**Marx's Paris Writings** John Maguire,1972      **Marx's Paris Writings** John Maguire,1973      **Marx's Paris Writings** John M. Maguire,1972      **The Making of Marx's Critical Theory (RLE Marxism)** Allen Oakley,2015-05-08 Marx's written output was massive. Much of it remained unpublished in his own lifetime and there is still no complete edition of the extant works although most have been published in one form or another. This book first published in 1983 provides an analytical guide to the complex chronological and evolving substantive structure of Marx's main writings in critical theory. The format is concise and accessible with each phase of Marx's evolving critical theory of capitalist society being summarized in a diagram. An invaluable guide for students of Marx it will lead them through the maze of his works to a potentially deeper understanding of his thought. Allen Oakley believes that in order to fully comprehend Marx's critical theory it is essential to trace its complex evolution. Any serious study of Marx's critique of capitalism must begin with an appreciation of the bibliographical framework within which his evolving ideas were manifested. Oakley is opposed to approaches to the study of Marx's critique which take little account of its chronology; such approaches he believes are incomplete and potentially misleading with respect to the meaning and significance of the critique. The book includes bibliographical evidence about the unfinished state of Marx's critical project and its ever-changing scope and organization. It argues therefore that the methodological and substantive status of Capital must be interpreted cautiously for bibliographical evidence shows it to be an unfinished climax to an ambiguous critical theoretical project of uncertain dimensions. To read it as in any sense a final and definitive statement of Marx's critical theory is the author believes to be deluded.      **Marx's Paris Writings: an Analysis. With an Intro. by David McLellan. (1. Publ.) - (Dublin): Gill & Macmillan (1972). XXIV, 170 S. 8°** John Maguire,1972      Marx's Critique of Political Economy Volume One Allen Oakley,2013-11-05 Volume One analyses the intellectual sources and evolution of Marx's critique of political economy leading up to the writing of the main Capital manuscripts 1844-1860. The volume provides a clear illustration of the contents of the texts in a way that enables readers to understand the intellectual influences on Marx. Clarifies Marx's own view of what he was trying to achieve through his critique of political economy. The themes of value, income distribution and the law of motion of capitalism are traced to their origins.      *Marx's Paris writings: an analysis. With an introd. by D. McLellan*,1972      Threshold of a New World Lloyd S. Kramer,2019-05-15 Threshold of a New World examines two broad themes in modern European intellectual history: the importance of exile as a formative experience in the lives and thought of influential European writers and the role of July Monarchy Paris as a unique social context that contributed decisively to the development and diffusion of modern European thought.      *Man in the Paris and London Manuscripts of Marx* Alphonse Mani,1988      Marx's and Engels' Concepts of the Parties and Political Organizations of the Working Class Jukka Paastela,1985      *Adventures in Marxist Theory* Douglas Kellner,2025-08-20 Adventures in Marxist Theory provides an introduction and overview of Marxian theory to demonstrate its

**Classical Marxism, 1850-1895** Richard N. Hunt, 1984 Richard N Hunt has examined the entire body of writings by Marx and Engels including little known essays and letters to present a lucid chronological analysis of the development of their political ideas Volume 1 Marxism and Totalitarian Democracy 1818 1850 called gracefully written massively researched and generally magnificent Thomas Ferguson Slavic Review was widely acclaimed volume Professor Hunt covers the period 1850 1895 whose central political events were the FrancoPrussian War and the short lived Paris Commune He continues to document with meticulous scholarship his thesis that throughout their lives Marx and Engels were committed to classic democratic ideals and did not advocate minority revolution dictatorship by an elite or the establishment of a totalitarian regime In volume 1 Professor Hunt distilled from the Marx Engels corpus two general strategies for achieving communism He now finds two more one based on the study of conditions in Russia undertaken by the two men in the 1870s and another that developed after they observed the expansion of democratic institutions especially in England Although the twentieth century regards Marx and Engels as the apostles of violent revolution Professor Hunt finds that the

most truly radical element in their political thought was their vision of a postrevolutionary society that would transcend the division of labor becoming a society of occupational fluidity one without professional politicians bureaucrats or legislators

**Marcuse and Freedom (RLE Social Theory)** Peter Lind, 2020-07-26 This comprehensive study of Marcuse's thought concentrates on his theory of freedom arguing that it is this which supplies the key to all his writings This argument is substantiated by a detailed chronological examination of Marcuse's works The author shows the rigorous logic underlying Marcuse's thinking which is often obscured in Marcuse's own presentation and pays particular attention to the influence of Heidegger and of Marx's notion of human labour This sympathetic reconstruction of the subject attempts to rescue Marcuse from misunderstanding and superficial criticism and argues that Marcuse's most famous work *One Dimensional Man* is in fact an aberration from the mainstream of his work This book forms one of the most accessible and reliable treatments of Marcuse available
