Merchant Moscow:

Merchant Moscow James L. West, Iurii A. Petrov, 2014-07-14 With the collapse of the Soviet system the long neglected history of the early capitalists is being recovered and rewritten Once regarded as the losers in the Russian Revolution these merchants can now be seen as early pioneers in Russia's transformation to a free market economy This book is the first joint Russian American collaborative project on the history of Russian entrepreneurship Merchant Moscow puts a human face on early Russian capitalism It presents thematic groupings of historic photographs paired with commentaries by contemporary Russian and American historians The pictures provide a stunning wide ranging visual portrait of Imperial Russia's most influential entrepreneurial elite the Moscow merchantry while the accompanying articles interpret the photographs and place them in the larger cultural context of prerevolutionary Russia Here is a surprising new view of the bourgeoisie during the Silver Age revealed for the first time in this fascinating volume The fourteen contributing historians selected and ordered photographs that best illustrate their specialized knowledge of the period They have framed their topics in a variety of ways Some have chosen to pursue traditional topics such as collective biography institutional history or the history of business practices Others have approached the photographs in more experimental ways emphasizing the semiotics of dress discourses of identity or the history of daily life Together they offer fresh perspectives on the successes and failures of Russia's first experiment with entrepreneurial capitalism Originally published in 1998 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

The Merchants of Moscow 1580-1650 Paul Bushkovitch, 2008-12-18 Using evidence drawn from archives in Moscow Professor Bushkovitch challenges conventional analyses of trade and industry during this period The Merchants of Moscow 1580-1650 examines the formation of the merchant class in Russia before the reforms of Peter the Great focusing on the role of the Muscovite merchants in the establishment of foreign and domestic trade and commerce Bushkovitch places the merchants of Moscow within the context of Eastern Europe a region whose economic complexities and contradictions make it a more apt standard for comparison than the Western European nations against whom the merchants are usually measured By shifting his focus to Eastern Europe Bushkovitch is able to re-evaluate their position in the state and other branches of the Russian economy as well as their role in international commerce Rather than presenting them as debilitated by an absolutist state whose demands depleted their time and wealth Bushkovitch finds that the merchants of Moscow were a stable and prosperous group whose activities were central to the emerging Russian economy and whose relations with the state formed a contradictory pattern of dependence and independence
