## Marxist Reader:

*The Marxist Reader*, 1982     A Reader's Guide to Marx's Capital Joseph Choonara, 2019-07-19 p This book carefully guides the reader through each chapter of the first volume of Capital It sets Marx's arguments in context and explains their relevance today and it offers insights into Marx's method highlighting key concepts running through the book It also offers pointers to wider works that can provide further illumination     From Marx to Gramsci Paul Le Blanc, 1996 Historical reflections are blended with discussion of the durability of capitalism the disappointment of hopes for workers revolution the collapse of communism issues of race and gender the environment and challenges of the twenty first century     **The Council Communist Reader** Paul Mattick, Otto Rühle, Karl Korsch, Herman Gorter, Franz Pfemert, Anton Pannekoek, 2021-05-24 Workers councils does not designate a fixed form of organization elaborated once and for all and for which all that remains is to perfect its details it concerns a principle that of workers self management of the enterprise and of production The realization of this principle can never occur through a theoretical discussion concerning the best means of execution It is a question of the practical struggle against the apparatus of capitalist domination Anton Pannekoek The Council Communist Reader is a collection of selected writings from a few council communists Council Communism emerged in Holland and Germany in the 1920s as an alternative to Bolshevik and Marxist Leninist thought up to the Third International Council Communist theory was derived from workers experiences in the German Revolution of 1918 the early years of the Weimar Republic and the study of the early council movements in Russia in 1905 and 1917 They sought not to impose a kind of organization upon the workers movement but instead to uplift the form of councils as spontaneous and self emancipatory for the working class This was a throughline for the council communists to connect back to Marx's understanding of proletarian revolution in maintaining the emancipation of the working class is the task of the workers themselves Council communism was not to be a new ideology for the working class but to take a critique of state socialism back to the roots of self emancipation towards theoretical coherence which can combat all forms that hinder emancipation and move this theoretical coherence into practice From this and their understanding revolutionary consciousness develops as a result of crisis revolution is not a choice but a necessity The works included in this book have been chosen to reflect the developments of Council Communism over decades this is not an exhaustive encyclopedic collection of all councilist texts but a collection of key texts This book in the Radical Reprint series from Pattern Books is made to be accessible and as close to manufacturing cost as possible     Reading Marx Writing Thomas M. Kemple, 1995 Employing the insights of recent cultural critics Reading Marx Writing uses the eight notebooks the Grundrisse Marx worked on in 1857-58 to examine his literary political and scientific imagination and the fictional writers he admired By exploring the Grundrisse the project or plan that Marx did not carry through the author speculates on the limits and possibilities of Marx's interpretive approach for addressing current issues in philosophy and hermeneutics critical sociology and political economy and aesthetics and literary

criticism The study employs certain literary works notably a scene from Goethe's Faust and several stories from Balzac's Comedie humaine as looking glasses or sounding boards for Marx's political and scientific concerns and to connect themes emerging from the cultural economy of the nineteenth century These literary works are treated less as dramatic illustrations of Marx's life or depictions of his scientific insights than as interpretive frameworks or social fictions which give shape to both Marx's text and the writings of others working in his wake Through an innovative blend of German critical theory Lukacs Marcuse and Habermas French post structuralism Althusser Lyotard and Baudrillard and Anglo American cultural criticism Jameson Mitchell and O'Neill the author develops a unique method for articulating the play of image text and even music within Marx's human scientific discourse
