**Bertrand's Gaspard de la Nuit Beyond the Prose Poem** Valentina Gosetti,2016-03-22 Aloysius Bertrand's Gaspard de la Nuit 1842 is a familiar title to music lovers thanks to Ravel's piano work of the same name and to specialists of French literature especially those interested in Baudelaire's prose poetry. Yet until very recently the collection and its author have generally been viewed almost exclusively through the prism of their pioneering role in the development of the prose poem. By placing Bertrand back in his original context adopting a comparative approach and engaging with recent critical work on the collection Valentina Gosetti proposes a substantial reassessment of Gaspard de la Nuit and promotes a new understanding of Bertrand in his own terms rather than those of his successors. Through his playful and ironic reinterpretation of Romantic clichés and his overt defiance of the boundaries of poetry and beauty Bertrand emerges as a fascinating figure in his own right. This book is one of the first full length studies of Bertrand's work and it will be of particular interest to specialists of the nineteenth century and of provincial literature and to students of nineteenth century poetry or the fantastic    *The Works of Edgar Allan Poe: Eureka; a prose poem. *Bradbury Beyond Apollo* Jonathan R. Eller,2020-08-22 Celebrated storyteller cultural commentator friend of astronauts prophet of the Space Age by the end of the 1960s Ray Bradbury had attained a level of fame and success rarely achieved by authors let alone authors of science fiction and fantasy. He had also embarked on a phase of his career that found him

exploring new creative outlets while reinterpreting his classic tales for generations of new fans Drawing on numerous interviews with Bradbury and privileged access to personal papers and private collections Jonathan R Eller examines the often overlooked second half of Bradbury s working life As Bradbury s dreams took him into a wider range of nonfiction writing and public lectures the diminishing time that remained for creative pursuits went toward Hollywood productions like the award winning series Ray Bradbury Theater Bradbury developed the Spaceship Earth narration at Disney s EPCOT Center appeared everywhere from public television to NASA events to comic conventions published poetry and mined past triumphs for stage productions that enjoyed mixed success Distracted from storytelling as he became more famous Bradbury nonetheless published innovative experiments in autobiography masked as detective novels the well received fantasy The Halloween Tree and the masterful time travel story The Toynbee Convector Yet his embrace of celebrity was often at odds with his passion for writing and the resulting tension continuously pulled at his sense of self The revelatory conclusion to the acclaimed three part biography Bradbury Beyond Apollo tells the story of an inexhaustible creative force seeking new frontiers   **Eureka: a prose poem.
