## Metaphysics Of Love:

**Metaphysics of Love and Sexes** Arthur Schopenhauer, & Al., 2025-10-22 What is love Ask him who lives what is life We are accustomed to see poets principally occupied with describing the love of the sexes This as a rule is the leading idea of every dramatic work be it tragic or comic romantic or classic Indian or European It in no less degree constitutes the greater part of both lyric and epic poetry    **The Metaphysics of Love** Frederick D. Wilhelmsen, 2015-10-28 The Metaphysics of Love develops the existential metaphysics of St Thomas Aquinas applying it to explore the ontological structure of the human person Published first in 1962 this book demonstrates the fertility of Thomistic metaphysics and the enduring influence of Thomism on Western philosophy It uncovers the ecstatic structure of human existence in dialogue with philosophers ranging from Plato Aristotle and Aquinas to Kant Hegel Heidegger Tillich Zubiri and Ortega y Gasset as well as theologians and historians Romano Guardini Hilaire Belloc and Eric Voegelin Philosophical and theological examinations of love have in various ways raised the following question how can love of self eros be harmonized with love of others agape These types of love represent two drives Wilhelmsen argues that in the end must be seen as aspects of existence itself Moral and psychological problems of love turn out to be manifestations of metaphysical issues While different cultures have emphasized one of these drives or the other a healthy culture will not completely forget either Cultures differ in the way they emphasize one or the other or flee from one or the other These dimensions of human existence provide the framework for a person's love of self neighbor and God This volume is part of Transaction's Library of Conservative Thought series    The Metaphysics of Sexual Love Arthur Schopenhauer, 1986-10    *The Metaphysics of Intimate Love* Arthur Schopenhauer, 1989-11-01

**The Metaphysics Of The Love Of The Sexes** Arthur Schopenhauer, 2013-09-28 Is Love an Illusion What is the relationship between Love and Sexual Impulse Schopenhauer gives us a new way of thinking about relationships between men and women    **The Metaphysics of Love** William Borman, 1987    *The Metaphysics of Love* Albert James Smith, 1985-01-28 The author presents a wide ranging account of the evolution of ideas of love from the twelfth to the seventeenth century    **Eros and the Mysteries of Love** Julius Evola, 1991-04 A controversial philosopher and critic of modern Western civilization Julius Evola 1898 1974 writes about the mystical and spiritual expression of sexual love This in depth study explores the sexual rites of sacred traditions and shows how religion mysticism folklore and mythology all contain erotic forms in which the deep potentialities of human beings are recognized    **The Metaphysics of the Sexual Love** Arthur Schopenhauer, 2018-12-12 Schopenhauer innovates by introducing the issue of sexuality into western philosophy Of course his assessment of it is not an encouraging one For him it embodies the will to life more strongly than any other urge or desire hence it is responsible for the misery of the human condition more than anything else Even the most elevated form of romantic love is nothing but a mental addition or justification for the natural need for sex and the species desire to maintain itself After succumbing to our sexual desires he says we realize that we have once again been deceived by the

instinct of survival that seeks procreation through us The lessening of sexual desire with age is thus to be welcomed as a liberation  
Needless to say Schopenhauer remained celibate throughout his life Schopenhauer New world encyclopedia

**The Enlightened Relationship** Steve Smith LMFT,2014-07-18 As humanity evolves into higher states of consciousness so must our model of partner relationships Author Steve Smith LMFT explains the benefits of transforming the faulty beliefs and assumptions we currently hold into the emerging paradigm of relationships This new frontier includes a practical knowledge of metaphysical principles and how they directly impact our experiences The author recounts his personal realization that at our very core exists the unconditional love of creation which is the thread that binds us all together With lighthearted humor he describes how to cultivate this love and apply it in our lives so that we can experience the beauty and glory of an enlightened relationship    *A Metaphysics of Love* George Pattison,2021 As the third part of a philosophy of Christian life this study builds on a view of Christian life as shaped by the dynamic of call response and promise Leading scholar George Pattison argues that love is the ultimate content of this dynamic and considers how far this claim extends

**The Metaphysics of Love** Stella Sandford,2001-11-01 Emmanuel Levinas is best known for having reintroduced the question of ethics into the Continental philosophical tradition In *The Metaphysics of Love* however Stella Sandford argues that an over emphasis on ethics in the reception of Levinas's thought has covered over both the basis and the details of his philosophical project a metaphysics which affirms the necessity to think of an unqualified transcendence as a first principle Sandford's book is at the same time a powerful feminist critique of both Levinas's gendered philosophical categories and the attempt to reclaim aspects of this philosophy for feminist theory    **The Metaphysics of Love** Booker T.

Washington,2017-07-05 *The Metaphysics of Love* develops the existential metaphysics of St Thomas Aquinas applying it to explore the ontological structure of the human person Published first in 1962 this book demonstrates the fertility of Thomistic metaphysics and the enduring influence of Thomism on Western philosophy It uncovers the ecstatic structure of human existence in dialogue with philosophers ranging from Plato Aristotle and Aquinas to Kant Hegel Heidegger Tillich Zubiri and Ortega y Gasset as well as theologians and historians Romano Guardini Hilaire Belloc and Eric Voegelin Philosophical and theological examinations of love have in various ways raised the following question how can love of self eros be harmonized with love of others agape These types of love represent two drives Wilhelmsen argues that in the end must be seen as aspects of existence itself Moral and psychological problems of love turn out to be manifestations of metaphysical issues While different cultures have emphasized one of these drives or the other a healthy culture will not completely forget either Cultures differ in the way they emphasize one or the other or flee from one or the other These dimensions of human existence provide the framework for a person's love of self neighbour and God This volume is part of Transaction's Library of Conservative Thought series    **Sexuality and the Metaphysics of Love** Okwudili Ogbu,2004

if we loved ourselves more than we could imagine We are told to love ourselves but we don't know how or even why What if we learned actual techniques that helped us love ourselves and align our energy with our Higher Self and the Universe for a more joyous life It's possible and it just takes willingness and practice When we learn and use real tools we are better able to surf the waves of life and meet life with grace When we learn how we are resisting loving ourselves and learn how to allow the love we are to flow through us we utilize the buoyant loving energy of the Universe to flow more smoothly and joyously through life Everything is energy including us When our energy is in balance and flows smoothly we feel harmonious peaceful and aligned with our true nature our Higher Self part of the Universe This is our natural state Daily life often seems to interrupt our connection with our true state of being By working with our energy and metaphysical principles we can remember who we really are we realign with our true self which is pure Love and experience the ease peace and joy that results Metaphysics is about using the energy we are beyond our body in a practical way while we are in this body By understanding that we are both human and Divine and having compassion for how challenging it is to live in this world we begin to understand Love the most powerful force in the Universe This is not mysterious this is very real and very available to each of us The keys to healing are Love and Willingness The keys are yours for the taking *A Metaphysics of Love* George Pattison,2021 As the third part of a philosophy of Christian life A Metaphysics of Love builds on a view of Christian life as shaped by the dynamic of call response and promise It argues that love is the ultimate content of this dynamic and considers how far this claim extends Taking its bearings from Dante's vision of divine love as the power that moves the sun and other stars this study explores the requirement that love is both human and cosmic uniting being and beings Cognizant of much recent philosophy's desire to overcome or move beyond a metaphysics of being it examines some of the formal structures that make love possible including language time social being forgiveness and ultimacy Following on from the earlier volumes extensive use is made of the idea of the poetic as the eminent mode of Christian witness contextualized within the prose of everyday life Heidegger provides fundamental philosophical orientation whilst key features of love are brought to the fore through dialogue with Kierkegaard Dante and Dostoevsky are frequent points of reference in addition to a range of literary and religious sources including the Scottish poet Edwin Muir Leading scholar George Pattison concludes that the phenomenon of love requires us to articulate a metaphysics that involves both being and nothingness thereby taking a critical position vis-à-vis both classical theism and existential atheism *The Analysis of Love* Hovagim Mikael Chieftain,1925
