Merchants Midwives Laboring Women:

Merchants, Midwives, and Laboring Women Diane C. Vecchio, 2006 Diane C Vecchio's unique study considers the work experiences of Italian immigrant women and their daughters in the previously unexamined regions of Milwaukee Wisconsin and Endicott New York during the turn of the twentieth century Using Italian and American sources and rich oral histories this study reveals that women in Italy had economic responsibilities that often included work experiences outside of the home including jobs as midwives and businesswomen Demonstrating the regional variation of Italian women's work as well as the skills they transplanted to America balances the image of inexperienced and low skilled labourers that dominates scholarship on Italian working women Vecchio's research on Endicott sheds light on the gendered nature of life in a company town governed by welfare paternalism while her research on Milwaukee emphasizes how Italian immigrant women turned to small business enterprise when local opportunities for wage earning were limited

Milwaukee's Italian Heritage Anthony M. Zignego, 2009-10-01 The shores of Lake Michigan might seem a far cry from the coastline of the Mediterranean even for a country famous for its opera singers Nevertheless enough Italians responded to the call and returned home to repeat it confidently to brothers brides and strangers to create a thriving community in Milwaukee Historians often emphasize Milwaukee's German heritage content to relegate the story of Italian migration to New York or Chicago but Anthony Zignego passionately explores the ways in which Italians shaped the Brew City and were shaped by it in turn From the Gardetto family to the enterprising women of the Third Ward to Festa Italiana Zignego presents a portrait of the immigrant experience with personal stories and interviews with ordinary immigrants and Milwaukeeans explaining the community's traditions and dispelling some of its myths Milwaukee's Italian Heritage highlights the struggles and triumphs that have always made immigration an opening clause and concluding question in the American story

Farms, Factories, and Families Anthony V. Riccio, 2014-05-08 Often treated as background figures throughout their history Italian women of the lower and working classes have always struggled and toiled alongside men and this did not change following emigration to America Through numerous oral history narratives Farms Factories and Families documents the rich history of Italian American working women in Connecticut As farming women they could keep up with any man As entrepreneurs they started successful businesses They joined men on production lines in Connecticut's factories and sweatshops and through the strength of the neighborhood networks they created they played a crucial role in union organizing Empowered as foreladies union officials and shop stewards they saved money for future generations of Italian American women to attend college and achieve dreams they themselves could never realize The book opens with the voices of elderly Italian American women who reconstruct daily life in Italy's southern regions at the turn of the twentieth century Raised to be caretakers and nurturers of families these women lived by the culturally claustrophobic dictates of a patriarchal society that offered them few choices The storytellers of Farms Factories and Families reveal the trajectories of immigrant women who arrived in Connecticut with more than

dowries in their steam trunks the ability to face adversity with quiet inner strength the stamina to work tirelessly from dawn to dusk the skill to manage the family economy and adherence to moral principles rooted in the southern Italian code of behavior Second and third generation Italian American women who attended college and achieved professional careers on the wings of their Italian born mothers and grandmothers have not forgotten their legacy and though Italian American immigrant women lived by a script they did not write Farms Factories and Families gives them the opportunity to tell their own stories in their own words Health in the City Tanya Hart,2015-05-01 Shortly after the dawn of the twentieth century the New York City Department of Health decided to address what it perceived as the racial nature of health It delivered heavily racialized care in different neighborhoods throughout the city syphilis treatment among African Americans tuberculosis for Italian Americans and so on It was a challenging and ambitious program dangerous for the providers and troublingly reductive for the patients Nevertheless poor and working class African American British West Indian and Southern Italian women all received some of the nation s best health care during this period Health in the City challenges traditional ideas of early twentieth century urban black health care by showing a program that was simultaneously racialized and cutting edge It reveals that even the most well meaning public health programs may inadvertently reinforce perceptions of inferiority that they were created to fix **The Practice of U.S. Women's History** S.
