Shanahan, 2024-01-25 This volume assesses the work of Meredith Monk Richard Foreman and Robert Wilson three artists who have revolutionized the craft of directing and the art of theatre in both related and unique ways Though their early artistic backgrounds differ ranging from architecture music and dance to writing they are similar in that none of them began their career as a director per se or received formal training as such They each assumed the director's role based on the demands of their complex artistic visions which combine art forms but resist synthesis finding expression in the differences and tensions between the forms The essays in this volume explore how these auteur directors combine text movement film sound and music installation and visual arts to achieve their visions employing multi perceptual modes to evoke full and rich theatrical experiences The Great North American Stage Directors series provides an authoritative account of the art of directing in North America by examining the work of twenty four major practitioners from the late 19th century to the present Each of the eight volumes examines three directors and offers an overview of their practices theoretical ideas and contributions to modern theatre The studies chart the life and work of each director placing his or her achievement in the context of other important theatre practitioners and broader social history Written by a team of leading experts the series presents the genealogy of directing in North America while simultaneously chronicling crucial trends and championing contemporary interpretation Meredith Monk (excerpts from "Facing North"), 1996 Interview with modern dancer and choreographer Meredith Monk

Theatre Profiles, 1988 *Rethinking Meredith Monk* Tracy Monaghan, 2020 Meredith Monk's decades of work embody an interdisciplinary art that exists at the intersection of sonic visual and kinesthetic artistic media To date scholars and critics of music and dance have only studied aspects of her work in isolation and have tended to omit the other critical aspects of Monk's compositional language For example music scholars omit analysis of movement in their analyses while dance scholars omit musical analyses This has led to inappropriate categorization of her work particularly into the vein of minimalism My project represents the most in depth study of all aspects of Monk's music to date by analyzing musical visual and stylistic facets of her work The project also considers Monk's work alongside social philosophies and will argue that Monk scrutinizes gender and embodied voice in order to challenge socially constructed gender norms **Meredith Monk**, 1969 **Women Artists in the United States** Paula L.
