I missed the rain
but the metaphorical hit
between the eyes
left me reeling
as I read the water smudged
calling card
of the wasting disease.

Metaphorically Speaking Mostly:

The Apocalypse of Isaiah Metaphorically Speaking Brian Doyle, 2000 The analysis of metaphors constitutes an ideal point of entry into the exegesis of Biblical Hebrew poetic texts because it forces the exegete to examine the said text from a variety of perspectives How can one discern the presence of metaphorical speech What are the various types of metaphorical speech available to and employed by the biblical poet How does the structure of a piece of Hebrew poetry carry its metaphorical dimensions How did the biblical poet make use of the various types of metaphor and to what end Can we ultimately gain access to the poet's meaning The present study endeavours to provide at least a partial answer to these questions In maintaining focus on the biblical text moreover the author hopes to anchor some of the abstractions of metaphorical theory with chosen examples taken from the so called Apocalypse of Isaiah The Hebrew prophets constitute fertile ground in their use of metaphorical language for speaking the unspeakable especially concerning the relationship between the people and God

Metaphorical Landscapes and the Theology of the Book of Job Johan de Joode, 2018-10-22 Metaphorical Landscapes and the Theology of the Book of Job demonstrates how spatial metaphors play a crucial role in the theology of the book of Job Themes as pivotal as trauma ill being retribution and divine character are conceptualized in terms of space its imagery is thus dependent on spatial configurations such as boundaries distance direction containment and contact Not only are spatial metaphors ubiquitous in the book of Job possibly the most frequent conceptual metaphors in the book they are essential to its theological reasoning Job's spatial metaphors form a metaphorical landscape in which God's character and his creation are challenged in unprecedented ways In the theophany God reacts to that landscape This book introduces a pragmatic synthesis of both conceptual metaphor theory and spatial semantics and it demonstrates their exegetical and hermeneutic potential

Privacy and Identity in a Networked Society Stefan Strauß, 2019-04-16 This book offers an analysis of privacy impacts resulting from and reinforced by technology and discusses fundamental risks and challenges of protecting privacy in the digital age Privacy is among the most endangered species in our networked society personal information is processed for various purposes beyond our control Ultimately this affects the natural interplay between privacy personal identity and identification This book investigates that interplay from a systemic socio technical perspective by combining research from the social and computer sciences It sheds light on the basic functions of privacy their relation to identity and how they alter with digital identification practices The analysis reveals a general privacy control dilemma of digital identification shaped by several interrelated socio political economic and technical factors Uncontrolled increases in the identification modalities inherent to digital technology reinforce this dilemma and benefit surveillance practices thereby complicating the detection of privacy risks and the creation of appropriate safeguards Easing this problem requires a novel approach to privacy impact assessment PIA and this book proposes an alternative PIA framework which at

its core comprises a basic typology of personally and technically identifiable information This approach contributes to the theoretical and practical understanding of privacy impacts and thus to the development of more effective protection standards This book will be of much interest to students and scholars of critical security studies surveillance studies computer and information science science and technology studies and politics Cognitive Sociolinguistics Gitte Kristiansen, René Dirven, 2008-11-06 A union of Cognitive Linguistics and Sociolinguistics was bound to happen Both proclaim a usage based approach to language and aim to analyse actual language use in objective ways Whereas Sociolinguistics is by nature on the outlook for language in its variety CL can no longer afford to ignore social variation in language as it manifests itself in the usage data Nor can it fail to adopt an empirical methodology that reflects variation as it actually occurs beyond the limited knowledge of the individual observer Conversely while CL can only benefit from a heightened sensitivity to social aspects the rich bottom up theoretical framework it has developed is likely to contribute to a much better understanding of the meaning of variationist phenomena The volume brings together fifteen chapters written by prominent scholars testifying of rich empirical and theoretizing research into the social aspects of language variation Taking a broad view on Cognitive Sociolinguistics the volume covers three main areas corpus based research on language variation cognitive cultural models and the ideologies of sociopolitical and socio economic systems *Tatler & Bystander*, 1917 **Metaphor in Legal Discourse** Inesa Šeškauskienė, 2022-02-22 This book explores different aspects of metaphoricity in legal discourse from court proceedings and written institutionalised texts to judges argumentation and in spoken records among others It brings together linguists and law professionals from six different countries to investigate metaphor as a conceptual phenomenon accessible through language and more specifically through actual linguistic contexts of use *Tatler*, 1915 **Annual Meeting of the Missouri State Horticultural Society** Missouri State Horticultural Society, 1897 **Darwin Considered Mainly as Ethical Thinker, Human Reformer and Pessimist** Alexander Hay Japp, 1901 *Annual Report of the Missouri State Board of Agriculture*, 1897 **Saint Louis Clinical Record**, 1880 **Cobbett's Cyclopedic Survey of Chamber Music** Walter Willson Cobbett, 1929 **The Popular Magazine**, 1904 **North-American Review and Miscellaneous Journal**, 1920 *The North American Review* James Russell Lowell, Charles Eliot Norton, Henry Adams, Allen Thorndike Rice, Lloyd Stephens Bryce, George Brinton McClellan Harvey, Joseph Hilton Smyth, Robert Dana, Robley Wilson, Vicente F.
