Metaphysics Peter Van Inwagen, Dean W. Zimmerman, 2008 his extensively revised and expanded edition of van Inwagen and Zimmerman's popular collection of classic and contemporary readings in metaphysics now features twenty two additional selections and new sections on existence and modality the volume poses questions that lead to the deepest issues in traditional metaphysics including problems about the nature of space and time the relationship between body and mind and the freedom of the will With updated commentary from the editors this collection is essential reading for those seeking answers to some of the most puzzling questions about the world and our place in it **Metaphysics** Peter van

Inwagen, 2018-05-04 With thoughtful and engaging prose noted scholar Peter van Inwagen provides a comprehensive introduction to metaphysics in this essential text Metaphysics covers the gamut of historical and contemporary arguments of metaphysics engaging readers through three profound questions What are the most general features of the world Why is there a world and what is the place of human beings in the world The thoroughly revised fourth edition includes an updated and rewritten chapter on temporality and significant improvements to the clarity and accessibility of the language making it an even more valuable text for undergraduate students Metaphysics remains the quintessential book in this field of study and a fascinating book for a wide range of readers from those new to the subject to the most sophisticated philosophers

Philosophical look at the big questions **The Big Questions** Robert C. Solomon, 1986 **Idealism and the Harmony of Thought and Reality** Thomas Hofweber, 2023-01-24 Do human beings have a special and distinguished place in reality In *Idealism and the Harmony of Thought and Reality* Thomas Hofweber contends that they do We are special since there is an intimate connection between our human minds and reality itself This book defends a form of idealism which holds that our

human minds constrain but do not construct reality as the totality of facts Reality as the totality of facts is thus not independent of our minds and our minds play a metaphysically special role in all of reality But reality as the totality of things is taken to be completely independent of us Hofweber's proposed form of conceptual idealism is formulated via the notion of a harmony between our minds and reality This harmony is defended through considerations in the philosophy of language How can one possibly defend a metaphysical thesis like idealism from considerations about our own representation A key step in the book's argument is to consider a special class of concepts inescapable concepts which we cannot rationally replace with different ones This leads to a new approach for making progress in metaphysics immanent metaphysics which is broadly neo Kantian in spirit *Proceedings and Addresses of the American Philosophical Association* American Philosophical Association, 2007 List of members in v 1 **Being, Freedom, and Method** John A. Keller, 2017 John Keller presents a set of new essays on ontology time freedom God and philosophical method Our understanding of these subjects has been greatly advanced since the 1970s by the work of Peter van Inwagen In this volume leading philosophers engage with his work and van Inwagen himself offers selective responses **Problems in Value Theory** Steven B. Cowan, 2020-02-06 Problems in Value Theory takes a pro and con approach to central topics in aesthetics ethics and political theory Each chapter begins with a question What Makes Actions Right or Wrong Does Morality Depend on God Do We Need Government Contemporary philosophers with opposing viewpoints are then paired together to argue their position and raise problems with conflicting standpoints Alongside an up to date introduction to a core philosophical stance each contributor provides a critical response to their opponent and clear explanation of their view Discussion questions are included at the end of each chapter to guide further discussion With chapters ranging from why the government should never wage war to what is art and does morality depend on God this introduction covers questions lying at the heart of debates about what does and does not have value Ways of Being in the World Andrea Sullivan-Clarke, 2023-08-22 Ways of Being in the World is an anthology of the Indigenous philosophical thought of communities across Turtle Island offering readings on a variety of topics spanning many times and geographic locations It was created especially to meet the needs of instructors who want to add Indigenous philosophy to their courses but are unsure where to begin as well as for students Indigenous or otherwise who wish to broaden their horizons with materials not found in the typical philosophy course This collection is an invitation to embark on a relationship with Indigenous peoples through the introduction of their unique philosophies *The Philosophical Review* Jacob Gould Schurman, James Edwin Creighton, Frank Thilly, Gustavus Watts Cunningham, 1927 An international journal of general philosophy **Aquinas and the Ship of Theseus** Christopher M. Brown, 2005-05-30 Thomas Aquinas has always been viewed as a highly important figure in Western Civilization and the chief philosopher of Roman Catholicism In recent decades there has been a renewed interest in Aquinas thought as scholars have been exploring the relevance of his thought to contemporary philosophical problems The book will be of interest not only to historians of medieval philosophy but

to philosophers who work on problems associated with the nature of material objects Because human beings are typically understood to be a kind of material object the book will also be of interest to philosophers working on topics in the philosophy of religion philosophy of mind and the philosophy of human nature Although the work contains the kinds of details that are necessary for a work of historical scholarship it is written in a manner that makes it approachable for undergraduate students in philosophy and so it would be a welcomed addition to any university library

Philosophy of the History of Philosophy Nathaniel Goldberg, 2025-11-27 Answers three urgent questions that all philosophers face How do philosophy and the history of philosophy relate how should philosophers generally approach the history of philosophy and what reasons should philosophers who are not historians of philosophy study the history of philosophy

Beyond Eden [distorting Symmetree] Julia Hölzl, 2007-09 Master's Thesis from the year 2006 in the subject Philosophy Philosophy of the Present grade A sehr gut University of Innsbruck 148 entries in the bibliography language English abstract Ainsi toute la Philosophie est comme un arbre dont les racines sont la Métaphysique le tronc est la Physique et les branches qui sortent de ce tronc sont toutes les autres sciences This Cartesian scala praedicamentalis still represents the fundamentalist traits of western philosophy with a clear Grund with metaphysics as its roots a set of narratives that constitute this foundation and various disciplines embedded in fragmentary dualities As the roots nourish the tree we share its hierarchical ontology metaphysics In order to de-form this arborescent symmetree the Grund is replaced by weak metaphysics while the former represents the linear strive towards the utopian further no future the latter is the beyond paradise now While metaphysics has violent answers metaphysics poses no non-violent questions Evidently this attempt requires an abandonment of the pleasant path of discursive symmetrical theory Thus in a second step the homogeneous roots are extracted by means of manifold rhizomes eventual compositions give way to eventual and therefore non-violent TRANSitions
