## **Marxism In The Modern World:**

Marxism in the Modern World Milorad M. Drachkovitch, 1968      Marxism in the Modern World Revolution and Peace Hoover Institution on War, 1965      Marxism in the Modern World Hoover Institution on War, Revolution, and Peace, 1965 Conference organized by the Hoover Institution on War Revolution and Peace at Stanford University Bibliographical references included in Notes p 275 293      **Marxism in the Modern World** Raymond Aron, 1965      *The Unfinished Revolution* Adam B Ulam, 2019-06-26 Marxism has been the most pervasive and widespread ideological phenomenon of our times but seldom if ever has it been found in its form Whenever the Marxist ideology has been historically significant it has been so as a beneficiary and associate of another set of political beliefs and passions As a contender for power it seeks to express the dreams and yearnings of societies caught in the painful process of modernization and industrialization In power it tends to pay lip service to its lofty goals but associates them with old fashioned nationalism Practice does not reflect theory Ruling elites and parties surpass traditional capitalism in their dedication to political centralization and industrialism at all costs This revised edition of Adam Ulam s standard work retains the author s summary and critique of Marx s historical economic and political arguments Ulam then examines the relationship of Marxism to other schools of contemporary socialism and to other radical and revolutionary theories He traces the development of Marxian thought explains why it has been the potent force in certain societies while in other societies its influence has been insignificant and analyzes how Marxism and Leninism have affected the shaping of Russian Communism Finally Ulam looks at Marxism in the future the role it will play in the development of the Soviet Union and how it will affect the contemporary crisis of liberal institutions in the West      *Everyday Life in the Modern World* Henri Lefebvre, 2023-09-28 Philosopher sociologist and urban theorist Henri Lefebvre 1901 1991 was one of the great social theorists of the twentieth century and pioneered the theorization of everyday life and space In this fascinating book which became a manifesto for urban activism upon its first publication in the 1960s Lefebvre poses a major question what gives a society undergoing constant change the illusion of stability For Lefebvre the answer is that our everyday lives are the product of decisions from which we are alienated resulting in what he memorably describes as terror enforced passivity Modern capitalism produces and controls the space around us the buildings we work in the roads we drive on and even the parks surrounding us are artificial and controlled isolating the individual in a life of repetition Lefebvre rejects such a world of control and monotony urging instead a spontaneous utopian creativity in which human beings can engage in meaningful work and leisure Profound and prophetic for its insights into the impact of capitalism and urbanization *Everyday Life in the Modern World* remains a classic work by a towering thinker and essential reading today This Routledge Classics edition includes a new Foreword by Claire Revol and Rob Shields      Events That Formed the Modern World Frank W. Thackeray, John E. Findling, 2012-05-31 This comprehensive five volume set contains readable essays that describe and interpret the most important global events since the European Renaissance some

accompanied by related document excerpts and primary source materials What were the effects of the Age of Exploration on today's ethnic groups and social structure How did the development of moveable type pave the way for Facebook and Twitter Why is the Reformation so critical for understanding today's religious controversies This set will help readers answer these questions by exploring the most significant historical events of the modern world This five volume set covers times from the Renaissance to the present Each volume focuses on a specific historic period and examines 12 events within those time frames that changed the world Each entry provides an introduction that lays out factual material in a chronological manner an in depth essay interpreting the event's significance and an annotated bibliography of the most important current works on the topic Select entries are followed by primary sources pertaining to the event under consideration such as diary entries Targeted to both general readers as well as entry level university students this book also directly supports high school and undergraduate curricula allowing students to identify and contextualize events in order to think critically about their causes aftermath and legacy
