Marxist Sociology Revisited Critical Assessments:

Marxist Sociology Revisited Martin Shaw,1985 **Marxist Sociology revisited** Martin Shaw (omonimi non identificati.),1985 [Beyond Realism and Marxism](#) A. Linklater,1990-02-06 This book discusses the challenge to realism which proponents of international political economy and critical theory have mounted in the last few years and examines the changing relationship between realism and Marxism It is aimed at students of approaches to international relations *Karl Marx and the Critical Examination of His Works* Leslie R. Page,1987 *The Study of International Relations* Hugh C. Dyer,Leon Mangasarian,1989-10-16 This wide ranging study surveys the present state of international relations as an academic field It locates and assesses recent developments in the field in short what is being done where by whom and why The editors have focused on some central and controversial theoretical issues and included surveys of principal sub fields as well as the various approaches to the study of international relations in different countries The book provides a comprehensive overview of an important and fast growing area of academic endeavour and is essential reading for teachers and students of international politics and the social sciences at large [Global Easts](#) Jie-Hyun Lim,2022-07-05 South Korean historian Jie Hyun Lim raised under an anticommunist dictatorship turned to Marxian thought to explain his country's development even as he came to struggle with its Eurocentrism As a transnational scholar working in postcommunist Poland Lim recognized striking similarities between Korean and Polish history and politics One realization stood out Both Korea and Poland at once the West for Asia yet Eastern Europe had been assigned the role of East This book explores entangled Easts to reconsider global history from the margins Examining the politics of history and memory Lim reveals the affinities linking Eastern Europe and East Asia He draws out commonalities in their experiences of modernity in their transitions from dictatorship to democracy and in the shaping of collective memory Ranging across Poland Germany Israel Japan and Korea Lim traces the global history of how notions of victimhood have become central to nationalism He criticizes mass dictatorships of right and left in the Global Easts considering Nazi jurist Carl Schmitt's notion of sovereign dictatorship and the concept of decisionist democracy Lim argues that nationalism is inherently transnational critiquing how the nationalist imagination of the Global East has influenced countries across borders Theoretically sophisticated and conceptually innovative this book sheds new light on the transnational complexity of historical memory and imagination the boundaries between democracy and mass dictatorship and the fluidity of East and West **Developmental and Cultural Nationalisms** Radhika Desai,2013-10-18 Premature announcements of the eclipse of nation states under globalization and empire stand exposed as the 21st century's first economic crisis underlines their continuing importance A predominantly cultural study of nationalism was unable to resist the globalization thesis Focusing on selected Asian cases this book argues that nationalisms have always contained political economies as well as cultural politics Placing nation states centrally in our understanding of modern capitalism it challenges the globalization thesis Rather than eclipse nations and nationalisms have

undergone changes under the impact of neoliberalism since the 1970s Classical 20th century developmental nationalisms emphasised citizenship economy and future orientations Later cultural nationalisms Asian values Hindutva Confucianism or Nihonjiron stressed identity culture and past orientations Amid neoliberalism s flagrantly unequal political economy not primarily concerned with material production or productivity they glorified static conceptions of original cultures and identities whether religious ethnic or other and justified inequality as cultural difference In contrast to the popular mobilizations which powered developmental nationalisms cultural nationalisms thrived on neoliberalism s disengagement and disenfranchisement albeit partially compensated by the political baptism of newly enriched groups Extremist wings of cultural nationalism in some countries were a function of this lack of popular support This book was published as a special issue of *Third World Quarterly*

Blackness Visible Charles W. Mills, 2015-11-20 Charles Mills makes visible in the world of mainstream philosophy some of the crucial issues of the black experience Ralph Ellison s metaphor of black invisibility has special relevance to philosophy whose demographic and conceptual whiteness has long been a source of wonder and complaint to racial minorities Mills points out the absence of any philosophical narrative theorizing and detailing race s centrality to the recent history of the West such as feminists have articulated for gender domination European expansionism in its various forms Mills contends generates a social ontology of race that warrants philosophical attention Through expropriation settlement slavery and colonialism race comes into existence as simultaneously real and unreal ontological without being biological metaphysical without being physical existential without being essential shaping one s being without being in one s

shape His essays explore the contrasting sums of a white and black modernity examine standpoint epistemology and the metaphysics of racial identity look at black Jewish relations and racial conspiracy theories map the workings of a white supremacist polity and the contours of a racist moral consciousness and analyze the presuppositions of Frederick Douglass s famous July 4 prognosis for black political inclusion Collectively they demonstrate what exciting new philosophical terrain can be opened up once the color line in western philosophy is made visible and addressed
