Marxism examines the ideology and praxis of Marxism as it has developed in China from its earliest beginnings to current debates This is the first systematic full length analysis of the development and nature of Marxist ideology in China Adrian Chan challenges established scholarship in both the West and China which continues to be overshadowed by Cold War dogma and party orthodoxy respectively It has long been argued that Chinese Marxism was merely an offshoot of Soviet thought blended with ill defined traditional Chinese ideas Using previously neglected Chinese sources including newspapers political journals and communist party documents Chan refutes this Showing how the first Chinese revolutionaries were directly influenced by the writings of Marx Chinese Marxism argues that Bolshevism was a secondary influence on Chinese communist thought Mao himself drew upon Marxian themes in the creation of party orthodoxy In doing so he signalled his differences from Lenin and Stalin on important issues of theory and practice However not all party leaders accepted this Marxian praxis This has led to continuous conflict between proponents of Maoist Marxism and Soviet type scientific Marxism Leninism Chinese Marxism presents detailed studies of the Great Leap Forward and the Cultural Revolution to illustrate the consequences of this ongoing ideological conflict and brings the story up to the present day with an analysis of the current Thermidorean Reaction and the controversial embracing of Confucianism

China and Global Capitalism L.

Communism and China Benjamin I. Schwartz,2013-10-01 **The Origins of Chinese Communism** Arif Dirlik,1989

Based on a wealth of archival material released after Mao's death this book offers a revisionist account of the introduction and triumph of Marxism in China Dirlik shows that in 1919 at the outset of the May Fourth Movement anarchism was the predominant ideology among revolutionaries and intellectuals and Marxism was virtually unknown Three years later however the Communist Party of China had emerged as the unchallenged leader of the Left Dirlik disputes long held beliefs about the domestic origins of Chinese Communism to argue that Communist thought and organization were brought into radical circles by the Comintern Though Chinese radicals would not have turned to Communism unassisted he concludes Marxist ideology took hold easily when introduced from the outside This book will prove indispensable to scholars of Chinese history and politics Asian studies Marxism and comparative communism *Ai Ssu-ch'i's Contribution to the Development of Chinese*

Marxism Joshua A. Fogel,1987 Reminiscence literature in China has reserved a special place of prominence for Ai Ssu-ch'i not only because he was so admired by Mao but also because he devoted his life wholeheartedly to the Party Fogel traces this devotion via Ai's crucial role in spreading Marxist Leninist thought among Chinese intellectuals Marxism and Capitalism in the People's Republic of China Arif Dirlik,Peter Cheng,1989 SCOTT Copy 1 From the John Holmes Library Collection

The Mandate of Heaven Nigel Harris,2015-09-07 For radicals in Europe and North America the anti imperialist and Chinese revolutions continued the great task of 1789 1848 and 1870 the bourgeois revolution in Marx's terms and the creation of nations that would release the energies and unity of purpose to create new worlds of prosperity and freedom The nationalist focus led to an emphasis on autarkic development the nation it was said already possessed within its own boundaries all the requirements and resources to match the accomplishments of global civilization The overthrow of empire in the 1950s and 1960s of which the coming to power of the Chinese Communist party in 1949 was an important part seemed to augur a new era in world history one in which the majority of the world's population secured liberation There was perhaps a sense in which this was true but the reality for the majority was far removed from this giddy hope And in the case of the ordinary Chinese the newly liberated regime proved far more brutal and exacting than those that it had replaced which also attained high standards of brutality and injustice In China the great famine of 1958-62 was only the most spectacularly cruel and gratuitous product of that new order For the former inhabitants of the old empires national liberation turned out to be not liberation of all but the creation of a new national ruling class as often as not exploiting its position at home to make fortunes then smuggled abroad
